committee with some verbal amendments, which were accepted by the government. It now stands for third reading.

By consent of the house public bills and orders were then called, and Mr. Bradbury (Saskatchewan) moved the second reading of his bill to prohibit the pollution of navigable streams of waters. After some discussion, during which the Ottawa water supply was vigorously denounced, the bill was given its second reading and referred to a special committee, together with the bill of similar import which recently passed the senate.

This committee is composed of Hon. J. D. Hazen, Hon. Martin Burrell, Hon. Dr. Beland, Chas. Murphy, Baker, Bradbury, Crockett, Kyte, McCole, McCrory, McCurdy, Malloy, Northrup, Severyn, Warnock and H. Wilson (Wentworth).

NEW LABOR UNION.

An organization has been formed of the architectural, ornamental iron, brass, bronze and wire workers of this city, obtaining its charter on April 21 from the International Labor Congress. The organization has affiliated itself with the Bridge and Structural Iron Workers' Union, under the leadership of Mr. Platt. The newly formed union held its second meeting at the Labor Temple last night to discuss better labor conditions and higher wages.

Regular meetings will be held on the second and fourth Fridays in each month at 8 p.m.

Profr. Koenig is educating Billy Crane, a 3-year-old brown paining gelding, by Fritz Binken, 2:15, that is owned by Charles Snow, secretary of the Toronto Driving Club, and the youngster shows improvement with each succeeding work.

CONQUER RHEUMATISM AT YOUR OWN HOME

Many of your friends suffer from rheumatism, kidney disorders or other ailments, causing lameness, muscular pains, stiff, painful joints, pain in the limbs and other troubles. HYDRO'S FRIENDS BACK UP HOCKEN

Church and Foster "Two Astonishing Misfits," Comments Galt Paper.

GALT, Ont., April 25.—Galt regards itself as cradle of the Hydro-Electric movement, being the scene of initiative steps to organize the powerful union of municipalities which forced the movement on the public and compelled the serious attention of the government. Necessarily the town takes keen interest in all matters in which the interests of Hydro-electric and public ownership are concerned, hence the following editorial observations of The Galt Reporter on the situation in Toronto:

"We beg to differ from the Hon. Adam Beck and those two astonishing misfits who serve on Toronto's Board of Control in the opinion expressed in the action of Mayor Hocken in approaching the legislature for permissive legislation for the purchase of the Toronto Street Railway and the Toronto Electric Light Co. We don't believe Mayor Hocken, W. K. McNaught and the men working with them meant to play this Hydro-municipalities a shabby trick. Some of the gentlemen who now profess to be anxious to save Toronto from itself would joyfully kill the public ownership movement were it possible to do so. The Churches and Fosters are mere flies on the wheel."

PEOPLE BENEFIT BY NEW LAWS PASSED

Continued From Page 1.

is henceforth tabooed under severe penalty. Both the clergyman and the issuer of the license are held responsible in the linking of parties who are not mentally responsible or under the influence of liquor, and the reputation of border towns as small Greena Greens is discouraged by restrictions as to time of residence and the publishing of marriage notices.

Mousing Problem.
In a somewhat different field an important measure granting to municipalities the right to guarantee the bonds of house companies up to eighty-five per cent, is expected to solve the problem which is facing many cities today. Children, too, come in for considerable attention in the Neglected Children's Act amendment. The curfew is revived in spirit, and young girls in the habit of accompanying street pianos are to be kept off the streets. Newsboys and others under the age of ten also are prevented from peddling pencils and other material on the streets, and neglected children by an order of the court may be made wards of a children's aid society.

Not least in importance are the new amendments to the Liquor License Act, which cut off two hours of the time of sale in the morning and prohibit the sale of liquor in bottles across the bars of hotels. This latter was especially designed to protect local option districts from annoyance proceeding from taverns in proximity. Further, every stable and lounging places are included under the restrictions now placed on boarding houses in the matter of containing liquor, and penalized in a similar manner.

Telephone Systems.
Telephones are considered in a bill of Hon. L. B. Lucas, which grants additional powers to municipalities in extending a local franchise for a year without appeal to the voters on the understanding that it be considered at the following regular elections. Municipalities also have the right to co-operate in the forming of a telephone system.

Under the caption of public health, the board of health is empowered to enforce certain orders without appeal to the people. If sanitary conveniences are thought necessary by the inspectors for private houses, they may be ordered, and the same applies in a larger fashion to sewage systems.

The carrying of automobiles is brought some advanced legislation in the form of reciprocity between provinces of license on agreement, and conditions under which cars must be used on highways. Geo. H. Gooderham of Toronto, and Mayor J. A. Ellis of Ottawa, sponsored bills in this regard. The carrying of sleds, the misuse of alarms and the regulation of traffic for ordinary vehicles and motors were all dealt with hereafter.

Municipalities in control of their streets may order the use of side lights after nightfall, and legislation was introduced to ease the congestion and prevent accidents where cars are discharged on taking on passengers. In addition, every driver of a motor car must have a license, and chauffeurs pass an examination before employment.

BABY'S OWN TABLETS USED FOR TEN YEARS.

When one medicine is used in a home for a number of years it is the strongest testimony as to the value of that particular remedy. Thousands of mothers have been using no other medicine but Baby's Own Tablets for years—in fact, many of them say they would have no other medicine in the house. Concerning them, James H. Konkle, Beamsville, Ont., says: "I have used Baby's Own Tablets for ten years, and would not be without them as long as there are children in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Briar Hill Park

Briar Hill Park has the same charming situation that has made Alexandra Gardens one of the most desirable of residential properties.

It is directly north of Upper Canada College, and practically adjoins the site of the new McMaster University. It is situated at one of the highest points in Toronto, away from the smoke and noise of the city, and is acknowledged to be one of the choicest sections of this ideal residence district.

Briar Hill Park is one of the most reasonably priced of the high-class residential properties being offered to-day. As an investment, it promises to repeat the success that has attended our selling of the "Gardens."

Lots Now at \$18 Per Foot Upwards

The property is but a few steps from Stops 16 and 19 on the Metropolitan Railway. The Metropolitan is now authorized to run on Sundays, and it is expected that additional car lines will be constructed, which will give further service to this district.

Our motors are at your service to show you over the property.

Get This, Men!

It's handed out fair and square by those whose business it is to test and judge. They have sworn that there is no tobacco grown on the island of Cuba that could be better than the filler that goes into MARLBOROUGH, and this we improved greatly by our old-fashioned seasoning method, which matures the leaf naturally and sweetly to a perfect mellow mildness. Ask any expert in tobacco and he will gladly tell you that you could not get better value. MARLBOROUGH tastes moreish every time you light one up: it's just kind of lingers with you; it's so fresh and friendly-like; it's the one cigar that's got everything that any man who knows the delight of a really good smoke ever dreamed of. Just try one, and the first thing you'll do next is to light up another one; that's the surest thing you know. Get this thought, there never was a cigar at any price like

MARLBOROUGH

and when dealers offer you something just as good, remember there's two things that are never counterfeited, plugged nickels and ordinary cigars. Men all over the country send for MARLBOROUGH, because it's always sweet, delicious and fragrant.

Marlborough 5c each. Box of 50, \$2.50. Per 100, \$5.00. Per 1,000, \$50.00.
