Chivington's League, Too.
CHICAGO, Jan. 28.—The American Association has taken another big s.ep—the biggest so far—in its progress toward the high places of baseball; according to President Chivington, having gained from the national commission has agreed to grant the association the right to enter certain cities now in the American or National commission and participation in the national commission and participation in the world's championship series are "steps not yet taken," according to Mr. Chivington.

"The concession which was first announced today by President McGill of the Indianapolis Club makes the association a major league on equal terms with the American or National, so far as the draft is concerned. Chivington said: What other differences it will make in inter-league relations will be arranged by the commission, tho action is not expected until after a decision in the anti-trust suit.
