

YORK COUNTY AND SUBURBS

SENECA BAKER IS WARDEN AFTER EXCITING ELECTION

Deadlock With Evans Broken by Appearance of Absent Councillor and Another's Change.

For the second time in twenty-seven years, a deadlock over the election of a warden in York County Council took place yesterday on the first meeting of that body, as at present constituted. When County Clerk Ramsden took the chair at 2 o'clock there were present thirty members, First Deputy Reeve Paterson of Scarborough being the only absentee when the proceedings began. Nominations for warden brought out Reeve J. D. Evans, Etobicoke, nominated by Messrs. Donohue, Blaine, and Paterson, and Deputy Reeve Warriner, Etobicoke; Reeve Seneca Baker, Whitby, nominated by Messrs. Young, Scarborough, and Deputy Reeve Hill, Whitby; and Deputy Reeve George S. Henry, by First Deputy Reeve John Watson and Third Deputy Reeve Nelson. The first vote resulted: Baker 15, Evans 11, Henry 4. Reeve Henry retired and the second and third votes stood: Baker 15, Evans 15. A long controversy ensued over the legality of proceeding further with the balloting, and all efforts to arrive at a conclusion were fruitless. The situation was, briefly, thus: When the legislature remodelled the County Council act no provision was made in respect to the election of wardens, and the law, as applicable under the by-law as passed by the county council, was accordingly null and void. This he declined to do offhand. On motion, nominations were again called for. In the meantime, Deputy Reeve Paterson arrived and was allowed to vote, and Deputy Reeve Watson, who had hitherto supported Evans, supported Baker, the vote being: For Baker—Coulson, Devins, Baker, Foot, Hill, Irwin, Keith, Knowles, Lapp, Legge, Longhouses, Moore, Thompson, Watson, Young—16. For Evans—Barber (York), Barker (N. Gwillimbury), B. Evans, Henry, H. G. MacLean, Pugsley (R.H.), Pugsley (Sutton), Slater, Speight, Warriner—15. The warden-elect was escorted to the chair by his mover and seconder, and promised to further in every way possible the interests of the county. The other councillors are Messrs. Evans, Pugsley, Henry, Speight, Legge, Slater and Moore. Mr. Baker, a native of Whitby, a member of the Baptist Church. He has since served some ten years in the township and county councils. He is a successful farmer, and on a former occasion, against T. J. Woodcock, came within one of being elected warden.

The tendency is towards higher prices for furs, and those who wait till next season must expect to pay more. We're reducing prices now in advance of stock-taking. Those who anticipate needs can save a quarter to a third of their money. If you have any idea of new furs for this winter or next, now's your chance to buy to advantage.

NO ELECTION UNTIL 1908.

Sir Richard Cartwright Says So—Liberals Discuss Preference.

Ottawa, Jan. 22.—(Special.)—The Liberal caucus this morning was presided over by Mr. Wright (S. Fenwick) and was attended by Sir Wilfrid Laurier and all the cabinet. The only matter discussed was Hon. Logan's resolution to confine the British preference to goods entered at Canadian ports. This was strongly objected to by the western members, as placing the west at the mercy of the C. P. R. The government will approve the principle, but no legislation will follow.

WAS OFFERED \$4,000,000.

But James Ross Refused It Because Other Shareholders Weren't In It.

Montreal, Jan. 22.—(Special.)—Recently reports have been current that when some Dominion Steel interests contemplated the purchase of the personal coal stock holdings of James Ross they offered him a little over \$4,000,000 for his 40,000 shares. On good authority, however, it is said that a powerful junta behind him, headed by the minister of the interior, refused to buy out the rest of the shareholders on the same basis, as the plan was to give the shareholders a 5 per cent. debenture.

Challenge Forwarded.

A challenge has been forwarded to the Motor Yacht Club of England by the Motor Boat Club of America, claiming the title, owned by Commodore Edward J. Schrieber, as the representative of America for the British International Trophy, which was last year won by the Yarrow-Napier, representing England.

DR. WOOD'S NORWAY PINE SYRUP

This wonderful cough and cold medicine contains all those very pine principles which make the pine woods so valuable in the treatment of all lung affections. Combined with this are Wild Cherry Bark and the soothing, healing and expectorant properties of other pectoral herbs and barks.

DR. WOOD'S NORWAY PINE SYRUP

Mrs. H. A. Miesner, Port Williams, N.S., says: "My son had a dreadful cough. It started in the fall and lasted all through the winter. At last we became very much alarmed about it and started to use Dr. Wood's Norway Pine Syrup and before he had used one bottle his cold was completely cured."

Wise Men Wear Furs

A severe winter urges men to be wise and wear furs. A little expense and a great deal of comfort. Our Fur and Furlined Coats are priced so cheap that it's cheaper to enjoy them than to go without them. Reductions cut quite a figure here during our Annual Fur Sale.

- Men's Mix-lined Overcoats, finest imported English beaver shell, either or Persian lamb collars, regular \$275, for... \$235 00

The discounts that are offered throughout all our fur departments held equally good through all other departments, notably our hats and furnishings.

J. W. T. Fairweather & Co. FURRIERS 84-86 Yonge Street.

FUEL FAMINE IN WINNIPEG.

Supply for Rest of Winter is Limited and Inadequate.

Winnipeg, Jan. 22.—(Special.)—Where Winnipeg is to get a fuel supply adequate to requirements of its residents for the remainder of this winter is a problem which is worrying the dealers as well as those who are dependent on the former for their supply. There is not sufficient of either commodity to do. It is charged that the unusual demand at the outside centres has been the real cause of the serious shortage with which the city is now threatened.

VEGETABLES AND FRUIT BILL OF FARE IN COMMONS

Strong Pleas Made for Measure of Protection for Vegetable Growers.

Ottawa, Jan. 22.—(Special.)—When the house met at 3 o'clock to-day but one minister and only a handful of members were present. Sir Wilfrid Laurier, R. L. Borden, Speaker Sutherland and nearly all of the ministers generally the question of the swamped market for vegetables and fruit, which started later and lasted longer than had been anticipated.

SCALDED BY BOILING FAT

Couldn't Use Hand For a Month—Zam-Buk Then Applied and Gave Instant Relief.

An accident in a Toronto home the other day might have had very serious consequences had it not been for Zam-Buk. Miss Martha Green of P. Clarendon street, in taking a pan of boiling fat from the oven, spilt it over her right hand. "The boiling fat ran into the palm of my hand," she says, "and over all my fingers. You may well imagine the agony I suffered in consequence. I was almost wild with the pain. The hand became swollen, and large blisters formed all over the palm and along the fingers. For over a month I was unable to use the hand at all. I tried several kinds of salves and liniments, but the wound seemed apparently no better. It was altogether too severe for these preparations to heal. About this time I was advised to try Zam-Buk. I stopped using all other preparations and applied Zam-Buk instead. The very first application soothed my hand and seemed to draw out the fire and inflammation; and as I kept on using Zam-Buk the blisters gradually dried up and disappeared. In very short time the scald was healed completely."

A MOTHER'S DUTY.

She Should Carefully Guard the Health of Her Growing Daughter—Her Future Happiness Depends Upon the Change From Girlhood to Womanhood.

Every mother should watch with the greatest care the health of her growing daughter. She is a girl to-day—tomorrow a woman. The happy health development depends upon this vital change from girlhood. When nature makes new demands upon her blood supply you must build up her blood with Dr. Williams' Pink Pills. Her system is unequal to that strain if her back aches, if she is pale or thin, dull-eyed or languid. Dr. Williams' Pink Pills will give her new, rich, red blood, and tide her over the crisis. Dr. Williams' Pink Pills will make her development perfect and regular; they will make her a strong, happy, graceful woman. Miss Estelle Villandre, St. Germain, Que., says: "While attending school my health began to give way. I suffered from headaches and dizziness, my appetite left me and I did not help me any my father got me a supply of Dr. Williams' Pink Pills. Before I had used two boxes there was an improvement, and when I had taken a half dozen I was again in perfect health. I believe all weak girls will find new health if they take Dr. Williams' Pink Pills."

increase, and Arch Campbell (Centre York) urged the government to reconsider this item. Mr. Campbell said: "The market gardeners pay taxes on everything they use, and they are the only section of the community who have no proper measure of protection. Why should we discriminate against them? I have tried to argue that before, and I never could get an answer from anyone. Nearly every industry is protected."

There is no man in this country who works harder than the market gardener. I have hundreds of them in my constituency, and I know their condition as I know their views. These men work hard, very hard; they pay their portion of the general taxation. They do not complain of the recognition of the principle of protection, but they ask to share in its benefits."

Mr. Maclean (South York) urged a flexible tariff. The duty might be higher at certain seasons. "If the hon. minister would adopt the principle I suggested he would recognize the season of the world problem, and alter his tariff accordingly. The protection which the Canadian tomato grower asks to-day is against the early tomatoes from the Southern States coming here in competition with the home-grown under glass in this country. If you could give a 5-cent-a-pound duty on that class of vegetable, say during these months and up to the first of June, you would give a substantial protection to something raised in Canada and something which is a luxury."

Mr. Fielding: The idea of imposing one duty at one season of the year and another duty at another has something in its favor, but it would involve a serious departure from the principle upon which we have heretofore dealt with these matters. I think the tomato grower has been placed in a substantially better position, rather than I think he will be well content with this duty, better content than lots of interests that do not get quite all they want. I suggest that the duty probably amount to 30 per cent. That figure may be somewhat high. The rate was 10 or 20 per cent., and this would probably be between 25 and 30 per cent."

After some further discussion, in which Mr. Leachman (Lincoln and Niagara) and E. D. Smith (Westworth) also participated, the government permitted the item to stand over.

Trade Reciprocity. On the item of canned tomatoes, Mr. Marshall (E. Elgin) said that the canners were not on the whole dissatisfied with the tariff, but the American tariff was as high as ours.

Mr. Wright (Renfrew) protested against a high tariff on fruit. He did not want the farmers of Canada to be confined to a diet of dried apples and walnuts.

Dr. Reid (Greenville) intimated that he was opposed to the preferential tariff and to many other parts of the tariff, but the government, he supposed, would stick to the bill as drafted, and pay no attention to any argument.

Mr. Macdonell (St. Toronto) opposed a specific duty on melons, and this item also stood over.

Officers of Local 157. Woodworkers' Local Union No. 157, elected officers last night as follows: President, W. T. Rawlinson; vice-president, D. Bear; recording secretary, D. Clark; financial secretary, C. Glover; treasurer, L. Bear; delegates to the Woodworkers' Council, L. Bear, M. Fint, W. P. G. Fannon, delegates to the Trades and Labor Council, W. T. Rawlinson, J. C. Fannon, L. Bear and S. Baldwin.

SIMPSON COMPANY LIMITED

H. H. FUDGER, Pres.; J. WOOD, Manager. January 23
