The moment you see these suits, you'll wonder how they're made to sell at this price. Well here's the secret.

They were NOT made to sell at this price.

They WERE made to sell at about double this price, and they WILL sell at double this price all through Canada this season. But these are the SAMPLES that sold the suits, these are the representative lines---bound to be exactly as represented, or they would have been N.G. as samples.

Now there are only 150 of them, so they must be extraordinarily good value to justify the space devoted to them here. Well, come and see; there should be two men waiting at eight o'clock on Wednesday morning, for every suit we have to sell.

150 Sample Suits, an assorted lot, consisting of fancy worsteds, in plain and smooth, also unfinished surfaces, this season's newest weaves and designs; also a variety of English and Scotch tweeds, the fashionable 7.95 brown shades predominating, all are well tailored and perfect fitting, sizes 36 to 42 only, which were made to retail from \$10.00 to \$15.00, to clear Wednesday, at .....
