The property be-Wardrope, K.C., is acting. It was decided to open a class for feble-minded children in the Cannon-street Schoool. It was found that two of the teachers in the Ottawa-street School, which recently came under the jurisdiction of the board as the result of annexation. had not the qualifisations required by

the board, and two others will be appointed in their places. The date of reopening of schools was fixed as the first Tuesday after Labor Day. Miss Muriel Eastman wa granted a year's leave of absence owing to

A horrible accident occurred at the Beach to-night, when 8-year-old Dorothy Hastle, daughter of James Hastie of Ottawa was run over and killed by a radial car. The youngster was on a visit to her brother-in-law, C. H. Penny, local agent for the McCooh-mick Biscuit Company of London, and arrived at the beach only yesterdoy. She was on an errand to a grocery store across the road when the 5.30 car from Burlington came along. As the child got on the tracks a woman wh sw he plight called to her, and the younngster became so confused that she stood directly in the path of the car. Her heal was completely severed from her body. The accident happened

fire in the charcoal sheds of the Stanat the foot of Victoria-avenue to-night. It is said that the Ottawa Government is dickering for the purchase of the W. E. Sanford Manufacturing Company's building at the corner of King and John-streets for the purpose of erecting a new postoffice building.

Huge Chunks of Free Gold-Bearing Quartz Taken From New Lead.

schist and diabase.

Manager Gordon of the Little Nipissing has just returned from Toronto. and announces that the winze on No. 2 vein, which has been sunk to gepth of 75 feet from the east drift on the 155 foot level, will be continued down for an additional 50 feet. If the values continue to this depth, the working will be connected with the main shaft at the 280 foot level, and a cage installed for noisting. An extra drill has been purchased for this work. At the bottom of the winze No. 2 and No. 4 veins joined, making a very rich and large ore body. It is probable that a crusher jis and table will be added to the plant

in the near future. On the 100 foot level and 150 feet west of No. 1 crosscut in the Crown Reserve, six inches of ore, running over 6000 ounces, has been cut. The find was made while drifting on a small calcite stringer parallel to the famous Carson vein, and after careful exploration the rich ore body was cut about 30 fe from the Silver Leaf line. It will opened up and blocked out immediat
