### MAKES PLEA FOR LESS CRITICISM OF PUBLIC MEN

Dr. Brittain Stresses Need of Education in Moulding Character

MAKING a plea for less destructive criticism and more effective co-operation with public officials, Dr. Horace L. Brittain, director of the Citizens' Research Institute of Canada, gave an interesting address on "The Foundations of Citizenship" before the Saint John Rotary Club yesterday.

There were three main institutes which had been established in order to meet the needs of man. These were the family, the church and school. All were fundamental to the production of a high standard of citizenship.

The family, or home, said Dr. Brittain, was the basic unit of human relations and was the nursery of citizenship. In the home the selfish young human animal learned to subordinate his desires to the group. Here he received his first painful lessons in co-operation with mother as the team manager and father as the final umpire. The family which graduated its children as self-centred individuals had not only handicapped its children in the battle of life, but had delivered to the state a liability, not an asset.

#### STRESSES EDUCATION

Dr. Brittain stressed the importance of education and the school in moulding the character of the young citizen. A great deal depended on the influence of teachers, especially with children up to the age of seven years. Schools today were doing much more in teaching civics than when the speaker was a boy, and he hoped the time would come when civics would be regarded as the equal in importance of any subject now taught.

"It has become the fashion in certain high-brow quarters to decry the character of the young citizen. With this personally I have no sympathy. What would be the condition if all churches were destroyed, and all congregations were scattered? Would there be less crime? Would life be more secure, and would children be more unselfish and untruthful? And yet while believing there should be as in Canada complete separation of church and state, it seems time that the teaching of citizenship, which is fundamental to a department of civics, should be the vital concern of every church and Sunday school."

**SPRIT OF HARMONY**

In concluding, Dr. Brittain declared that a spirit of destructive criticism was abroad in the land. There was much more disposition to find fault with the work of public officials than to appreciate their work. There were far too many brickbats being thrown at public men and far too few bouquets. A man who was conscientious and desirous of doing his best in the interests of his country was not appreciated as he should be. What was needed was more of the spirit of harmony, co-operation with our public officials.

#### MARRY A SMOKER!

BALTIMORE—Wed a man who smokes if you want a dependable husband, says Dr. Knight Dunlap, Professor of Experimental Psychology at Johns Hopkins University.

So far he has made no investigation of what occurs to a woman if she smokes.

But as to man—tobacco is a sedative, according to Dr. Dunlap's experiments. "The man who smokes is more likely to go along in his work with even production in amount and quality than the man who does not," Dr. Dunlap asserts.

#### WOMEN WINNING OUT

LONDON—If men don't pull themselves together women will dominate all branches of the business world, says Sir Charles Higham, British advertising leader.

He says business women of today are more energetic and thorough and take a keener interest in their work than their former did. He has found them better employees than men, in large, he declares.

#### NEW YORK? BAH!

MONTREAL—No more New York vacations for Thomas McGrath, chief engineer of a Montreal hotel, he never left town.

on a vacation, but stayed close to his shiny engines.

Along came his employer, a New Yorker, who urged that he get away for a week. The boss paid for a suite at a fashionable New York hotel for Mr. and Mrs. McGrath. All went well till the hotel showed the Montreal engineer through its engine room. Then McGrath became so homesick, he and his wife took the next train home, giving up their paid-for vacation.

"Besides," says McGrath, "I got a crick in my neck continually looking up at the building tops."

### RUSSIA BACK OF CANTONESE ARMY

Insurgents Now Claiming Six Provinces Although Hold Is Insecure

SAN FRANCISCO, Cal., Oct. 26—Cablegrams from China continue to recount the progressive subjugation of large sections of the huge republic by the Cantonese Government which is said to be aided by Russian gold and officers. Within a few months, by force of arms and with Oriental intrigue, the Cantonese control of Kwangtung and Kwansi Provinces in southeastern China has spread, although insecurely, to six provinces and with threats to others.

In its campaign for so-called nationalization of China, as stated by the Kuomintang (National peoples' party) dominating it, the present tenure of the Cantonese covers 620,000 square miles, with an estimated population of 179,286,169. This tenure, however, is subject to day by day fluctuation of control.

Provinces claimed by the Cantonese are Kwangtung, Kwansi, Hunan, Kiangsi, Hupoh and Szechwan, with fighting and intrigue proceeding in all but the first two.

The huge province of Szechwan, consisting of 218,333 square miles and a population estimated at 4,782,610, is the latest to be claimed by the Cantonese. Chungking, one of its largest and most important cities, has fallen into the hands of the southern troops.

#### ROYALIST PARLEY

Canadian Press

WARSAW, Poland, Oct. 26—Marshal Pilsudski, Polish Dictator, took part in what is described in political circles as a monarchist conference held today at Nieswiez, the historic residence of the Prince of Radziwill.

The occasion was the decoration of the Military Cross of the sardapagus of Prince Stanislas Radziwill, an aide of Pilsudski who was killed in the Bolshevik war in 1920.

Marshal Pilsudski is reported to have insisted on the political character of the assembly and to have been responsible for the selection of all those present. Two members of the cabinet, Alexander Meyrowski, Minister of Justice, and Karel Niezawytowski, Minister of Agriculture belonging to the Royalist Conservative camp, were in attendance, while the professed monarchists present included Prince Janus Radziwill, Prince Sapieha, Prince Czartoryski, Count Potocki, and M. Mackiewicz, editor of a Royalist news sheet.

#### ST. MARKS FLOODED

ROME, Oct. 26—St. Marks Palace, the most famous spot in Venice, was flooded yesterday at high tide and was closed for many hours. The hundreds of thousands of American tourists who have visited Venice usually by its art dealer, committed suicide by hanging in his office at 153 Lower Water street some time early Sunday evening. His lifeless body was found Monday morning.

### THE VALUE OF FATHER JOHN'S MEDICINE AS A BODY BUILDER

IS POSITIVELY PROVEN BY OVER 70 YEARS OF SUCCESS

FIRST—the quality of the Cod Liver Oil used, along with other valuable ingredients in compounding this remedy.

Dr. Harvey Sell, one of the best known analytical chemists on this continent, made an analysis of Father John's Medicine and said: "We have never examined finer cod liver oil than used in Father John's Medicine."

SECOND—The tiny particles into which the Cod Liver Oil is divided by the wonderful equipment in our Montreal laboratory. Concerning the degree of fineness, Dr. Sell states in his report on Father John's Medicine: "The cod liver oil is broken up more completely than in any other medicine we have ever examined of this type, many of the oil particles in Father John's Medicine being only one-tenth the size of the particles of butterfat found in cream."

The cod liver oil is so excellent in quality and is so finely divided that its full food value is easily absorbed by even weakened digestive systems.

This is why people, especially the aged and weak, and pale, thin, underweight children grow healthy taking Father John's Medicine.
