

SPORT NEWS OF A DAY; HOME AND ABROAD

BASKETBALL

Now Hold Cup.

By winning Saturday's game from the Provincial Normal School, the local High School team slipped one more tentacle about the Intercollegiate Basketball Trophy which has been put up for competition amongst the schools of the province by Messrs. Scovill Bros. of Oak Hall. To obtain complete ownership of the trophy it must be won three years in succession. The rules governing the cup state that teams contending for it must play in sections, as in the N. B. and P. E. I. hockey league, and that the leaders of each section will at the end of the season play off with the leader of the other section or sections.

As there was only one section this year the High School will take the cup. The standing of the league to date follows:

St. John High School.....	Won. Lost.
Provincial Normal School.....	8 0
Rothsley Collegiate School.....	2 8
Fredericton High School.....	1 8

S. J. H. S. Team Champions.

The St. John High School's strong team clinched the 1922 Intercollegiate basketball title on the Y. M. C. A. floor on Saturday afternoon when they entertained the Provincial Normal School, handing them a 54 to 30 licking. One more game remains on High School's schedule—that with Rothsley—and if they win, they will have completed the season without a single defeat—which is something no other team in the city can say. Half-time score was 28 to 14, with the crowd finding little to enthuse over as the High School machine rolled up the counts. They are a hefty crew and there are few who have seen them in action but would back them against any intermediate team in the Dominion.

Previous to this game, the Y. M. C. A. Outlaws took on the Y. M. C. A. Business Boys and to the general surprise of the gallery, the Outlaws were beaten, 25 to 18. The Business Boys had been beaten twice by the Outlaws and Saturday's result upset the dope.

R. C. S. 24; St. George's, 13.

The Rothsley Collegiate School quintet defeated St. George's A. A. C. team of West St. John by the score of 24 to 13 in an exhibition game of basketball on the Rothsley floor on Saturday afternoon.

Moncton Intermediates.

An excellent card is being offered basketball fans on the Y. M. C. A. floor on Wednesday next, when the intermediate Celtics from Moncton would play the Y. M. C. A. Intermediates. Two others games are scheduled between the Sparks and the Young Ladies League team from the Y. M. C. A. and the High School 1922 champions and a team of "Old Boys." Numbered amongst the old boys are "Red" Malcolm, the Trojan star, as centre; Leslie Kerr and Murray Nixon, as defence; and Robertson and Millage as forwards.

FOOTBALL

English Defeat Scottish.

Glasgow, March 19—(Canadian Press Cable)—An inter-league match between Saturday, when the English defeated the

The Vancouver "Millionaires" are in Toronto to play off with St. Patrick's for the Stanley Cup, emblematic of the professional hockey championship of the world. The players from left to right are: Ernie Parkes, Art Duncan, Lloyd Cook, (Captain), Jack Adams, Alf Skinner, Hugh Lehman, "Mickey" McKay, Charlie Tobin and Eddie Ostman.

Scottish three to none, opened quietly, each side alternately testing the other's goal-keeper. The fine work of the English halves spoiled several Scottish attacks, then the Englishman got going, their forwards attacking in dazzling style. Chambers, the centre forward, scored.

The visitors now showed marked superiority in all departments, and the Scottish defence proved unequal to the task of stemming their persistent and strenuous attacks. Smith, the English left wing, quickly added a second goal, and at the interval the game stood England 2, Scotland 0. With resumption of play, Scotland showed improvement, but they were pitted against a stone wall defence. Lucas, Wadsworth and Smith, right half, were magnificent. With the addition of the third goal by Chambers, the game was as good as over, but the Scottish defence was harassed to the end of play.

TENNIS.

Two Rounds on Home Courts.

New York, March 20.—The executive of the United States Lawn Tennis Association has sent cablegrams to all challenging nations in the Davis cup matches offering to have the first and second rounds played on the home courts of Europe. Dwight W. Davis, donor of the international trophy, it was said, was among those who were particularly anxious that England, France, Belgium and Spain be given a chance to see their own teams in action. It was suggested that home games would stimulate international interest in the sport generally.

RING.

Carpenter's Plans.

Paris, March 19.—Georges Carpenter, the world's light heavyweight pugilistic champion, has signed an agreement to fight in Paris any American, British or French heavyweight or light heavyweight who may be selected not later than September of this year. The fight is to take place in an open air ring seating 40,000 persons, which it is proposed to build.

If a fight is arranged it will be Carpenter's first battle in Paris in three years.

HOCKEY.

International Series.

Arrangements have been completed for an international championship series between hockey title teams of the United States and Canada. Games will be played in Toronto on March 26 and 27, and will be continued in Boston on March 30 and April 1. The Canadian representative will be the winner of the Allan cup yet to be decided, and the United States team will be the Westminister Club, largely composed of players from the maritime provinces. The

Vano brothers of Chatham are two of the best players on the Boston team.

Westminsters Win Title.

The Westminsters of Boston won the amateur championship of the United States Saturday night by defeating St. Paul 2 to 0. The Westminsters won three out of the series and tied one game.

SKATING.

Bobby Hearn's Victory.

(New York Post.)

Bobby Hearn of Brooklyn, widely known as an expert comic and fancy skater, surprised himself as well as the crowd in the 181st Street Ice Palace last night by winning the metropolitan one-mile indoor ice-skating championship from a well-seasoned field in 3:21. Bobby held the same title last year, but for some reason or other he seemed to think Mr. Jinx had him by the feet this year and it wasn't until a late hour that he definitely decided to defend his title.

While roaming around Brooklyn he chanced to meet one Chris Dalton, worthy patriarch of the Times's Club and staunch supporter of amateur sport on the ice. After five minutes' earnest conversation, Chris convinced the dubious Bobby that he simply had to defend that title for the honor of Brooklyn if not for himself. So Bobby won.

Among his opponents were Paul Foreman, Tremont Skating Club, holder of the Eastern and metropolitan outdoor speed skating championships; West Becker, another Tremont flash, and Sam Goldberg, also of Tremont, who has been skating remarkably well lately and looked like a winner. Henry Niebuhr, Tremont, who is an expert at setting the pace, led the field in the early stages of the race. West Becker passed Niebuhr as the race neared a close. Bobby, who was modestly hiding in the rear, released a burst of speed on the home stretch and passed Becker, who finished so close to a tie. Niebuhr took third place.

R. Lyons of Public School 132 won the metropolitan 440-yard indoor junior championship for boys under fifteen years of age. Lyons ran yards to spare as he sped across the finish line, but R. Kline of George Washington High School, who did not have taken second honors if R. Rothschild of Trinity Prep had not stumbled and fell a few yards from the tape. The winning time was a fast fifty-five seconds.

Bill Murphy, Louis Morris, Don Robinson and West Becker qualified for the final 440-yard indoor metropolitan senior championship race, to be contested next Monday night.

SWIMMING.

Smashes Records.

New Haven, Conn., March 19.—Fifty world's records were smashed in Carnegie pool on Friday night by the championship Yale swimming team. N. T. Guernsey, of New York, broke his own record for the seventy-five foot plunge on his flat. A Yale relay team made up when he won the event in thirty-five seconds, established new world records for the 400, 500 and 600 yard and one mile relay races. Yale won the dual meet with Columbia by a score of forty to thirteen.

New Haven, Conn., March 19.—The Yale swimming team broke the world's record in the 300 yard relay against Rutgers at Carnegie pool here last night by 4-5 seconds, their time being 2 minutes 31 2-5 seconds.

ST. JOHN GIRLS

WIN FROM M. A. L. C.

(Canadian Press Despatch.)

Moncton, March 19.—In the basketball game at Sackville on Saturday between the St. John Y. M. C. A. and the Mount Allison Ladies' College, the St. John girls won by a score of 18 to 11. The Mount Allison senior basketball team defeated the Mount Y. M. C. A. team at Sackville on Saturday evening by a score of 24 to 18.

BREAKS WORLD'S RECORD.

Buffalo, March 18.—Hal Cutbill, the flying parson and captain of the Boston A. A. truck team, broke the indoor and outdoor world records for the 1,000 yard run here last night at indoor games at the 174th Regiment armory. Cutbill's time for the distance was 2:12.

British Football

London, March 19.—Results of league football games played today in the old country follow:

English League.

First Division.

Aston Villa, 2; Arsenal, 0.
Bradford City, 0; Sunderland, 0.
Burnley, 1; Cardiff City, 1.
Chelsea, 0; Manchester City, 0.
Liverpool, 0; Bolton, 2.
Manchester U., 0; Blackburn R., 1.
Middlesbrough, 1; Birmingham, 1.
Newcastle U., 1; Oldham A., 1.
Preston N. E., 1; Everton, 0.
Sheffield U., 0; Westbrom A., 0.

Second Division.

Barnsley, 2; Stoke, 2.
Bristol City, 0; Blackpool, 1.
Gillingham, 0; Brentford, 0.
Luton, 1; Brighton and T., A., 1.
Merthyr T., 2; Northampton, 1.
Millwall, 4; Bristol R., 1.
Newport, 0; Watford, 0.
Plymouth A., 3; Charlton A., 0.
Portsmouth, 0; Southampton, 2.
Queens Park, 1; Queens Park R., 2.
Swansea T., 1; Norwich City, 1.
Salisbury, 2; Abertillery, 2.

Scottish League.

Second Division.

Alloa, 3; Dundee Hibs, 0.
Ayr, 2; Kingspark, 5.
Bathgate, 1; Clackmannan, 0.
Broxburn, 2; Forth, 2.
Cowdenbeath, 0; Boness, 0.
Johnstone, 1; East Fife, 0.
Vale of Leven, 2; Lochcubbin, 0.
St. Johnstone, 2; East Stirling, 0.
Bury, 1; Crystal Palace, 2.
Coventry City, 1; Leeds U., 0.
Derby County, 0; Hull City, 0.
Leicester City, 8; Notts C., 0.
Nottingham F., 4; Bradford, 1.
Port Vale, 1; Wednesday, 0.
South Shields, 1; Fulham, 0.
Westham U., 1; Rotherham C., 2.
Wolverhampton W., 0; Clapton, 2.

Northern Section.

Third Division.

Accrington S., 1; Southport, 2.
Aldershot, 2; Stalybridge C., 3.
Halifax Town, 1; Wrexham, 5.
Hartlepool U., 0; Darlington, 0.
Rochdale, 1; Durham City, 0.
Stockport County, 1; Crewe A., 1.
Trawerns Rovers, 2; Barry, 2.
Wiganboro, 3; Lincoln C., 0.

Southern Section.

Third Division.

Exeter City, 1; Reading, 8.
Aberdeen vs. Rangers, not played.
Albion R., 1; Third Lanark, 0.
Ayr United, 2; St. Mirren, 0.
Clydebank, 2; Alfretonians, 0.
Dundee, 0; Hearts, 0.
Falkirk, 1; Celtic, 1.
Hibernians, 1; Hamilton A., 0.
Kilmarnock, 1; Clyde, 0.
Morton, 1; Burnham, 0.
Motherwell, 5; Queens Park, 1.
Raith Rovers, 2; Partick Thistle, 0.

NOT FOR DECISION.

Boston, March 19.—Benny Leonard will engage Johnny Clinton, New England lightweight champion, in ten rounds with a decision on Monday night, the Massachusetts boxing commission has decided. It was reported that there should be a decision, as the bout has been advertised as a real fight, but as Leonard is under contract with the motion picture concern not to box to a decision for a six month period the commission has agreed to permit the exhibition.

O'DOWD IS VICTOR

New York, March 19.—Mike O'Dowd, of St. Paul, former middleweight champion, was awarded the judges' decision over Soldier Bartfield, of Brooklyn, in a twelve-round bout here last night. O'Dowd forced the fight all the way.

SUN'S RAYS MAKE FOOD AND FUEL

Chemist Will Learn to Do What Plants Do Now, is Promise—Amazing Strides.

(Toronto Mail and Empire.)

In one of the most interesting addresses delivered before the Royal Canadian Institute this year, Dr. E. E. Slosson, Director of Science Service, Washington, U. S., on Saturday evening, at the University Physics Building, outlined the part that the chemist must play in providing the means by which civilization can renew its supplies of food and fuel.

If the world's work had to be accomplished through the agency of actual horse power, he said, the world could not grow hay enough to feed the number of horses that would be required to produce the "horse-power" required today.

With the discovery of steam, the iron man had stepped in to take the place of the horse. It fed on the crops of the carboniferous age. The coal deposits resulting from those crops were rapidly being used up and would eventually be completely consumed. Similarly, the world's gasoline tank was running low. Experts estimated that all the oil in sight in the United States would supply the country for only twenty years.

To Dr. Slosson's way of thinking, there were only two possible solutions for the shortage of fuel which must result when present supplies have been exhausted. One of these was the discovery by the chemist of some means of fixing radiant energy—the energy given out by the sun. The other was the liberation and utilization of the forces within the atom. It was on the former that the speaker placed most reliance, and he was hopeful that the problem would one day be solved.

At present, however, every blade of grass flaunted scorn in the face of the chemist, for it could do what he could not—combine hydrogen, oxygen and carbon into those life-giving substances which are the basis of the world's food and fuel.

Power in Sun's Ray.

Exemplifying the power that lies untapped in the sun's rays, the speaker pointed out that forty square miles of the Arizona absorbed as much heat in six hours as was produced by all the coal burned in the world in twenty-four hours.

Turning to recent strides made in chemistry, Dr. Slosson told of some developments and of the discoveries following hard on each other's heels, he created new theories so rapidly that theory is abandoned in favor of another almost before the first one is well understood.

Not long ago chemists had figured out how the atom acted when substance combined. A series of convenient little books linked together to form the new substances. Now the physicist has come along with his mathematics and discovered that the atom was in reality a little solar system, with a number of negative particles whirling around a positive centre. How was the chemist to explain his formulas in terms of such theories as that?

Although the difficulties were many and serious, continued the speaker, as complishments had been many and marvellous. For instance, the chemist was now making artificial silk that for some purposes was better than the natural product. The ancients had talked about a dye called royal purple, taken from a substance found in a certain shellfish, and drop to a fish. The modern chemist the result of the discovery of the position of that dye could now make by the ton.

To illustrate the complexity of the processes which the chemist utilizes, and the close connection between substance and energy, he pointed out that Dr. Slosson pointed out that the chemist is responsible for the epidemic of diseases and poisons gas left from the war, were being put. Phosgene, for example, was responsible for the epidemic of diseases and poisons gas left from the war, were being put. Phosgene, for example, was responsible for the epidemic of diseases and poisons gas left from the war, were being put. Phosgene, for example, was responsible for the epidemic of diseases and poisons gas left from the war, were being put.

Premier Event in The Motor Show

Circles of Eastern Canada to be Held at the Armories April 3 to 8

The largest, most important and most representative Motor Show ever held in any province East of Montreal.

Double the number of exhibits of any previous event of the kind ever held in New Brunswick. Practically every car sold in this province will be on exhibition.

Every square inch of the immense hall will be taken up, the exhibits being so arranged as to show both cars and accessories to best advantage.

SPECIAL PROGRAMME FOR EACH EVENING

Admission—Gentlemen, 50c.; Ladies, 25c.

Arranged by the St. John Automobile Trade Association, Limited, under the Management of the Commercial Club, St. John.

MUTT AND JEFF—JEFF'S NOT ONLY A GOOD GOLFER—HE'S A NIFTY SPRINTER, TOO By "BUD" FISHER
