Eye Strain

This is usually due to a defective formation of the eye ball, and not to a diseased condition. While glasses do not cure this defect, they correct it by restoring normal vision without strain. Eyestrain causes loss of nerve energy and physical disability. If bodily comfort is desired, together with ease in reading, glasses to correct this defect should be procured. If you are suffering from eye strain let us examine your eyes and fit you with the right kind of glasses. Why not arrange an appointment today.

HAVE YOU SCROFULA?

Now Said to be as Often Acquired as Inherited. It is generally and chiefly indicated by eruptions and sores, but in many cases it enlarges the glands of the neck, affects the internal organs, especially the lungs, and if neglected may develop into consumption. It causes many troubles, and is aggravated by impure air, unwholesome food, bad water, too much heat or cold, and want of proper exercise. Hood's Sarsaparilla, the medicine that has been used with so much satisfaction by three generations, is wonderfully successful in the treatment of scrofula. Give it a trial. If a cathartic or laxative is needed, take Hood's Pills—there is nothing better for biliousness or constipation.
