THE POWER OF COMPOUND INTEREST; AN ILLUSTRATION. Benefit of Government Annuities Plan is Shown in Striking Form

Here is a simple rule for finding the number of years in which a sum of money will double itself at compound interest. Divide 69.3 by the rate per cent, and add to this 35. Thus at 3 per cent we find the number of years by dividing 69.3 by 3, which yields 23.1, to which we add 35 years, making the time 23.5 years.
