MONTREAL MARKET.

MONTREAL, April 8.—The demand from foreign buyers for Manitoba wheat was somewhat limited and bids generally were 1 1/4c lower, consequently the volume of business done was small, but there was a fair amount of business worked in oats and barley for May-June shipment.

The demand from local buyers for coarse grains shows no improvement and the market in consequence is very quiet with no change in prices to note. There was a decided improvement in the demand from European sources for spring wheat flour, and as bids have been advanced 2d per sack, the market is firmer. The demand for milled continues fairly good, and a steady business is being done. Cheese quiet and steady. Eggs quiet and easy. Provisions in fairly good demand.

REASONING ABOUT SCARLET SINS

Most Religious Teachings Are Unreasonable.

Turing from the Creeds To the Bible Means a Return to Reasoning—A Refusal of Human Ipse Dixits—Greater and Lesser Sins—The Sins Which God Styles Scarlet, Men Often Consider Merely White Lies.

PASTOR RUSSELL

Richmond, Va., April 8.—Bible students of all denominations were deeply interested in Pastor Russell's visit to-day. A series of special Bible lectures has been in progress for some months; and Pastor Russell has been brought here, evidently, for climacteric results. We report his discourse from the text, "Come now, let us reason together, saith the Lord; though your sins be as scarlet, they shall be as white as snow."—Isaiah 1:18.

Although thoroughly loyal and very reverential, the Pastor has evidently cut loose from the creeds. He admitted that all contain kernels of Truth, but declared that these are buried in a mass of chaff—hidden in God-dishonoring theologies so unreasonable that their best friends prefer never to think of them.

The Pastor claimed that the repulsiveness of the creeds hinders people from looking for the truth which they contain. This is well, he said. Why should we search for Truth in various creeds when we have the Bible? He urged Christians to abandon the creeds and unite as Bible students, intent on knowing the testimony of God's Word and of obtaining the guidance of the Holy Spirit in the understanding of it. So doing, true Christians would be so united that outward forms of federation would be as useless and as absolutely ignored as in our Lord's day.

Jesus held up to scorn the inconsistencies of His day. If here to-day, He would show us many inconsistencies in our estimation of sin and righteousness, the Pastor believed. Our Lord declared that while the religious leaders of His time were careful to all the more responsible in "deceiving widows' houses," and other sharp practices, whereby they took advantage of the unfortunate. This principle still operates, said Pastor Russell. The same sin lies at the door of many professing godliness.

To-day, as in our Master's time, there is a way of keeping within the law and out of the penitentiary, while at the same time the spirit of the law is outraged and trampled in the dust of avaricious money-getting. Now, as then, money-lovers pose as philanthropists, and hold honorable places in churchianity. The Pastor spared no pains to show how the religious hypocrites are the worst of sinners in God's sight. Theirs were the most scarlet sins, he believed.

Greater and Lesser Sins.
 Wealth covers a multitude of sins. To be financially unsuccessful is a crime, on account of which many consider a wife justified in seeking a divorce, and some churches justified in dropping the culprit from their membership list. What matters it that Jesus comforted the weary, heavy-laden and unsuccessful? What matters it that the Scriptures declare that not many rich, wise, great or learned has God called to the Heavenly inheritance, but that the poor of this world, rich in faith?

What matters it that a very rich man has two concubines, besides a wife? What matters it that his religious instructors know of the fact? He is a supporter of their church? Were he to be a criminal against human and Divine Law would he be unpardonable. He would be assured that he would suffer torment throughout eternity!

Sins Scarlet and Crimson.
 Our text discriminates between scarlet and crimson, as indicating shades of guilt in the same kind of sin. For instance, murder would be a scarlet sin, if committed by a worldly person; but hatred would be crimson—a sin of deeper dye—if cherished by a Christian. As love is the fulfilling of the Divine Law, so hatred, the most violent form of selfishness, implies its blatant violation.

Mankind have inherited sin-tainted blood from Adam. Selfishness of varying hues stains every member of the race. Many have not the proper focus upon the Divine Law. Taking the tender forms of theft, adultery, murder, thus making the same mistake that Israel made.

According to Jesus interpretation of the Law, theft could be committed in the heart by coveting, by stealing the business or reputation of another. Similarly, adultery might be committed without overt act, and hatred is murder.

Increase of knowledge has brought increased responsibility. But human selfishness has kept pace. The thiefly spirit abounds. The civilized world, that claims its conscience to the Golden Rule—The Law of Messiah's coming Kingdom.

TO SEPARATE

(Continued from page one.)

Deputy Reeve Walley explained that separation was a mere matter of form. He explained that if citizens endorsed the by-law separation would follow on the consummation of an agreement between the Town and County and in the event of an amicable agreement not being arrived at, provision was made in the Act for arbitration.

Board of Works.
The council went into committee of the whole on the report of the Board of Works. Discussion followed regarding the salary of Commissioner Rogers, which was stipulated at \$150. In the course of the discussion Mr. Elliott stated he was opposed to the principle of attaching a salary to the services of any Alderman for any purpose.

On motion of Ald. Mills clause two of the report was amended by changing the amount from \$150 to \$175. Messrs. Stephen King and M. C. Elliott appeared as a deputation from the Public Library and on the request that \$200 be placed to the credit of that institution.

Police Committee.
The Council went into committee of the whole on the report of the Police Committee. Ald. Henderson objected to the clause recommending the increase in salary for the Chief of Police. He based his objection upon the ground of economy, saying that the council had commenced the year with this object in view. He recognized the fact that the Chief was a good officer.

Reeve Fleet said he agreed to some extent with Councillor Henderson. He considered the fact, however, that Ingersoll had a good Chief. When the Chief came to Ingersoll he had stated he was leaving more salary in London, but he expressed a desire to take up work as a Chief, and become familiar with all branches of the work. One thing that he was inclined to look upon as a little irregular about the recommendation was the absence of any application by the Chief for an increase.

Ald. Elliott mentioned that during the evening several things had been said on "the line of economy." Continuing, he said: "If I remember rightly, the council started out to pay the town officials on a basis of what they earned. I believe the salaries set at the beginning of the year were quite adequate. I was not at the committee meeting the other night when the recommendation was decided upon, but had I been there I would have supported the resolution, notwithstanding that the Chief had not asked for it. The speaker wants to know if all businessmen waited for their employees to ask for an increase of salary. Referring to the work of the Chief he said:

"I know we have a good man, and I believe his services are worth \$1,000 to the town of Ingersoll. Paris pays \$1,000, and the town is much smaller than Ingersoll."

Deputy Reeve Walley said he had supported the increase of salary for the Chief, because he considered he was worth \$1,000 a year to the town.

Ald. Mills said he considered the Chief was worth \$1,000. "I consider," he added, "that I have a valuable man." He had made enquiries in other towns and learned that where they had good officers they were paying them well, some of them receiving as high as \$1,100.

Ald. Rogerson said it was a common-sense matter.

UNDERWEIGHT BREAD.
Twenty Loaves Were Purchased by Chief Fish This Morning—Dealers Will Be Summoned.
From Monday's Daily.

Twenty loaves of bread which are said to be underweight, were purchased by Chief Fish this morning from two local grocers. The bread is said to have been manufactured by outside bakers and was taken from the boxes in which it was shipped to Ingersoll. The grocers will be summoned to appear in the police court on Wednesday.

God in His Infinite Wisdom, to remove from our midst a loving husband, an indulgent father and one of the most faithful employees, we the council of the town of Ingersoll, wish to express to you our sincerest sympathy in your bereavement. For over twenty-five years the residents of the town of Ingersoll have lived in the utmost security, knowing that Jas. E. Sherlock was "on watch," and we all felt that our most valuable treasures were almost immune from fire, knowing that on the first tap of the fire bell, Jas. E. Sherlock was ready for duty. Personally, we all miss his greeting as we pass the fire hall; as a council we miss him in his usual place "on duty," as a friend we miss his friendly conversation and good advice.

We beg of you to please extend our sympathy to your children.
