### TOTAL CROP FAILURE AT RUSH LAKE

RUSH LAKE, Sask. — Many fields of grain are already past redemption, as they started to head out, while only about six inches high. Feed for stock is becoming scarce, and farmers may be compelled to dispose of their stock on account of the scarcity of feed. Rain now would relieve the feed and water situation, if it came in abundance. Water must be getting scarce on the prairie for wild ducks came in to town looking for water lately.

### FIRST SEMANS FAIR WAS BIG SUCCESS

SEMANS, Sask. — This little town held the second week of the month its first exhibition. Efforts have been made from time to time to obtain a provincial grant for an exhibition here but without success. Accordingly, the people undertook to finance the project for themselves. Within a few days after the organization of a committee to take the project in hand, more than \$6,000 had been subscribed and paid for stock in the new enterprise. Many farmers took \$100 shares. The first organization meeting was held on June 9. Within a month after that, buildings to the value of \$4,000 had been erected and paid for. The land had also been bought and paid for; the exhibition association had no debts.

The fair was held on July 8 and 9, the first day being devoted to the exhibits of livestock and agricultural products, the second to racing and attractions. About \$900 was paid in prizes for agricultural exhibits.

The racing and attractions on the second day brought nearly 4,000 people to the fair. Flight-Lieutenant Groomer, of Regina, flew to Semans with his plane and delighted the crowd with his exhibition. The racing was of a high class not to be excelled at the big centres. Perhaps this is accounted for by the fact that the management paid out \$2,400 in purses and in expenses for attractions. Fast time was made on a fast track.

With fair grounds and buildings paid for, in spite of the heavy expenses incurred for prizes, purses and attractions, the management has a surplus on hand of approximately \$1,500. For next year it is planning bigger and better things.

## HUSBAND SAVES WIFE

From Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Pittsburgh, Pa. — "For many months I was not able to do my work owing to a weakness which caused backache and headaches. A friend called my attention to one of your newspapers, advertisements and immediately my husband bought three bottles of Lydia E. Pinkham's Vegetable Compound for me. After taking two bottles I felt fine and my troubles caused by that weakness are a thing of the past. All women who suffer as I did should try Lydia E. Pinkham's Vegetable Compound." — Mrs. Jas. Rohrbach, 620 Knapp St., N. S., Pittsburgh, Pa.

Women who suffer from any form of weakness, as indicated by displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues," should accept Mrs. Rohrbach's suggestion and give Lydia E. Pinkham's Vegetable Compound a thorough trial.

For over forty years it has been correcting such ailments. If you have mysterious complications write for advice to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Lt. Kerr and party arrived here on July 23rd from Winnipeg with their machine, and had arranged to proceed to the Brandon exhibition. They made an early start, but had some kind of trouble west of the city and were forced to land in a plowed field, necessitating assistance in getting out. Nothing more was heard of them until late in the afternoon when they were observed flying north of the city, heading evidently for the landing place used during the visit here exhibition week. They were flying at an altitude of about 200 feet, when of a sudden the engine stopped and the plane came down on the farm of the Home for Incurables.

It is surmised that they were flying so close to ground that Lt. Kerr who was running the machine, did not have time to straighten out before the crash came. The nose of the machine crashed into the ground and drove the engine in on top of Mrs. Kerr and Lt. Cross, who were in the front seat, and when taken out they were crushed almost beyond recognition. When the machine struck, Lt. Kerr, who was in the back seat looking after the control, bounced out and landed clear of the machine, but he was unconscious when picked up, and rushed to the hospital. At eight o'clock in the evening he was still unconscious.

Parts of the machine had to be torn away to get the bodies of Mrs. Kerr and Lt. Cross out of the wreckage, but there was no sign of life, and they must have been instantly killed.

The machine was what is known as the L.W.F. war type, 145 horsepower, and has 48-foot wing span.
