FRANCIS AGAIN SUCCEEDS IN ELUDING HIS PURSUERS

The Stolen Horse and Carriage Found, But the Convict Had Fled and Has Not Been Located--The Chase Continues.

Yesterday afternoon Town Marshal McAdam, of St. George, accompanied by half a dozen men searched for the negro Francis, who was reported to have been seen in the neighborhood of St. George. The men searched all afternoon and returned last evening without finding any trace of their man. BELFAST, Me., Nov. 22.—The horse and wagon stolen by Minot St. Clair Francis, the negro desperado, was recovered late this afternoon in the town of Monroe, fifteen miles from Belfast, the capture affording a new clue to the whereabouts of the fugitive. After Francis stole the horse and wagon near Seiprop Tuesday night, he was traced by a searching officer over a roundabout course which seemed to lead to Sand Point, on the shore of Penobscot Bay, not far from this city. Today the attention of the officers centered mainly around Sandy Point, and the whole region about that neighborhood was being thoroughly explored under the direction of Wm. B. Robinson, United States post office inspector of Portland, when word came that Francis had been seen in Monroe, about fifteen miles west of Sandy Point. The clue to the whereabouts of Francis was discovered by Clifton Moore, who lives near Lord's Bridge, in the town of Monroe. Mr. Moore saw smoke rising above the tops of the trees in a wood lot on his property and investigated the source of it. Going along a wood road he found a horse and wagon and a little way beyond, saw a fire. There was a colored man working about the place and Moore immediately recognized him as Francis from the descriptions of the latter which have been spread carefully through all this part of Waldo county. Retaining the horse and wagon, Moore lost no time in driving to the village of Monroe and notifying by telephone Warden Norton in Thom-

aston. The latter sent word to Inspector Robinson at Sandy Point and directed that men from Monroe village be stationed at Lord's Bridge to prevent the escape of the fugitive by the highway until the arrival of Inspector Robinson and his force from Sand Point. Francis, meanwhile disappeared, and although Warden Norton arranged to station a cordon of guards along the woods along the highway leading to Lord Bridge, it was considered very doubtful if the capture of the desperado would be effected. It is believed that last night Francis broke into the general store and post office at Sandy Point, and was traced by a searching officer over a roundabout course which seemed to lead to Sand Point, on the shore of Penobscot Bay, not far from this city. Today the attention of the officers centered mainly around Sandy Point, and the whole region about that neighborhood was being thoroughly explored under the direction of Wm. B. Robinson, United States post office inspector of Portland, when word came that Francis had been seen in Monroe, about fifteen miles west of Sandy Point. The clue to the whereabouts of Francis was discovered by Clifton Moore, who lives near Lord's Bridge, in the town of Monroe. Mr. Moore saw smoke rising above the tops of the trees in a wood lot on his property and investigated the source of it. Going along a wood road he found a horse and wagon and a little way beyond, saw a fire. There was a colored man working about the place and Moore immediately recognized him as Francis from the descriptions of the latter which have been spread carefully through all this part of Waldo county. Retaining the horse and wagon, Moore lost no time in driving to the village of Monroe and notifying by telephone Warden Norton in Thom-

MANY VESSELS LOST IN STORM ON GREAT LAKES

Twenty Three Persons Perished—A List of the Shipping Which Suffered.

BUFFALO, N. Y., Nov. 22.—The gale of Wednesday night and Thursday on the Great Lakes caused a heavy loss to vessels, property and twenty-three lives. The barge Resolute sank off Toronto and six men were drowned. The barge Athens is probably lost off Sandusky, Ohio, with eight men. All hope for the Athens has not been abandoned and tugs are scouring Lake Erie for her. This is the list of loss: The Hurlbut, stranded on Lake Erie. The C. B. Hill, beached on Lake Erie. The Athens, missing on Lake Erie. The Conemaugh, stranded on Lake Erie. The Pratt, damaged by storm, Lake Erie. The Resolute, foundered off Toronto, Ont. The Pere Marquette, No. 16, stranded Lake Michigan. The schooner Falge, ashore, Lake Michigan. Steamer Taylor, missing, Lake Erie.

COMMONS PASSES THE MERCHANT SHIPPING BILL

LONDON, Nov. 22.—The House of Commons tonight without a division passed the third reading of the Merchant Shipping Bill. The bill makes the British regulations concerning the overloading, underrunning and unseaworthiness of vessels, the storage of grain on board ships, the furnishing of adequate life-saving apparatus and the control of emigration and passenger traffic which heretofore have applied to British ships, applicable to all foreign vessels under British ports.

SHUT OUT THE NEGRO.

CHICAGO, Nov. 22.—Ferdinand L. Barnett, negro, assistant states attorney, who, according to the police returns, was elected judge of the new municipal court of Chicago on Nov. 6, was today counted out by the canvassing board. The police returns gave Barnett a plurality of 498, but the official count of the 35 wards of the city, which was completed today, shows that Thomas B. Lantry, Democrat, was elected by a plurality of 594. Barnett was the only Republican defeated for a city office at the election.

MONDAY MAY SEE A STRIKE AT FALL RIVER

Mill Operatives Refuse the Offer of Settlement and Hold Out For All They Demanded.

FALL RIVER, Mass., Nov. 22.—The five unions of operatives at a special meeting tonight voted by a large majority to reject the offer of a five per cent. advance in wages and to go on strike next Monday morning unless the full demand for ten per cent. increase be granted before that time. NEW BEDFORD, Mass., Nov. 22.—The New Bedford cotton manufacturers have not yet sent an answer to a demand for a ten per cent. advance in wages made by the textile council last week. It is thought that no decision will be reached by the millowners until the Fall River situation is cleared up.

FISHING CAPTAINS WILL SELL TO THE COMBINE

BOSTON, Nov. 22.—Nearly a score of captains of Massachusetts fishing schooners at a meeting on T. Wharf this afternoon expressed a willingness to sell their catch to the proposed fish dealers combine, provided they received satisfactory treatment and average prices for their fish. The fishing schooner captains own, as a rule, a good share of the vessels which they command. The meeting was harmonious and the proposed trust was discussed for several hours. Many of the skipper were, however, emphatic in their declaration that they would sever connections with the trust in case there was a tendency to lower the price of fish, believing that good prices could always be obtained of independent dealers.

CAUGHT A LIVE WIRE

WORCESTER, Mass., Nov. 22.—David H. Davis, aged 39, married, grasped a live wire while at work on a pole 25 feet from the ground on Central St. Winchendon, this noon. His hand was burned to the bone by the 2,300 volts which shot through it. He fell to the ground, sustaining injuries from which he died at his home in Leominster a short time later. He was a lineman employed by the New England Telephone & Telegraph Company.

SITUATIONS VACANT—FEMALE

WANTED.—Respectable girl for general housework. Apply 123 King street. 23-11-4

BOARDING.—Apply at the LANS-DOWNE HOUSE for pleasant rooms with board. 40 King Square. 23-11-4

FIND BODY OF BEAUPRE THE GIANT

Some Children Unearth It in a Huge Coffin and Flea.

(Toronto Star.)
 About eighteen months ago the body of the French Canadian giant Beaupre was exhibited in Montreal, and attracted great attention. His body has just been discovered under dramatic circumstances, and has been taken to Laval University.
 After showing in Canada as a giant for years, Beaupre was taken on tour in the United States and died in St. Paul. His corpse arrived in Canada after a long journey, extending about two months, and passed into the possession of a doctor in the outskirts of the city. It was afterwards shown at Riverside Park, where the exhibition appears not to have been a success. Last Sunday afternoon some children playing in Riverside Park discovered a very large box, and in it they found what they correctly deduced to be the body of the giant. They informed the sanitary authorities, who had the box and its contents removed, and this was afterwards found to be the body of Beaupre. It is now in the possession of the Laval College.

NEED OF EXTERNAL INSPECTION

TORONTO, Nov. 22.—H. C. McLeod, general manager of the Bank of Nova Scotia, in a letter to the Toronto Globe calls attention of bank shareholders to the fact that 25 per cent of the banks of Canada have failed within a period of 25 years, the last ten of which were of unexamined prosperity, and urges the need of external inspection, which experience in the Western Hemisphere has demonstrated to be essential.

FOR SALE.

FOR SALE.—A very fine American Upright Piano. Only used three months. A private family in Digby. Cost \$300. Can be bought for cash at \$150. To be seen at Thomas I. Flood's, opp. Macaulay Bros., 60 King street. 23-11-2

MUSICAL INSTRUMENTS

GEO. ATKINS, Piano and Organ tuner, 126 Gorman street. Special attention paid to restoring Pianos and Organs to their original tone. 23-11-4

TO CLOSE THE BALTIC

Reported War Time Treaty between Germany and France

LONDON, Nov. 22.—According to the Berlin correspondent of the Daily Mail, Denmark and Germany have entered into a treaty to close the Baltic to fleets hostile to Germany in time of war. It will be remembered that the value of such an agreement was discussed in Germany some time ago. It is now arranged, and one of the objects of the King of Denmark's recent visit to Berlin is to ratify it. Germany guarantees the integrity of Denmark in return for the privilege of closing the Sound between Denmark and Sweden to any hostile fleet trying to attack Kiel or other of the Baltic ports. This, according to the correspondent, has been the object of the Kaiser's patient courting of Denmark in recent years. The agreement is of such a character that official denials of its existence can always be made apparently truthful. It even makes it possible for Denmark to put up a make-believe protest when the time for the fulfilment of the agreement arrives.

PASSENGERS FOUGHT

PHILADELPHIA, Nov. 22.—While the steamer Havens, which arrived today, was fog bound on Tuesday night a free for all fight broke out among the 900 steerage passengers. Stevedores, who tried to quell the excitement, were roughly handled and a panic prevailed until six of the ring-leaders were arrested and placed in irons. They were turned over to the United States authorities here.

SITUATIONS VACANT—MALE

WANTED.—Boy wanted to learn drug business. Apply GEO. E. PRICE, 127 Queen St. 23-11-4
 BOY WANTED.—Apply at American Clothing House, 11 to 15 Charlotte St. 23-11-4

PEBBLE CAUSED LUTIN DISASTER

Prevented Closing of Intake Pipe of Submarine—Inside Bulkhead Gave Way.

PARIS, Nov. 22.—Gaston Thomson, Minister of Marine, at a cabinet meeting today announced that he had received the report of the commission of enquiry appointed to investigate the loss of the submarine Lutin, which, while manoeuvring off Bizerta on Oct. 16, failed to rise after being submerged, with the result that the whole crew perished.
 Minister Thomson said the examination had shown that the interior bulkhead of one of the water ballast compartments had given way under the pressure of the intake of water, which it was too weak to withstand. The unusual pressure was caused by the fact that the intake valve was incompletely closed, owing to the presence of a pebble, which must have been there for a considerable time.

SQUEEZED THROUGH, BUT NOT AN INCH TO SPARE

BOSTON, Nov. 22.—After being held in the harbor for four days at a probable demurrage cost of \$3,000, the British steamer Indina, with a cargo of 6,400 tons of sugar, was successfully worked through two draw bridges in Fort Point channel this afternoon with a margin between her iron sides and the woodwork of the bridges of scarcely more than an inch. In order to get the big vessel through, the sheeting of both draw bridges had to be ripped off and the steamer assisted by four tugs. The American Sugar Refinery Company saved at least \$6,000 by having the steamer discharge at their wharf instead of lightering the cargo.

You May Never Have Bought Furniture Here.

We'll suppose, for instance, you have not. Perhaps you do not know the character of our stock? What a remarkable one it is from every view point. Don't do yourself the injustice of buying FURNITURE this month until you've at least "looked over" the assortment here. Buying rests with you—we are here to serve you.

19 Market Square.

FLY ACROSS OCEAN IN DAY AND NIGHT

Only 24 Hours From London to New York.

Expert Says It Only Needs Invention of a Light Motor—Many Prizes for the Contest.

LONDON, Nov. 22.—From London to New York in 24 hours is the latest prediction arising from the air-travel fever. Walter Reid, the expert adviser of the Aero Club of the United Kingdom, offers £2,000 to the winner of the contest, saying that its fulfilment only awaits the production of a well designed aerial motor. All the elements for the construction of the motor exist. A motor weighing less than five pounds per horsepower can be easily constructed. Its structural material would be infinitely stronger than any in the ordinary world. A bird's wing is a marvelous structure, but it is heavy compared with the membranes available to the modern aeronaut. Mr. Reid emphasizes the necessity for devising an automatic steering gear, which, he explains, is a question of making the air machine automatically revert to a horizontal keel. This, as is evidenced by the torpedo, ought not to be difficult. Steering would then be effected by diverting the machine from its normal balance.

The offering of prizes for aerial contests is proving contagious. The owners of the British rights of the Antoinette engine, with which Santos-Dumont's aeroplane is fitted, offer £2,000 to the winner of the Daily Mail's contest, and £10,000 if his aeroplane is made entirely in British territory. The Aero Club, an automobile journey of £2,000 to the winner of the same contest if his engine is made in Great Britain. The Graphic offers £1,000 to the inventor of the first heavier than air machine flying not less than a mile and carrying one or more persons.

MURRAY & GREGORY LIMITED.

Manufacturers of everything in wood that enters into the construction of a house.

ACTIVE CAMPAIGN TO CRUSH WITTE

Russian Officials Attempting to Destroy His Influence, and His Prestige in Europe.

ST. PETERSBURG, Nov. 22.—The hostile feeling toward Count Witte held by almost all the members of the present cabinet, combined with the distrust inspired by the supposed intentions underlying his recent return to Russia, has taken the form of an active campaign to counteract his influence. A former official of the ministry of the interior, who is now private secretary to Premier Stolypin, has been sent down to Berlin to start a press campaign against Witte for the purpose of undermining the prestige still enjoyed by the Count in Europe and the United States. A further manifestation of personal enmity is to be being taken to cut off the big stipend in addition to his regular salary of \$6,000 a year as a member of the Council of the Empire, which Witte has been receiving since his retirement from the post of Minister of Finance. The social Democrats, unable to secure permission to hold meetings to discuss their own party programme, have been obliged to resort to the subterfuge of taking the programmes of their opponents as subjects for discussion. The first meeting under this arrangement to be permitted by the police will be held tomorrow, and the programme of the Octoberists and peaceful regenerationist parties will be debated. Prominent communist and Social Democrats will take advantage of this occasion to appear before their followers.

NEGOTIATIONS HAVE BEEN BROKEN OFF

Fight Between Big Companies Practical at an End—No Agreement Has Been Reached

MONTREAL, Nov. 22.—The fight between the Dominion Coal Company and the Dominion Iron and Steel Company is at an end so far as the latter is concerned. Negotiations have practically been broken off. The Steel Company shortly after hostilities commenced, gave the Coal Company until Thursday November 22, to come to an arrangement. No agreement has yet been reached and J. H. Plummer, President of the Steel Company, said the reply from the Dominion Coal Co. to Steel Co. was hardly expected. In fact the Steel Co. had their purchasers ready to buy the coal, but the Dominion Coal Co. had been arranged, he intimated that he might receive word to that effect any time and added that this was the only course open to his company.
