### SACKVILLE.

SACKVILLE, Aug. 13.—The funeral of the late George Campbell took place yesterday and was one of the largest ever seen in Sackville. Rev. E. L. Steeves conducted the service, assisted by Rev. Dr. Andrews, H. V. Silliker, J. M. Baird, A. W. Bennett and Fred Thompson acted as pallbearers. The hymns, Sun of My Soul, Rest, Woe, Heart, and Abide With Me, were very feelingly rendered by a select choir. The floral tributes were very beautiful. Interment at the rural cemetery.

E. Churchill, accountant of N. S. Hospital, Dartmouth, is the guest of host and Mrs. Baird.

Mrs. O. J. McCully and daughter of St. John, and Miss Watson of New York were in town today en route from a visit at Cape Tormentine to Montserrat, where they will be the guests of Mrs. McCully's brother, Judge Wells, for some days.

Mrs. L. W. Benton of Amherst met with a serious accident here on Saturday afternoon. She and Mrs. Clifford Milton were enjoying a drive when the whipple tree broke and the occupants of the carriage were thrown to the ground. One of Mrs. Benton's limbs was fractured in two places, at the ankle and knee; and Mrs. Milton was badly bruised. Mrs. Benton was taken to the home of her brother, Albert Phillips, where Dr. Knapp rendered the necessary surgical aid.

Miss Elizabeth Tingley leaves today for a visit at Lynn, Mass., after which she will go to Winnipeg, where she will take a position as teacher in the public schools there.

Mrs. Charles Thompson of Upper Sackville is seriously ill.

Dr. Garnet O'Brien of Amherst and Miss Rutherford of Musquodoboit spent Sunday with Mr. and Mrs. Fred Thompson.

Mrs. Creelman of Truro, and Mrs. and Miss Constantine of Elgin are the guests of Mrs. Ames O'Brien.

Judge Hanington of Dorchester attended the funeral of the late Geo. Campbell yesterday.

Mr. and Mrs. Harold Dobson of Minnesota are visiting friends at Cape Tormentine.

Miss Allen of St. John is the guest of her brother, Thos. J. Allen, Port Elgin. The C. P. telegraph office is being extensively repaired and improved. A new room is being added for express matter.

H. V. Silliker, of the firm of J. L. Black & Co., returned on Friday from a two weeks' vacation at Summerside, P. E. I.

An excursion to The Rocks by steamer Wilfred C. under the auspices of the Royal Templars, on the 18th inst., promises to be very enjoyable.

### PARRSBORO.

PARRSBORO, N. S., Aug. 13.—Mrs. N. H. Upham, who has been visiting her daughter, Mrs. Johnson, at the rectory, returned to St. John last Saturday.

James W. Day, ex-town clerk, left on Tuesday for a six weeks' visit to the Canadian Northwest. The threatened action of the town council, re shortage, will evidently have to be postponed.

Dr. P. A. Holmes, who for a number of years has been keeping a drug store here, left on Wednesday with his wife and children for Prince Albert, Alberta, where he will again engage in the drug business.

Mr. and Mrs. R. T. Smith left on Wednesday for Halifax, where they intend to make their home. Mr. Smith has been for many years a prominent resident of this town.

Capt. W. F. Durant, who for a number of years has been engaged in the Mexican coasting trade, is on a visit to his home here. He has bought a C. A. Huntley's steam launch and has taken out the old machinery and put in a gasoline engine.

Dr. Joseph Hayes is removing to the Dr. Townsend property, which he recently purchased. E. G. Shannon, manager of the Canadian Bank of Commerce, will occupy the house Dr. Hayes is vacating.

Miss Edna Tucker has gone to Boston, where she will remain several weeks.

Mr. and Mrs. Edward Alkman and three children of Venezuela are visiting Mr. Alkman's relatives here.

Elmer McKenna of Idaho, with his wife and three children, is visiting his brother, H. W. McKenna.

Miss Edith McLeod of Springfield is visiting her sister, Mrs. J. R. Cowie, at her summer residence at Partridge Island.

Dr. Paul Gillespie, who recently graduated at Bellevue College, New York, has decided to practice a profession here, and will also open a drug store.

The Parssboro Bottling Co. have leased the large three-story building on Main street, known as the Ryfkyke building.

building, and are fitting it up for their business.

Dr. Jeffers is loading the term schooner Phoenix with piling for New York. The bark Avon and two steamers are loading deals in West Bay for the United Kingdom.

Two little children of Everett Moon had a narrow escape from drowning on Wednesday. They fell from a wharf on which they were playing, and were completely exhausted before the children who were with them could get assistance.

DORCHESTER, N. B., Aug. 12.—John Crossman, a well known farmer and mill owner, was the victim of a daring piece of highway robbery on Saturday night. Mr. Crossman engaged two men to work for him at Sackville, and arranged to drive them to Dorchester. While going through a lonely part of the road the two men in question are alleged to have clubbed Mr. Crossman into insensibility, and relieved him of his purse containing more than \$40.

**ANTI-MOTOR MANIA**  
**KEEPS TOURISTS AWAY**  
**Strict Regulations and Hostility of Peasantry React on Swiss Hotelkeepers**

GENEVA, Aug. 14.—The hotel keepers of Switzerland are complaining bitterly of the absence of motorists, who appear to be giving the country a wide berth.

So ridiculously strict have the motor regulations been made by the authorities that the owners of cars, who are among the best paying class of visitors, do not care to enter the country. The prejudice of the peasantry against motorists is also another reason for their absence.

Last year Queen Margherita was stoned; Mr. Rockefeller, Jr., was arrested and heavily fined; Mrs. Jay Gould was lashed across the face by a stupid and infuriated peasant near Lucerne, and hundreds of motorists were arrested and heavily fined for exceeding the absurd limit of six kilometres (three miles, 1.34 yards) an hour, which is the regulation rate allowed in most towns and villages.

The laws differ also in every canton, and in two of them motorists are prohibited from driving under penalty of having their cars confiscated.

The animosity against motorists which exists is well illustrated by the following incident, which occurred a few days ago. A wealthy Parisian was travelling in the Canon Schwitz in a forty horse power car near the village of Lachen, when the machine skidded and fell into a ditch. No one was injured and the car was not damaged, but the owner was unable to return the car to the road, services for which they were handsomely paid.

The surprise of the motorist may be imagined when a genuine peasant appeared on the scene and arrested him for breaking the law by making the villagers work on Sunday. The Parisian was fined \$4 and costs, and on appealing against the case, and was obliged to pay another \$38.

The chief Canadian offices of Canada, the illustrated weekly published in London, England, for the promotion of Canada, have been removed from Montreal to Toronto. For the present the headquarters will be at Room 38, James Building, Yonge street; later on permanent management of the paper has been assumed by Fred G. H. Williams, for twenty-five years actively identified with the Canadian daily press, and for the past three and a half years a member of the staff of the News. The policy of the new management will be largely the diversion to British manufacturers of trade in goods which are at present almost entirely imported from the United States and other foreign countries. Special attention will also be paid to Canadian industrial and financial interests, with a view of developing trade between the Dominion and the Mother Country, which the half tone illustrations will be continued on a lavish scale. Canadians who have been in England this summer speak in the warmest praise of the work which the new weekly doing to interest people in the Dominion and its development.

**"CANADA" MAKES IMPORTANT CHANGE**

HOW SHE GOT RID OF HIM.

(From the New York Sun.)

She had such remarkably black eyes and such a mass of frivolous curls that when she walked on the street she had to choose a spot far in the distance and gaze fixedly there in order not to see the admiring eyes that stared so uncomfortably at her. She had pretended a great many times that she did not hear the little impertinences which were murmured in her ear, but all the time wrath had been gathering, and when one day a pink-shirted person twirled his moustache, looked at her, and strove by her side, cooed softly: "Hello, my pretty!" she put her open hand behind her ear, turned on him with a whirl, and said loudly: "What did you say?"

"The man's mouth," dropped open; he began faintly to repeat: "I said, I said."

"Speak louder; I'm deaf," I can't hear you."

The man blinked nervously, tried a second repetition, choked on it, and fled.

"Edith," said the girl's mother, "why did Mr. Huggard stay so late last night?"

"I don't know," replied the girl, blushing.

"The poor fellow didn't know what to do," chimed in the little brother. "I heard Edith tell him every once in a while, 'Oh, go away!'"

But the next minute she'd say: "Now, you stop!" —Chicago Tribune.

**OGILVIE FLOUR MILLS**  
**VISITED BY FIRE**  
Damage to the Extent of \$3,000 was Caused Yesterday Afternoon—Business Not Interrupted

MONTREAL, Aug. 14.—Damage to the extent of \$3,000 was caused by a fire which broke out this afternoon in the elevator of the Ogilvie Flour Mills Co.

One time it seemed as if the whole of the building of the company was doomed, but the prompt arrival of the fire brigade and the excellent work of the employees confined the fire to the cupola in the top of the building. With- out a single alarm the fire was under control in all danger had passed. There were 20,000 bushels of grain in the elevator at the time of the fire and while the damage by fire is small, the damage by water will be considerable. An overheated bearing on one of the pulleys at the top of the building is supposed to have been the cause of the fire. The three mills of the company have an output of 8,000 barrels a day. The management stated last night that there will be no interruption in the business of the company.

**WANTED TO SWIM**  
**WITHOUT BATHING SUITS**

BRACKENRIDGE, Muskoka, Aug. 14.—In the police court here today Police Magistrate Spencer convicted George Tagney of New York, and Rafferty and Henry Dalmyer of Pittsburgh, members of a party of American millionaires who have been staying at the Beaumaris hotel, on separate charges of disorderly conduct and bathing off the wharf at the Royal Muskoka hotel without bathing apparel. Owing to the prominence of the parties and an appeal of Manager Dooner, of the Royal Muskoka, for a light sentence, the magistrate imposed no fine, but allowed the conviction to stand over the accused, and compelled them to pay the costs of the prosecution. Because Manager Dooner remonstrated with them for bathing off his wharf unclothed the men assaulted him, and one of the party also threatened to shoot him.

**INGROWING HAIR ON CHIN.**

NEW YORK, Aug. 13.—A special to The Herald from Derby, Conn., says:—With his head swollen to twice its natural size and suffering tortures, "Emil Jones" of New Britain, Conn., is in St. Francis Hospital, Hartford, from the effects of an ingrowing hair in his chin. Jones tried to extract the filament and irritated the skin. Blood poison followed, and he grew very ill. He is dying within a week after the ingrowing hair was first noticed. Physicians say that the case is almost unique in pathology.

Jones was a knife handle finisher, and it is thought that dust from rosewood which he handled in his work might have caused the poison.

**WOMAN DROPPED DEAD**  
**WHILE HOTEL BURNED**

LITTLE CURRENT, Ont., Aug. 13.—Fire broke out in the Nixon House stables on Saturday night and spread to the hotel which with its contents was completely destroyed.

The cause of the fire is unknown. The Nixon house is a two-story building, built of brick, and was in process of rebuilding. While the fire was in progress Mrs. Powell, mother of Mr. Powell, merchant, dropped dead.

There were over 60 guests in the Nixon House. All escaped with partial clothing.

**First Sleeplessness, then Melancholia**

Brooding, restless, sleepless—these are the conditions go hand in hand. The cause of the trouble is not always these, because so long neglected. Invariably Ferrozene will cure. It creates abundance of rich red blood, imparts strength to the nerves, lends vigour and power to the whole body.

Brooding, sleepless, restless—these give way to calm, and sleepless merges into that rest that makes for health. With lassitude and despair turned into energy and hope, the enormous benefits of Ferrozene are at once realized.

"I fell into a state of exhaustion, was run down and couldn't sleep," writes Mrs. J. Stroud of Dexter, P. O. "I tried Ferrozene and was quickly benefited. To anyone suffering from overworked nerves and sleeplessness, I can recommend Ferrozene. No tonic is better."

Sold everywhere—50c per box or six boxes for \$2.50. By mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn.

**BROW HEAD, Aug. 14.—Str. Ivernia, from Boston for Queenstown and Liverpool, 96 miles west of Fastnet, 12.55 p. m. today. Will probably reach Queenstown 2 a. m. Monday.**

**LYNCHBURG, Va., Aug. 14.—The Lynchburg Cotton Mills Company has announced that on next Monday it will increase the wages of all its employees ten per cent. Five hundred and fifty employees are affected by the order and the aggregate will be \$15,000 a week.**

**VINEYARD HAVEN, Aug. 14.—U. S. dispatch boat Dolphin arrived here this evening from Portland and will sail for New London in the morning.**

**OSTER BAY, N. Y., Aug. 14.—Owen Wister, the author, was a guest of President Roosevelt tonight. Mr. Wister arrived on the evening train with Representative Longworth, who spent the day in New York. Mr. Wister will leave Oyster Bay tomorrow.**

## TRADE OF CANADA

WITH THE INDIES

OTTAWA, Aug. 12.—If satisfactory arrangements can be effected, exhibits of West India productions will be made regularly and permanently at the more important Canadian exhibitions. It was with this object in view that Mr. Pickford, of Halifax, called upon the acting commissioner of customs, Mr. John Bain, Monday, Pickford and Black, who own the Canada-West Indies line of steamships, have received assurance from the planters and other producers of the islands that they are willing to send to Canada exhibits representative of the productions of the West Indies, and Mr. Pickford is ready to undertake, on behalf of his firm, that these exhibits are carefully forwarded and distributed through the various Canadian fairs, provided, satisfactory customs arrangements can be made. Under the Tariff Act, the department has powers to admit such goods free of duty, only upon condition that they are re-exported; but as the goods in question although not intended for re-export are nevertheless not going to be sold in the country, it is probable that the customs department will provide in some way for their admission free of duty.

**AUSTRALIA RAISES DUTIES ON CANADA.**

OTTAWA, Aug. 12.—No little surprise was occasioned at the Trade and Commerce Department this afternoon by the receipt of information that the Government of Australia has substantially increased the duty upon Canadian goods of certain articles of export to the Commonwealth. The announcement was contained in a cablegram from Mr. J. S. Larke, Canada's commercial agent at Sydney, reading as follows:—The Australian Government has increased duty on agricultural implements and machines to 15 and 25 per cent.

Heretofore certain of these exports from Canada have been admitted free and others taxed 12 1/2 per cent. In the absence of official explanations, which are expected to be received by the next Australian mail, it can only be surmised that the Australian Government is to be taxed 15 per cent., and the duty upon the others increased from 12 1/2 to 25 per cent. It is quite probable that the Australians have advanced the duties upon these articles in the hope of stimulating domestic manufacture. It is known, at all events, that the manufacturers of implements in Australia have been agitating for some time for such a measure of protection.

**INGROWING HAIR ON CHIN.**

NEW YORK, Aug. 13.—A special to The Herald from Derby, Conn., says:—With his head swollen to twice its natural size and suffering tortures, "Emil Jones" of New Britain, Conn., is in St. Francis Hospital, Hartford, from the effects of an ingrowing hair in his chin. ## NEWS FROM THE PROVINCES

Hail Storm Does Great Damage in Manitoba

Strike Among Jewish Bakers in Toronto

Two Unknown Men Drowned

The Harvest Excursion.

WINNIPEG, Aug. 14.—Regarding the maritime harvesters excursion, Mr. Golden, immigration commissioner, says: "It was the largest by far that the provinces down by the sea had yet afforded in any year for harvesting purposes, and the men appear first class. A large number are inquiring about harvesting. Distribution so far has been more even than in any previous year. I expect that this province will require altogether about 20,000 harvesters, while Saskatchewan about 10,000. For the first time we have had an offer from Alberta, Edmonton, on the line of the C. N. R., being in need of harvesters."

TORONTO, Aug. 14.—There is a strike among the Jewish bakers of this city to enforce a demand for 72 hours work a week. Some of the men, it is said, have been working from twenty-one to twenty-six hours continuously.

STRAITFORD, Ont., Aug. 14.—The cheese factory of Archibald Knipe was completely destroyed by fire on Sunday. The loss is expected to amount to \$25,000. Incendiarism is suspected.

TORONTO, Aug. 14.—Word that his brother Mathias, formerly of Toronto, has been killed in the Philippines, where he was serving in the United States army, has been received by J. J. Zuck, wholesale jeweler. No particulars were given, but it is supposed he was killed in an engagement with rebels.

TORONTO, Aug. 14.—A despatch from Winnipeg states that S. T. Bastedo, of this city, recently dismissed from the position of provincial deputy commissioner of fisheries, has been appointed Ontario manager for the Annuity Company of Canada. The organization, a recent one, incorporated under federal charter, has a capital of \$1,000,000, and the promoter and managing director is G. J. Lowell of Winnipeg.

The C. P. R. and G. T. R. will transport upwards of 4,000 people from Toronto and western Ontario to western Canada on the first of the Ontario harvesters' excursions, which will leave Toronto this afternoon, a much larger number than left on the first excursion last year.

OTTAWA, Aug. 14.—The investigations of Canada into the commercial possibilities of electric smelting of iron ore, which were published by Dr. Hannay some time ago, are bearing fruit. It is understood that a big steel firm of Pittsburgh is preparing to put up an electric smelting plant at some point in Canada where water power and ore are available. The United States and in Mexico electric smelting plants are to be put up. In a month from now an electric smelting plant capable of turning out twenty tons of pig iron a day will be in operation in California. It is being installed by Dr. Hannay of France, who erected the experimental station at Sault Ste. Marie under an arrangement with Dr. Hannay. The California plant is to be eventually enlarged to an output of six to eight hundred tons a day.

TORONTO, Aug. 14.—Word was received yesterday by J. F. M. Stewart, general secretary of the Canadian Manufacturers' Association from Winnipeg that the mayor and council of that city will tender a civic reception to the delegates to the Association convention, opening in Winnipeg on Sept. 17.

Two unknown men were found drowned in Saskatchewan River north of here on Sunday, making four victims of the same river for the afternoon. One was an Englishman employed in the G. T. P. camp. Nothing is known of the other.

WINNIPEG, Aug. 14.—Binders are busy everywhere in the west and the south of farm laborers, particularly in southern Manitoba. It is generally felt that the Red River Valley hundreds of acres are laying unshocked in the fields. The railways and officials are rushing workers forward with the greatest expediency as soon as the men arrive. The average yield of wheat in southern Manitoba from Carman to Morden, where no damage of any kind has been suffered, is estimated at 23 bushels per acre, while the average for the entire country of the C. N. R. from Portage la Prairie to Edmonton is placed at 19 bushels. Of course some sections are greatly in excess of this, but the crop is uneven in the new country. Great damage is reported in sections from gophers. The little pests flick into the wheat fields from the prairie around. The same is true along the 800-line country. Excellent conditions continue to prevail.

ELGIN, Man., Aug. 14.—Friday night's hail storm seems to have extended four miles long by two and a half miles wide west of Elgin, completely wiping out the crops in its path. George Hartwick lost seven hundred acres; Nat. Hall all his crops and a number of others are almost as badly affected.

**HARCOURT.**

HARCOURT, Aug. 13.—Vaughan & Co. are this week constructing a dam for their new lumber mill on the Kouchibouche River at Kent Junction.

J. Larkin Morton, late night agent at Canaan, has been promoted to the Gibson station, whither his family will soon remove to join him. Mervin Engstrom has been promoted to the Canaan station.

On the 10th, Rev. George M. Campbell, of St. John, addressed the annual meeting of the local branch of the Canadian Bible Society here.

Kent Co. S. S. Association annual convention meets here on the 29 and 30th.

**NEW BRUNSWICK IS BACKWARD**

Hamilton M.P. Talks on Conditions in This Province

Says Scarcity of Manufactures is Driving Hundreds of Clever Young Men to North West

A Zimmerman, M. P. of Hamilton, was in the city yesterday staying at the Royal. Mr. Zimmerman is taking a trip through the maritime provinces, this being his first visit here for years.

In speaking to a Sun reporter he expressed himself as being greatly disappointed at the lack of manufacturing establishments throughout the province. He pointed out that the textile industry in this part of the country is lumbering and Mr. Zimmerman does not think this work will tend to keep the young men in the province. Our educational institutions are fully up to those in Ontario, but technical education is lacking to the average young man.

In Hamilton the International Harvester Co., the Canadian Wire Rope Co., and other large manufacturing establishments give suitable employment to the men who need to be well educated in order to perform their duties, and in fact thousands of the young men migrate annually, attracted by the good positions there.

Mr. Zimmerman also referred to the backwardness of the farmers whom he saw along the route, claiming that they employed implements which prevented them from getting the best results for the labor expended. Referring to agriculture, he said the Guelph Agricultural College had done a great deal to forward farming throughout Ontario, and said that such an institution would be of great benefit to these provinces.

Lectures were sent out from this college to tour the provinces, appearing before the various farmers' assemblies, and their lectures were always well attended and had been successful in producing great results.

Mr. Zimmerman referred also to the clever men representing the different constituencies from New Brunswick and Nova Scotia, saying that some of them were unequalled on the floors of the houses—being particularly distinguished by their executive ability, and thought that under such guidance manufacturing pursuits could be profitably carried on.

He had heard the lumber industry was on the wane, and this would really prove a benefit to New Brunswickers.

**PARIS INTERESTED IN POPE'S INSTRUCTIONS**

Government Journals Strongly Disapprove of the Encyclical—An Animated Discussion Pending

PARIS, Aug. 14.—The Pope's encyclical to the archbishops and bishops of France, prescribing their attitude with regard to the church and states "law," attracts widespread attention here, and its probable effects are the subjects of animated discussion by the press and public and particularly by the clerical and official classes responsible for the execution of the law. A pontifical messenger arrived here today, bearing a document to Archbishop Richard, who in turn afterward gave out the document for publication. The encourage of the archbishop summarized their views in the following words:
