

## News Summary.

As a result of the visit of President Trotter, D. D., the Baptist church of Digby raised the sum of \$500 for the Acadia Forward Movement Fund.

Repairs to the Digby railway station are nearing completion, and an electric light has been placed at the north end of the platform, near the baggage room door.

Mr. G. Johnson, Dominion statistician, has returned to Ottawa from a three weeks' visit to Nova Scotia, where he spent most of his time at his apple orchard in the Annapolis valley.

It is said that Mr. W. C. Macdonald, so well known wherever the name of McGill University is spoken, has given a further sum of over \$25,000 to the electrical department of the science building.

Rev. Dr. Trotter has lately visited Canada, Digby and Herwick in the interest of the Forward Movement Fund. It is reported that he and his helpers have secured about \$6,000 of the \$10,000 required to complete the fund. He leaves tomorrow for Canoe.

The steamer Victoria brings the news that two more battles have been fought in Formosa between Japanese troops and the native savages, who seem to be bent upon exterminating all the Japanese on the island. So serious are the disturbances that Europeans and numbers of Chinese merchants are fleeing to Amoy by every steamer.

The Pekin correspondent of The Daily Telegraph says: "Chinese soldiers attacked a party of English engineers Sunday at the Marco Polo Bridge on the Pekin Hankow Railway. Two engineers were injured and a railway coolie was killed. The situation there is serious. The telegraph wires have been cut at Pao Ting-Pu in the Province of Pechili. The foreign envoys will hold an emergency meeting tomorrow."

The immigration branch of the Interior Department have a problem on their hands, which it is not easy to solve. Two thousand immigrants will arrive here in the very worst time of the year, and without sufficient means. They will have to be housed and fed during the winter weather, or they will find a Canadian winter quite as hard to combat as Russian persecution.

The Blomidon correspondent writes to the Wolfville Acadia: "Elder Toss, from Kansas City; Elder Luff, from Maine, and Elder Davidson, of Hantsport, are holding services in the hall, representing the church of Latter Day Saints. They claim to have the truth as revealed to their prophet, Joseph Smith."

The Bridgewater Enterprise reports ship-building brisk on the LaHave. A new fishing vessel has just been launched, another in frame, the keel of another just laid, and still another is to be commenced shortly. Several others may be added to the river fleet this winter.

An engine and five loaded freight cars of the Central Railroad, New Jersey, are at the bottom of the Newark Bay, and traffic through the waterway is interrupted. The engine and cars ran clean off the tracks, through the open drawbridge, and plunged, while going at a considerable rate of speed, into the water. The drawbridge is about 25 feet above the water. All the hands jumped to the trestle. No one was hurt.

During the recent French naval manoeuvres in the Mediterranean, Admiral Humann let fly from the flagship "Brenus" ten pigeons at 175 miles from Porquerolles. Three of the number were lost, but seven arrived safely, having accomplished the distance at an average speed of twenty-five miles an hour. The pigeons had been absent from their houses twenty-one days, and the result of this experiment is considered highly satisfactory.

The railway system in the United States employs 36,000 locomotives, 26,000 passenger cars and 9,000 mail and baggage cars. These figures seem large till the number of freight cars is stated, which is 1,250,000. A passenger train, consisting of locomotive, tender, baggage and six passenger cars, with their contents, is estimated to weigh about 184 tons. Freight trains sometimes reach a weight of 550 tons. An ordinary passenger car costs from \$4,000 to \$5,000, and a sleeping car anywhere from \$10,000 to \$20,000. The system, with its gigantic equipment, is practically the growth of a single generation.

A month ago 1,000 aborigines attacked and set fire to one of the principal Japanese military stations. After eight hours' desperate fighting the natives retreated. In this battle more than 200 were killed. On the following day a large band of natives advanced to Hankyo, burning the station at Tako. Japanese troops reached Hankyo at the same time and surprised the aborigines in their headquarters at Anko, which was burned. In another battle scores of natives were shot down. The Formosa rebels have been supplied with arms and equipments by the Chinese, hundreds of whom have landed from Amoy.

This morning Mr. Charles M. Hays, general manager of the Grand Trunk, issued an order to the superintendent of the car construction shops of the company at Point St. Charles for the construction of two hundred additional flat cars. They are to be thirty-five feet long and to have a capacity of sixty thousand pounds. The cost of construction will be about a hundred thousand dollars. The new cars will be used over the system from Portland to Chicago.

Miss Mabel Jenness, whose wonderful system for the correct physical training of women and girls is so well known all over the North American continent, is a firm believer in the virtues of Paine's Celery Compound. When overworked by her multitudinous duties, she always recuperates and strengthens her system by using Paine's Celery Compound. In a letter to Wells & Richardson Co., proprietors of Paine's Celery Compound, she says:

"I was induced to try Paine's Celery Compound at a time when I was suffering from overwork and the effect of an accident. I began immediately to realize tonic and blood-nourishing effects. I take pleasure in saying that, although opposed to medicine in general, I really consider this an excellent preparation."

"I have not been able to take one day's rest since I returned from my long, hard western trip. I am sure were it not for Paine's Celery Compound, which has a tonic effect, I should not be able to keep up and work hard."

"I recommended Paine's Celery Compound to a friend who dined with us yesterday, and on leaving here she went and bought a bottle. I shall do all I can for it, for I believe in it."

There are spots in the ocean where the water is five miles deep. If it is true that the pressure of the water on any body in the water is one pound to the square inch for every two feet of the depth, anything at the bottom of one of the "five-mile holes" would have a pressure about it of 13,000 pounds to every square inch. There is nothing of human manufacture that would resist such a pressure. It is said that pieces of wood have been weighted and sunk in the sea to such a depth that the tissues have become so condensed that the wood has lost its buoyancy and would never float again. It could not even be made to burn when dry.

## Important to Athletes.

Mr. Mack White, the well-known trainer of the Toronto Lacrosse Club and Osgoode Hall Football Club, writes: "I consider Griffiths' Menthol Liniment unequalled for athletes or those training. I have used it with the best success, and can heartily recommend it for stiffness, soreness, sprains and all forms of swelling and inflammation. All druggists, 25 cts."

## JUST A BAD COLD.

A sharp stinging pain in the back—you think it doesn't amount to anything—be all right in a few days—but it doesn't get all right—kidneys are at doing their duty, and the poisonous matter that they ought to remove is going all through the system—causing rheumatism, gout, dyspepsia, headaches, backaches—all sorts of ills.

## DOAN'S KIDNEY PILLS

Cure the disease by removing the cause.

W. D. Popham, Talbot St., St. Thomas, Ont., says: "I have for a long time had serious back and kidney trouble. My back was so stiff and painful that when I sat down I had to have something to assist me to get up. I have taken four boxes of Doan's Kidney Pills, and they have taken the stiffness and pain from my back and enabled me to straighten up without pain or difficulty."

Price 50c. a box, a for 90c., all druggists. The Doan Kidney Pill Co., Toronto, Ont.

## PUT YOUR FINGER ON YOUR PULSE.

If It Is Weak or Irregular don't Hesitate to Start the use of Milburn's Heart and Nerve Pills at once.

With a strong, steady, regular pulse we may expect vigorous health.

With a weak, irregular, intermittent pulse we can tell at once the vitality is low—that Dizziness, Faint Spells, Smothering and Sinking Sensations and similar conditions are bound to ensue.

By their action in strengthening the heart, toning the nerves and enriching the blood, Milburn's Heart and Nerve Pills relieve and cure all those distressing conditions just enumerated.

Mrs. B. Croft, residing on Waterloo Street, St. John, N.B., says:

"For some time past I have suffered from pallor, weakness and nervous prostration, I had palpitation and irregular beating of the heart so severe as to cause me great alarm. I was treated by physicians, but got no permanent relief."

"I am glad to say that from Milburn's Heart and Nerve Pills I derived the first real benefit that I ever got from any medicine. My appetite is improved, my entire system toned up, and I can do no less than cheerfully recommend these pills to all requiring a reliable heart and nerve tonic."

Miss Mary E. Hicks, South Bay, Ont., says: "Laxative Liver Pills cured her of Sick Headache, from which she had suffered for a year."

## To make Good Butter

one must have good milk and this comes only from healthy cows. The blood must be kept clean and pure, and the digestion good to ensure this result. There is nothing so good for this purpose as Dick's Blood Purifier. This preparation is specifically made for milch cows and possesses real merit and power to do what is claimed for it. Given regularly with good food it will convert a mere hide and bones structure into a profitable member of the herd.
