The minister stated he was too busy to grant an inter-view at that time, but on his return he would consider the question as to the advisability of an interview. The mayor hearing nothing further, on the 17th inst., telegraphed the minister on the following terms: "Our committee extremely desirous of an interview with you re winter port maters. White felt that in face of the cir-cumstances it was clearly the duty of the council to ask the government to arrange with the C. P. R. to carry on the busi-ness this winter. The government would have no right to assume that the council was acting as an agent for the C. P. R. In amendment to the amendment of Ald. Macrae he moved that the following be inserted in the original resolution: "And urges that the future railway policy of the government may be such as will ensure to the port of St. John a system of rail-way connection to give the city a contin-uance of the winter export trade it has hitherto enjoyed." Ald. McGoldrick said in his estimation the committee had not gone about the matter in the proper way. They should have made a little more effort to get the

views of the minister of railways on the subject. Politics should be left out of the subject. Pointics should be left out of the matter, but the members of the council were not doing this despite their protes-tations to the contrary. If Ald. Baxter had not made a political speech at the present meeting he was greatly mistaken. He (McGoldrick) had never voted for Mr. Blair's government, but was a personal friend of the minister's and wished he had friend of the minister's and wished he had been on the committee appointed to in-terview him.
