

LONG "DROUGHT" LIKELY IN MAINE

Three New Sheriffs Appointed to Keep the "Lid" On

A CRUSHING BLOW

One of the New Officials Has Notified Clubs to Quit Dispensing Liquor

Bangor, April 29.—With the appointment of three new sheriffs to replace the officers who the legislature ordered removed, because of non-enforcement of the prohibitory law, the indication is that Governor Haines has put the "lid" on tight, and it will be some time before conditions are again as they were before the present wave of reform swept over the state.

In Penobscot county Governor Haines has named J. Fred O'Connell, of Milford, a young Republican member of the legislature, to succeed Wilbert W. Emerson.

The veteran sheriff of Sagadahoc county, John Hallow, of Bath, is to be succeeded by Wilbur G. Oliver, for a number of years chairman of the Republican city committee in Bath and a former nominee for sheriff of the county.

In Cumberland county, the governor has named a Democrat, Everett G. Souly, to succeed "Lew" Moulton, the Democratic incumbent, whose removal was ordered.

The appointees will be confirmed by vote of the governor's council May 6, and will assume the duties of their respective offices May 9.

Notwithstanding the fact that the former sheriffs are aware that their days are numbered there has been no let up in the enforcement programme. Yesterday Sheriff Emerson's deputies seized liquor valued at \$1,200 and were still busy today.

Clubs Must Quit, Too

Sheriff Stevens, of Androscoggin, who was appointed to replace Sheriff Lewis, the one sheriff who resigned at the beginning of the investigation by the legislature, has issued orders that all clubs must cease dispensing liquor in any form.

This means the end of the "locker system" and spells a complete drought for that county at least.

Sheriff O'Connell, of Penobscot, has little to say in regard to his policy other than he has promised the governor to strictly enforce the prohibitory law and intends to do it. There is a well founded rumor that he will not let the deposed sheriff as head liquor deputy and let him take charge of this branch of the work.

All over the state a close watch is being kept on the liquor interests to see whether they intend to submit to what seems to be the inevitable or to engage in the business again. For the past three weeks Maine has probably been the only state in its active history, and those who are familiar with conditions look for a long continuance of the drought.

An amount of blood equal to the whole quantity in the body passes through the heart every minute.

Lost wealth may be replaced by industry; lost knowledge by study; lost health by medicine; but lost time is gone forever.

REBUILT FIRE-SWEPT AREA

Under the caption Canadian Towns in the Making, Colonial Life, London (Eng.), for April, contains an article on the city of St. John, giving particulars of its present development. The article is illustrated by several excellent cuts of the city which show the progress of the city.

As indicated in the sub-heading of this article, the importance of this city is gaining from the fact that it is the natural port of the Atlantic coast on the mainland of Canada, and as the year goes on, and as a consequence enormous shipping congestions there all year round, and more particularly in the winter months.

There are fifteen steamship lines running to and from St. John to all parts of the world, including the Canadian Pacific, the Allan line, the Donaldson Line, the Purves line and numerous others to the West Indies, Australia, South Africa, etc.

The anniversary of the great fire which fell on April 30, 1912, will find that Bangor has fast recovered from the terrible loss which the business interests and it will not be long before all that remains of the devastation has been wiped away.

General returns from the assessors of the city will show that the value of the real estate destroyed has been replaced and there are still many residences and several business buildings in the course of construction.

Controllers and actions of all trades have reaped a harvest, and because of the constant employment of men at good wages, beyond the depleted state in which the fire has left the municipal finances, the city is in a position to meet the needs of the city.

Several hundred feet away on the same street a large excavation has been made for the new post office and customs building. The federal government was liberal in its appropriation, and when the work is completed it will cost, with the site, \$400,000.

These three buildings alone represent an outlay of over \$1,000,000.

After the flames had passed over the site of the old building, the city fathers and second Congressional societies combined forces and became known as the city fathers.

The Bangor Real Estate Company is engaged in erecting another six-story structure, which will rank with the other two on its completion.

The new home of the Bangor Savings Bank is an attractive building and might well be seen and admired in an individual building for the use of the bank.

Numerous other blocks have been built or are in the process of erection as the present buildings are being replaced by the beauty of the city and the investment of close to \$2,000,000.

On the site of one of the older business blocks a new theatre, which will be devoted largely to motion pictures and vaudeville and will have a capacity of 2,000 people.

In accordance with all the new building there is in Bangor a well defined movement, started with the women's club, towards "cleaning up" the city.

Because of the active work on the part of the women, the mayor, who is also the street commissioner, has agreed to co-operate in every way, and has agreed a week in May, after house-cleaning time is over, to have the city streets cleaned up.

There is a strong feeling of civic pride throughout the city, and it is contemplated that towards making Bangor worthy of the name "Queen City of the East."

RUINS OF TWO YEARS AGO NOW OCCUPIED BY MODERN STRUCTURES

Blessing in Disguise

Confirgation Which Destroyed \$3,000,000 Worth of Property Has Benefitted Many and Clipped Nails—Some Costly Buildings Now Adorn the City.

Bangor, Me., April 29.—From the ashes of the great fire which swept over a large section of Bangor two years ago this week, there have risen dignified, substantial structures of masonry and steel in the custom-made and modern style.

The anniversary of the great fire which fell on April 30, 1912, will find that Bangor has fast recovered from the terrible loss which the business interests and it will not be long before all that remains of the devastation has been wiped away.

General returns from the assessors of the city will show that the value of the real estate destroyed has been replaced and there are still many residences and several business buildings in the course of construction.

Controllers and actions of all trades have reaped a harvest, and because of the constant employment of men at good wages, beyond the depleted state in which the fire has left the municipal finances, the city is in a position to meet the needs of the city.

Several hundred feet away on the same street a large excavation has been made for the new post office and customs building. The federal government was liberal in its appropriation, and when the work is completed it will cost, with the site, \$400,000.

These three buildings alone represent an outlay of over \$1,000,000.

NORTH SHORE CHURCH IS CLEAR OF DEBT

Red Bank Presbyterians Lift \$1,290 Mortgage, Besides Paying Current Expenses in One Year—News of Newcastle.

Newcastle, May 1.—St. Stephen's Presbyterian congregation of Redbank and Whiteville, have, during the past year, under the leadership of Rev. J. F. McCurdy, had an ordinary expense and extinguished a mortgage debt of \$1,290.

At the annual meeting a few days ago it was decided to take steps to build a modern manse at Redbank. The congregation in appreciation of Mrs. McCurdy's devoted efforts in securing her husband in his work, was presented with a magnificent china dinner service.

Rev. J. F. McCurdy and others are having a water system put in for part of the village of Deabank. The water is brought from Harry Bryenton's down to the post office, a fall of 40 feet, and will supply 125 gallons a minute. About 15 families will use it now, and 33 or 40 more can be accommodated.

ENJOYS FISHING AND SHOOTING AFTER BEING INVALID IN BED

Kidney and Bladder trouble may quickly bring you to the sad state Alex. W. Stevenson was in.

He was an invalid using a crutch and cane for six months. In this state he sought and found relief in GIN PILLS.

The first step leading to the invalid's bed may be very simple when you recognize the first symptoms of Kidney and Bladder trouble, when you have constant backache, frequent desire to urinate, it may be when you feel the urine hot and scalding or when you have specks floating in front of your eyes.

These are the times when the marvelous results of GIN PILLS are appreciated. These are the very times when you should use Don't wait for the repeated occurrences of these signs. Take GIN PILLS at once. Keep the invalid's bed as far away as possible. Get close to the health which allows you to enjoy your outdoor life, and which makes your indoor times also a pleasure.

For two years I was an invalid, incapable of work of any kind, sixteen months of this time I was unable to move without the assistance of a crutch and a cane. During this time I was treated by all our local doctors as well as taking treatment from a specialist in Chicago, but did not improve any, and had given up hope of ever being able to get on my feet, when a friend advised me to try GIN PILLS. This I did, and with two months' treatment I was as well as ever I was. This was four years ago, and I have had no return of my trouble since.

I still take a box two or three times a year as a preventative and shooting in the Spring and Fall, and lay out on a night without any inconveniences. It is a wonderful medicine and I take great pleasure in mentioning it to all sufferers from Rheumatism.

ALEX. W. STEVENSON, 1001 Main Street, Toronto, Ont.
