The Loyal Temperance Legion met at the home of Mrs. J. W. Hammett on Saturday, Jan. 30. Mr. Hammett gave the address, which was very much appreciated. The next meeting was held at Mrs. Holman's on Saturday, Feb. 13.

John Archer was in town on Monday paying a good-bye visit, as it is expected the 15th Batt. will leave very soon. John looks splendid in his "khaki." He is under Captain Prince, of Windsor. He says they have been very comfortable in their quarters in the Crystal Palace in the fair grounds at London. May he come back safely, bringing home to his country and to his native village.

TO THOSE OF SEDENTARY OCCUPATION.—Men who follow sedentary occupations, which deprive them of fresh air and exercise, are more prone to disorders of the liver and kidneys than those who lead active, outdoor lives. The former will find in Parnelle's Vegetable Pills a restorative without question the most efficacious on the market. They are easily procurable, easily taken, act expeditiously, and they are surprisingly cheap considering their excellence.

The young ladies who gave the recent ball in aid of the Red Cross work report the receipts of the evening at \$75. Of this sum \$24 was required for music, printing and refreshments. One hundred and sixty-nine yards of cloth were bought and manufactured into articles needed in hospital work, and the balance, \$50, was handed over to the Melbourne branch of the Red Cross Society and by them forwarded to headquarters at Toronto. This report should set at rest the malicious statements made by some in regard to the proceeds of that evening.

At the annual meeting of the Public Library a most excellent report of the past year was given by the secretary, Miss Mary Mather. The library is in a fair financial condition and has now on its shelves, 1,250 volumes of the best and latest books. The report of the librarian, Miss Marshman, showed a fair number of readers in this community, yet there is room for improvement in this respect. Another improvement needed is a proper building in which to house the books. The directors feel that wonders could be accomplished in this respect if a few kind friends of the library would just place to the credit of the library about \$500. Just try it and see.

In the death of George Marshman Melbourne loses its oldest resident, one who was a familiar figure in our midst since 1847. Born in South Kirk, England, in 1822, he was thus a link joining the present to the days of the far off struggle of the first Reform

bill, in 1843 he, with his father and other members of his family, came to America, the land of promise, settling first in Vermont. After a residence there of four years the westward journey was continued and settlement was made in the southern part of the county of Middlesex. Mr. Marshman finally settling on the south half of lot five, in the first range south of the Longwoods Road in the township of Caradoc. The whole country was then woods, Indian trails being the only roads. In 1858 he married Miss Williams, who after fifty-seven years of married life survives him. In 1885 Mr. Marshman retired from the farm to spend his remaining days near Melbourne. He was a sincere member and supporter of the Methodist church, always ready and anxious to aid in church work in every way possible. Mr. Marshman was a true optimist, always looking on the bright side, and although suffering much during his latter years, still he was ever ready to make the best of every thing with a cheery word and a kindly smile. Five daughters also survive him—Mrs. Wilson Richards, Mrs. E. Richards, Mrs. Robert Carruthers, Mrs. Wm. Pierce and Mrs. Geo. Haggerty, all residing in a short distance of the parental home. Besides these the family group includes twenty-one grandchildren and five great grandchildren. The funeral services, which were private, were conducted at his late residence by Rev. Mr. Currie on Thursday, Feb. 11th, internment taking place in Longwood cemetery. "His was a life well spent" may truly be the verdict of his friends and neighbors.

They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and peacefully, so that the destruction of the worms is imperceptible.
