# Your Next PHONOGRAPH WILL BE A BRUNSWICK

(All Phonographs in One)

### And Here is Why---

## The "Round" All - Wood Horn.

You never heard of a "square" horn in a band or any musical instrument; you never saw a square megaphone. We learned in High School that all sound-waves travel in circles or ovals, yet you will not find any round horns in any of the old style Talking Machines.

Artists sing INTO a round horn, and the Brunswick

sends it OUT in a round horn. That's a simple "secret" isn't it? And yet no one has ever made a round WOOD horn before—and more than that, no one else ever will, because this is one of the exclu-

sive patented features of the Brunswick. This one feature alone is responsible for much of the Brunswick's wonderful TONE. It makes every good It makes every good record—of ANY make—better. Because it is all wood—built like a violin,

Yet the BRUNSWICK costs no more than ordinary phonographs. Prices of conventional models range from \$148.00 to \$395.00.

### And Here are 86 more Reasons Why ---

You are not restricted to any one list of artists with a Brunswick-positively

Every artist is available for the owner f a Brunswick.

There are 86 artists of world-wide fame in particular, whose records are in great demand. These great artists sing for dif-ferent makes of records. That's the value of the Brunswick.

But all of these different records are layed CORRECTLY on the All-record

This means that when you own a Brunswick EVERY Grand Opera Star, EVERY Jazz Band, EVERY Vaudeville Entertainer, EVERY Orchestral Organization, EVERYBODY helps to entertain the

And mark this: Every make of record is played CORRECTLY on the Brunswick—played just as if it had been made especially or the Brunswick.

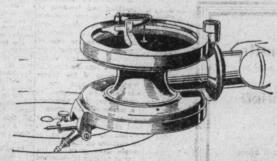

Go to the nearest Brunswick dealer list-

ed below and let your ears be the judge. Have the dealer play ANY make of record on the Brunswick, and see for your-self how the Brunswick Ultona is adjusted INSTANTLY—by a mere twist of the wrist to any make of record.

And note the wonderfully lifelike purity of tone of EVERY record when played on

The Musical Merchandise Sales Company

## And Here is Why---

## The All-Record, All-Needle

### Ultona

This wonderful Reproducer was designed A FTER all the great Record Libraries were formed,

It is NOT an attachment, and it plays any make or type of record without taking anything off or putting anything on. A twist of the wrist—and it is ready for anything. No needles to change.

And it plays every record CORRECTLY, with just the right needle, just the right weight, and describing just the right are across the record. And your needle type records actually last longer.

Since the Brunswick came with this wonderful invention notice how they all say, "Plays all records." Just you see how they do it—then come, investigate the ULTONA.

You cannot afford to make a mistake. Your nearest dealer below will gladly demonstrate the BRUNSWICK for you. Your old model taken in exchange.
