 THE BRADSTREET COMPANY gathers information that reflects the financial condition and the controlling circumstances of every seeker of mercantile credit. Its business may be defined as of the merchants, by the merchants, for the merchants. In procuring, verifying and promulgating information, no effort is spared, and no reasonable expense considered too great, that the results may justify its claim as an authority on all matters affecting commercial affairs and mercantile credit. Its offices and connections have been steadily extended, and it furnishes information concerning mercantile persons throughout the civilized world.  
 Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing and manufacturing concerns, and by responsible and worthy financial, judiciary and business corporations. Specific terms may be obtained by addressing the company or any of its offices. Correspondence invited.

**A MILLION POUNDS OF GRATES.**

The value of the Gordon Hollow Blast Grate in promoting combustion is strikingly illustrated by the fact that our annual sales of grates and connections approximate one million pounds. This celebrated grate certainly affords the best and most economical means in existence for disposing of sawdust and other refuse. It will burn them in your furnaces or ovens, even though wet, green or frozen, producing as good results with such fuel as an ordinary grate gives with dry wood.

Shutting down to wait for steam to use is expensive and demoralizing. Your output ceases and your expenses continue. The Gordon Hollow Blast Grate makes it unnecessary, as it adds from 20 to 50 per cent. to the steaming capacity of a boiler, and gives the fireman perfect control over his fire, regardless of atmospheric conditions.  
 By reason of the substantial construction of the grate, and of the fact that the blast bars are filled with a current of fresh air, the durability of the Gordon Hollow Blast Grate is such as to make it in the end by far the cheapest grate of any description, draft or blast, to be obtained.  
 We do not ask you to take our word for the foregoing, but are perfectly willing to ship you an outfit with the written understanding that you may test it for thirty days in any manner in which you may see fit, and that, if you conclude it is not for your interest and advantage to retain it, you may remove it at any time before the expiration of such thirty days, and return it at our expense. This is certainly the broadest guaranty it would be possible to give. It absolutely protects you, and strikingly demonstrates our own unlimited faith in the grate, based on sixteen years' experience.

**WE ALSO MANUFACTURE:**  
 The **TOWER 2 and 3-saw Edgers, Improved.** For mills cutting not to exceed 20,000 ft. in ten hours.  
 The **TOWER EXTRA 3-saw Edger.** For mills cutting up to 30,000 ft.  
 The **TOWER One-man 2-saw Trimmer.** With this trimmer one man can easily trim the output of a mill cutting up to 30,000 ft. in ten hours.

MADE IN CANADA

**FAIRBANKS WOOD-SPLIT PULLEY**

The Best for Saw and Planing Mills

This pulley is not an experiment but has been sold for several years past all over the United States, and the universal satisfaction it gave and the success it met with prompted us to manufacture in Canada.  
 It has a reputation superior to that of any other Pulley for merit of design, workmanship and finish. The web construction (see cut), built in the rim, not only strengthens the entire Pulley but makes impossible for the rim to work loose at the arm.  
 Each segment is not only glued but nailed with three nails to the next one. Four point bushings are used, giving twice as much grip on the shaft as in the usual two piece bushing.  
 The merits of any article are best proved by a trial. Send us a trial order the next time you want any pulleys. We carry a large stock and with our factory in Montreal can supply any special pulley in 24 hours if not in stock.
