

# OFFER TO MEN!

I Have Confidence Enough in My Treatment to Give My Electric Belt Free Until You Are Cured. I Ask No Pay In Advance.

I believe in a fair deal. If you have a good thing and know it yourself, give others a chance to enjoy it in a way they can afford. I've got a good thing. I'm proving that every day. I want every weak, puny man, every man with a pain or an ache to get the benefit of my invention.

Some men have doctored a good deal—some have used other ways of applying electricity—without getting cured, and they are chary about paying money now until they know what they are paying for.

If you are that kind of a man this Belt is yours without a cent of cost to you until you are ready to say to me, "Doctor, you have earned your price, and here it is."

That's trusting you a good deal and it is showing a good deal of confidence in my Belt. But I know that most men are honest, especially when they have been cured of a serious ailment, and very few will impose on me.

As to what my Belt will do, I know that it will cure wherever there is a possible chance, and there is a good chance in nine cases out of ten.

So you can afford to let me try anyway, and I'll take the chances. If you are not sick, don't trifle with me; but if you are, you owe it to yourself and to me, when I make an offer like this, to give me a fair trial.

Dr. McLaughlin: Dear Doctor.—It is with pleasure that I write you with regard to the Electric Belt. I purchased from you about four months ago. After using it and following the directions for 3 months, I felt like a new man, and it is now three weeks since I stopped using it. I am satisfied to say that your Belt is far ahead of medicine or any other electrical treatment I ever tried before, and it is worth its money many times. I can strongly recommend your Belt and shall always do it. I thank you from my heart for your wonderful remedy. Yours truly, O. JOHNSON.

But some men don't believe anything until they see it. That's why I make this offer. I want to let you see it, and feel it, and know it by your own experience, before I get a cent.

If I don't cure you, my Belt comes back to me and we quit friends. You are out the time you spent on it—wearing it while you sleep—nothing more.

But I expect to cure you if I take your case. If I think I can't cure you I'll tell you so, and not waste your time. Anyway, try me, at my expense. Come and see me and let me show you what I have, or if you can't, then cut out this coupon and send it in. It will bring you a description of my Belt and a book that will inspire you to be a man among men, all free. Office Hours, 9 a.m. to 6 p.m. Wed. and Sat. to 9 p.m. Sundays 10 to 1.

**Dr. M. S. McLaughlin**  
112 Yonge Street,

**H. E. GEORGE, Crampton, Ont.**

### QUESTIONS AND ANSWERS. Miscellaneous.

#### NOTICE TO QUIT.

1. A rents farm to B on shares for one year. Is A, according to law, obliged to notify B that he must leave said farm when his time expires?  
2. Should it be done in writing?  
3. How long before time expires should notice be given?  
4. Can you give a form of notice?  
Quebec. **YOUNG FARMER.**  
Ans.—Notice in such a case is not requisite.

#### KILLING HORSE RADISH.

In reply to a correspondent in Wallace's Farmer, who wanted to know how to kill horse radish, one reader advised taking a sharp spade, cutting off the crown of each plant, and applying one to two handfuls of salt, according to the size of the plant. Another recommends cutting off the plant at the top of the ground and applying a little kerosene oil to the root. Use a sharp hoe, he says, and carry the oil in a spring-bottom can. Another man says he once happened to include a patch of horse radish in a small hog pasture. He says the pigs went for it ravenously, digging the roots out and eating them. In a short time they had it killed so that it stayed killed.

#### DISCHARGE OF EMPLOYEE.

A hired B for twenty-two dollars a month to the end of August. After B had been working for A for six weeks, A paid B off.  
1. Can B come on A for damages for breach of contract?  
2. Ought not A to have given B a month's notice?  
3. About what amount of damage can B collect, and what steps should be taken?  
Ontario. **A READER.**  
Ans.—1. Yes, unless such termination of the employment was by mutual consent, or it was a dismissal for good and sufficient cause.  
2. The contract term could not be shortened by any notice, unless there was an express agreement thereto.  
3. In the ordinary legal course suit would be entered in the Division Court for damages for wrongful dismissal, and the amount which would be awarded the plaintiff by the judge, or judge and jury, cannot be predicted with any reasonable degree of certainty. All the circumstances would have to be taken into consideration, and we would mention incidentally that inasmuch as B would be expected to obtain other employment without delay, or, at all events, to make earnest effort to do so, his succeeding or not in that direction would cut a considerable figure in the estimation of the amount of the damages.

#### Veterinary.

#### RUPTURE.

I have a Shorthorn bull that got a little wrong in his digestion. I gave him a purgative (1 1/2 lbs. of salts, and in a few hours, linseed oil). He got all right, did well, and served well. Later I noticed one of his testicles badly swelled, hard and feverish, swelling extending along the belly. Yet treated it for inflammation, but it does not seem to be much better. Do you think it will hurt him for getting calves? What treatment would you advise giving him, or what do you think was the cause? H. M.  
Ans.—This is probably of the nature of a rupture of the cords, caused by slipping or straining. It is doubtful if the swelling will disappear. If it is hot and inflamed, bathe with warm water often and long, rub dry, and apply liniment composed of equal parts of ammonia, turpentine and raw linseed oil. It may or may not impair his usefulness as a breeder.

A story of Keir Hardie, the Labor member of Parliament, is recalled in England. He went into the library of the House of Commons, where he was intercepted by a policeman.  
"Are you working here, mate?" asked the officer.  
"Yes."  
"On the roof?" which was interpreted as "No" in the Police.

# MEN PAY WHEN CURED

So many men have been cheated out of their hard earned money by Quacks and Fake Specialists, whose injurious dopes and so-called treatments are made to sell rather than to cure, and whose glowing promises and strong guarantees are never intended to be carried out, that they have almost lost faith in the honesty of physicians and in their ability to cure. In order to dispel all doubt, and prove to patients that he can really cure so-called incurable cases, no matter how many other treatments have failed to cure them, Dr. Goldberg offers patients a cure before they pay.

Dr. Goldberg has 14 Diplomas and Certificates from various Colleges and State Boards of Medical Examiners (a reproduction of which is sent with the first letter to each patient), and he has successfully treated men on his pay when cured plan for years, permanently curing patients suffering from severe nervous disorders resulting from overwork, business and domestic cares, dissipation, etc.

Nervous debility and all of the accompanying symptoms, such as headache, loss of memory, mental depression, strange sensations, irritability, sleeplessness, weakness, trembling, heart palpitation, cold limbs, physical exhaustion, etc., are promptly cured; and blood poison, prostatic trouble, early decay, skin diseases, bladder and kidney troubles are cured to stay cured. The prices are very reasonable, and no charges are made for examination and advice, no matter whether the patient takes the treatment or not. Dr. Goldberg has no free samples and no proprietary medicines to sell. He is strictly opposed to all stimulants which temporarily relieve, but after a short time leave the patient in a worse condition than before taken. His treatment is specially prepared for each individual case and goes to the bottom of the disease, purifying the blood, strengthening the nerves and general system. It eradicates all traces of disease, and makes men sound and healthy and able to meet their fellow men with a feeling that they are strong and manly and fit to cope with the most trying conditions before them.

The treatments are sent to patients in any part of the world under this pay when cured plan, and if you will write and state all about your case at once, your letter will receive prompt attention and you will be advised by return mail about how long it will take to cure you, and how much the treatment will cost you. Remember, you do not have to pay a cent for anything until you are cured. No matter how many others have treated you, or how serious your condition is, you should write today and take advantage of this liberal offer. All medicines sent Canadian patients sent from Windsor, Ont., duty and transportation charges prepaid. Address: **DR. GOLDBERG, 208 Woodward Ave., Suite 611, Detroit, Mich., U. S. A.**

## LARGE ENGLISH YORKSHIRES

Pigs of the most approved type, of both sexes, all ages, for sale at all times. We have in our herd than all other breeders in Canada combined. We won more first prizes at the large shows this year than all other breeders combined. We won every first but one and all silver medals and prizes at Toronto and London, and at St. Louis we furnished all the first-prize hogs in the breeding classes except two; also supplied both the champion and grand champions. Prices reasonable.

**D. C. FLATT & SON, Millgrove, Ont.**
