El Arish is a fortified town in Egypt on the Mediterranean, 100 miles to the east of Quatia at point fighting occurred recent between Turkish and British troops on the main high road from the coast to the Suez canal parallel to the coast.
The censors have permitted actively little information regarding the military situation on this front to be gathered from the infrequent bulletins the fighting has been confined to comparatively small areas. There has been nothing to indicate that an invasion of Egypt a large scale is being attempted though the reference in to-day's official announcement to the Turkish communication implies an organized military effort.
