

THE MAN WHO WORKS

Cannot afford to be careless of his eyesight. It often means the difference between advancement and loss of occupation.

If your experience headache or eye-strain when doing close work, you should call upon us at once and ascertain positively that your eyes are all right, or if not, get glasses that will correct the defect.

It is often surprising what an immense degree of comfort may be realized from correctly fitting glasses.

8 S. Market St. Open Tuesdays and Saturdays. Evenings.

War Garden Bulletin

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACKYARD GARDENERS ENLISTED IN GREAT-ER PRODUCTION CAMPAIGN.

Issued by the Canada Food Board in collaboration with experts on the staff of the Dominion Experiental Farm.

Make every seed count this year. The amateur gardener has a weakness for using more seed than is absolutely necessary. Three poor over-crowded plants will not procrowded plants will not produce as much as one good strong one which has had room to develop perfectly. Through the medium of the War Garden Bulletin specific directions will be given from time to time as to the quantity of seed to be used in planting the various kinds of vegetables, how deep you should go and the distance that should be allowed batween the different rows.

tween the different rows.

Seed is scarce—that is the Seed is scarce—that is the chief reason why you should not be predigal in your use of it. Every plant in its place is as gold—but every surplus plant is a weed. Make sure before you start putting in your seeds next week that the soil is in the right condition to receive them. It should be loose and friable. Young

to receive them. It should be loose and friable. Young seedlings do not require very rich soil in the first instance but it is absolutely essential that it be well "worked."

Remember conditions in a country as large as Canada vary. Some portions are weeks ahead of others. These bulletins aim to strike about bulletins aim to strike about the average for Canada as a
