BOSTON SHOE STORE

Particularly in Overcoats For Men

There's really no need of us telling you that the tailor's best overcoats are easy equalled at The 2 T's for a great deal less than the tailor charges; nor is it necessary to tell you that our medium priced Overcoats are better in every detail than any the cheap tailors can produce. Any of our garments will convince you of their qualities quicker than all argument we can advance.

The clothes that bear the New Method label are not the ordinary sorts of ready-to-wear garments, though they are priced the same. You can see that for yourself if you'll compare our \$7.50, \$10.00, \$12.50 or \$15.00 Overcoats—those built from the Friezes, Coatings and Tibets—with what other stores offer at the same prices.

Ours is a great showing of stunning Overcoats, priced from

\$7.50 to \$17.50

UNCLE SAM'S KINDNESS.

TO CONSTRUCT FORTIFICATIONS ON CANADIAN SOIL.

The Welland Canal and the St. Lawrence River to Receive Particular Attention.

New York, Nov. 17.—The Herald has the following despatch from Washington:—Projects for the defence of the great lakes and the St. Lawrence River are under consideration by the War Department. It is planned that eventually strong fortifications shall guard the numerous important cities on these inland seas. Although the first plan for this defence was outlined nine years ago, the protection of the insular possessions is now considered more important, and unless Congress should be more liberal than is expected, all the money available during the next few years will be invested in the installation of coast defences in the Philippines, Hawaii, Porto Rico and the numerous naval stations of the United States throughout the world. General Gillespie, chief of engineers of the army, and a board of engineer officers last summer made a tour of the great lakes and considered their defence. They went from the Straits of Mackinac to the Michigan to Chicago. The Straits connect Lakes Huron and Michigan, and are wholly within the jurisdiction of the United States, a valuable strategic position, to which, however, there is an easy approach from the Canadian side. With the Straits strongly fortified it would be a difficult matter for a fleet to enter Lake Michigan. The Welland Canal, connecting Lakes Ontario and Erie, is another point which will be fortified in course of time, and its defence will be an outer protection of Cleveland, Buffalo, Sandusky and other cities.

BIG FIRE AT SIOUX CITY.

THREE AND A HALF ACRES OF BUILDINGS DESTROYED.

The Entire Plant of Armour & Company Wiped Out of Existence—Spectacular Scene.

SioUX City, Ia., Nov. 17.—The big plant of Armour & Co., which occupied three and a half acres of ground at the extreme south end of the stock yards district, was totally destroyed by fire, which started at 12:30 o'clock yesterday morning on the second floor of the fertilizer building. The loss, estimated by Chas. W. Lennon, Manager of the company, is \$900,000. The insurance is \$721,500. The cause of the fire was said by Mr. Lennon to have been either spontaneous combustion or an imperfect dryer. The fertilizer building, which was of brick, 120 by 60 feet, four stories high, was the first to catch fire. The floors and contents of the building burned like chaff. At 1:25 o'clock the roof fell in, and a moment later the fire burst through into the beet-killing house. From the beet-killing house the fire spread to the fertilizer house, and when the latter was ignited the fire presented a most spectacular appearance. The big beef house, where five hundred carcasses were hanging, caught at 2 o'clock. By this time the entire plant, except the hog house, was a lake of fire. The roar was terrible. The country for miles around was lighted up. Suddenly there came a terrific explosion, followed by another, and then another. Twenty-four drums of 100 pounds each of ammonia exploded before the reserve supply in the ammonia cistern was reached. That ignition almost razed the entire plant from its foundation. About this time a burning roof of a chute fell upon a collection of live hogs, and their squeals were added to the appalling chorus. From a spectacular view the fire was a magnificent sight. At 3:25 o'clock the fire department had given up the fight. It was apparent that all its efforts were useless, and the entire plant would be destroyed. The fire continued to burn all day, and this afternoon there was another terrific explosion, which threw bricks and pieces of iron for hundreds of yards, endangering thousands of spectators, but no one was seriously hurt.

COSTLY POTATOES.

The Northern Star Selling at \$2,500 a Ton.

London, Nov. 17.—Country Life describes the history of the potato known as the Northern Star as one of the romances of finance. It was brought out in 1901 by a Fifehire grower, who parted with a few tons at the extraordinary price of £1,120 a ton. This is about ten shillings a pound, at which rate two pounds were purchased by a Lancashire dealer. From this two pounds there will be grown this year 130 pounds. The dealer was so pleased with the result that he bought a further quantity at £500 a ton, which is the rate for 1902.

LEPERS IN PARIS.

Twenty of Them Are in One of the Hospitals.

New York, Nov. 17.—The Herald says:—Something like consternation has been caused in Paris by a discovery that nearly a score of lepers are under treatment in the St. Louis Hospital. This fact was learned when the authorities asked an appropriation from the municipality to build a special annex to house them. Medical authorities, however, claim that leprosy is not contagious. Dr. Aliouard declares that he only desires to remove lepers from the ordinary wards because they are peculiarly subject to tuberculous affections.

It is reported that the betrothal of the Crown Prince of Germany and the Princess of Albany was one of the reasons for Emperor William's visit to the King.

PUTTING IT STRONG

But Doesn't it Look Reasonable?

This may read as though we were putting it a little strong, because it is usually thought by a majority of people that Dyspepsia in its chronic form is incurable or practically so. But we have long since shown that Dyspepsia is curable, nor is it such a difficult matter as at first appears.

The trouble with dyspepsia is that they are continually dieting, starving themselves, or going to opposite extreme or else deluging the already over-burdened stomach with "bitters," "after dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is a rest. Now how can the stomach become re-perpetuated and at the same time the body nourished and sustained.

This is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy but its success and popularity leaves no doubt as to its merit.

The Tablets will digest the food anyway, regardless of condition of stomach. The sufferer from Dyspepsia according to directions, is to eat an abundance of good wholesome food and use the Tablets before and after each meal and the result will be that the food will be digested no matter how bad your Dyspepsia may be, because, as before stated, the Tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1,800 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet these Tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical, lasting cure of Dyspepsia will be made because the much abused stomach will be given to some extent, a much needed rest. Your druggist will tell you that of the many remedies advertised to cure Dyspepsia none of them give so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.

Do you have trouble with your cooking coffee too long? Goodness, no! They do not stay long enough for that.

TO CURE A COLD IN ONE DAY.

THE MARKET REPORTS.

Cheese Business Winding Up—Grain is Higher—The Live Stock Trade.

Saturday Evening, Nov. 15.

Toronto St. Lawrence Market.

Business at the St. Lawrence Market today was divided between the old and the new establishments. The actual removal of the butchers and vegetable dealers to the new building took place early in the morning, but wagon deliveries of apples and other heavy goods were still made at the old stands. The receipts of nearly all kinds of produce were heavy. In spite of the fact that the market was lively, prices showed little change, although there was an improvement in one or two lines. The total receipts of grain were 2,300 bushels. Wheat—300 bush of white sold 75c higher, 200 bush of red 4c higher at 75c, and 100 bush of goose unchanged at 65c. Oats—300 bush sold 1c higher, at 30c to 35c. Barley—1,000 bush sold unchanged at 46c to 50c.

Blackhead—100 bush sold 1 1/2c higher at 11c. Timothy was firmer, selling at 14c higher at \$14 to \$16 per ton. Clover of mixed was 20c higher, and sold \$1 higher, at \$6 to \$8 per ton. Deliveries were 20 tons. No straw was offered. Butter—Receipts were very heavy, but there was a good demand and practically everything was sold. There was a particularly keen inquiry for choice pound rolls, and these were firm at 22c, while the bulk of the offerings sold at 20c. Large rolls brought 18c to 20c, and in one or two instances a trifle more.

Eggs—The supply was a little larger, and the market was more active. Everything sold well and good prices were obtained. The market opened with sales at 40c, but there were very few transactions at that figure. The rest of the day quotations ran 35c, and at the close a few dozen went at 30c. The demand was very active, considering the warm weather, and trade was satisfactory.

There is a scarcity of turkeys, and the market is strong and higher. The few which were offered sold up to 12 1/2c, and one old bird would bring the remainder. The shortage is believed to be only temporary, as dealers are at the supply of turkeys in the country districts is fairly large. Geese are steady at 20c to 25c per pair. The price of chickens depends to a great extent upon the size and age of the birds and the demand. They are sold from 20c to 80c per pair, but young fowl of good size bring \$1 to \$1.50 per pair. Apples—The market is active and prices steady at \$1 to \$2 per barrel. The deliveries are heavy and the demand is rather good, particularly for the winter grades. Vegetables—The chief inquiry is for potatoes, which are scarce and firm. They sell readily at 5c to 8c per bushel and \$1 to \$1.50 per ton. The deliveries of farm products are very small. Other vegetables are steady, with prices unchanged.

Pork—The market is active and prices are 25c higher at \$7.75 to \$8.25 per cwt. The supply is light and farmers find it very difficult to bring in their hogs, owing to the bad roads.

Cheese Markets.

Belleville, Nov. 15.—At the meeting of the cheese board held here today there were offered 250 cheese. Sales—275 at 12 1/2c. Board closed to meet first Saturday in May.

Cowansville, Que., Nov. 15.—At the last meeting of the district of Bedford Dairy-men's Exchange for this season 12 cheeses offered 31 boxes cheese; 17 cranberries offered 710 boxes butter. Sales—22c.

Watertown, N.Y., Nov. 15.—On the cheese board today 200 cheeses were sold at 22c for both large and small sizes; market closed officially for the season.

Causton, N.Y., Nov. 15.—Today 1,614 twin cheese and 995 tubs of butter were offered; cheese sold at 12 1/2c; butter, no sale.

East Buffalo Cattle Market.

East Buffalo, Nov. 15.—Cattle—Receipts, 100 head; unchanged. Veals—Receipts, 100 head; steady. Hogs—Receipts, 250 head; steady. Pigs—Receipts, 100 head; steady. Sheep—Receipts, 100 head; steady. Butter—Receipts, 100 cwt; steady. Eggs—Receipts, 100 doz; steady.

Chicago Live Stock.

Chicago, Nov. 15.—Cattle—Receipts, 300; good to prime calves, \$9 to \$10.50; poor to medium, \$3 to \$5.75; stockers and feeders, \$2 to \$4.50; cows, \$1.40 to \$4.50; heifers, \$2 to \$4.75; calves, \$1.40 to \$2.40; bulls, \$2 to \$4.50; calves, \$1.40 to \$2.40; Texas fed steers, \$3 to \$4; western steers, \$3.50 to \$5.00; heavy, \$5.00 to \$6.00; mixed and butchers, \$5.00 to \$6.00; good to choice heavy, \$6.00 to \$7.00; rough heavy, \$5.00 to \$6.00; light, \$5.00 to \$6.00; bulk of sales at \$6.15 to \$6.30. Sheep—Receipts, 2,000; steady; good to choice wethers, \$3.40 to \$3.80; western wethers, \$2.75 to \$3.75; native lambs, \$2.50 to \$5.15; western lambs, \$2.75 to \$4.75.

Montreal Grain and Produce.

Montreal, Nov. 15.—Grain—There is still a good demand, both local and export, for oats, and as supplies are light, prices are very firm. Peas are also in good demand. We quote—Oats, 10c; peas, 10c; beans, 10c; corn, 10c; wheat, 10c; barley, 10c; rye, 10c; clover, 10c; alfalfa, 10c; hay, 10c; straw, 10c; wood, 10c; coal, 10c; oil, 10c; sugar, 10c; flour, 10c; rice, 10c; tea, 10c; coffee, 10c; spices, 10c; fruit, 10c; vegetables, 10c; meat, 10c; fish, 10c; poultry, 10c; eggs, 10c; dairy, 10c; other, 10c.
