THE FRENCH TREATY AND RECIPROCITY. THE FRENCH TREATY AND REGIFECTIVE.

On the motion for the second reading of the bill so bring into force the provisions of the French treaty, with respect to all foreign powers, under the most-favored mation treaties, Mr. Foster, in answer to Bir Richard Usattwight, said there were two views of a reciproselty treaty. One was the British view, and extended reciprocal advantages negotisted with foreign powers with which most fovored-mation pressites were in force, and there might be called the American view, while regarded a reciprocal treaty as merely a commercial arrangement made between the two mations directly concerned, and affecting them only. Sir John Thompson was inclined to look upon a reciprocal treaty as merely a matter of bargain and sale between the nations directly concerned, but the Government, as was indicated by the bill now under consideration, had adopted the British view, and proposed to extend to all most favored-nations the privileges granted to France.

Sir Richard Cartwright said he could not agree with the view of British precedent state by the fid not

granted to France,
Sir Richard Cartwright said he could
not agree with the view of British precedent taken by Mr. Fos'er He did not
know this matter was coming up today,
but he would look into it and place his
views on record on the third reading. He
innisted on the "carteme impropriety" of but he would look into it and place his view on re-ord on the hind reading. He insisted on the "outrame impropriety" of the Government allowing favored-nation diagrees made by Great Britain on her own proper motion without reference, to prevail here. He did not in the least admit the right of the British Parliament to Impleade for Canadian psyple. Her Majesty was Queen of England, and she was Queen of Canadian and in all matters affecting Canada she was bound to take the advice of her Canadian Ministers. He did not think the Minister of Justice would disagree with him on that point. Sir Charles H. Tupper: Hear, hear. The discussion was continued until six o'clock when the bill was reported.

The two cents a mile proposal came up in connection with the Hamilton Radial Railway christer. Mr. Maclear moved to insert a two cent-s-mile maximumplessenger rate. He urged that it was a new road in a populous district, and if it were chartered it ought to be chartered under a condition of two cents a mile. Sir Bichard Cartwright supported the principle in regard to this special charter, and so did Mr. Malock.

Mr. Masson, seeing the drift of sentiment in favor of this amendment, moved that the comm thee ries and report, which was agreed to. The House then went into Committee of Supply.

He agreed to do so, and by the time he had used three boxes there was a marvellous change in his appearance, and he felt like a new man. He still continued to use this life-saving medicine, with astonishing results. During his illness he had fallen in weight to 135 pounds, but he soon increased to 180 pounds. In fact, as he says, the increase averaged about a pound a day while he was taking the pills. He is now able to do any kind of work on his farm, and it is needless to say that he is not only a firm believer in the efficacy of Dr. Williams' Pink Pills, but Icses no opportunity to sound abroad their praise, with the result that others in his Iccality have benefited by his experience and advice.

Concert in Passer Block.—On Friday evening the members of the Dublin street Mathodist church choir drove to S. S. No. 6, Guelph township, where they give a concert in aid of the crgan fund. They were assisted by Miss Lottie O. Willett, of Demoraet, Georgia; Messrs. Stewart, W. Tovell, Geelph, and Wm. Whitelaw, Paisley Block. Mrs. Brydon had charge of the choir, and Miss Scrogie played the accompaniments. Mr. McGregor, school teacher of the section, occupied the chair, and discharged his duties most soceptably. The school house was crowded. During the evening tea was povided, which was much enjoyed. Everything west off most satisfactorily. The amount raised will more than cover the balance to be paid on the organ. In the afternoon a base ball match was played between a picket nine from the city and Paisley Block. MISS JULIA VALLIERE IS CURED.

Hundreds of Her Friends Speak Feelingly About the Wonderful Cure.

The recent cure of Miss Valliere, of 80 Dorchester street, Montreal, who for years was tortured by inflammatory rheums, the cansed much talk in many homes where she is known, as well as much discussion in medical circles.

Miss Valliere's testimony should deeply impress every man and woman who is a martry to rheumstiem. It plainly means that sufferers should not spend their money for medicines that have no power rows such a terribly dangeron of diese c as mas survers should not spent that money for medicines that have no power over soon a terribly dangerous disea è as rheumatismi, Miss Vallures atronqly advises the use of the only medicine that can make people welt'—Paime's Celery Compound. She writes as follows:—"I think it is my doty to advise you of what Paine's Celery Compound has done for me. Lwas terribly afflicted with inflammatory rheumablem, and could not do work of any kind. I tried a vast various of medicines but all proved failures; I also spent much money with dectors but never got any relief. I took the counsel of a friend, and used four bottles of your Paine's Celery Compound, with the result that I am now perfectly oured. I think it is the best remedy in the world."

Russia Trying to Coerce China Cologne, June 28.—The Gazette's correspondent at St. Petersburg says if the Chiness loan raised in Paris, and guaranteed by Russia, is not accepted in the entirety of its terms by China, Russia will send a note to Pekin protesting against the intrigues of Germany and England against Russian interests in China.
