THE "CLIMAX"

Has Been Reached and Every Doubt Removed.

Fawcett's Furnace is the Best!

I NOW TAKE GREAT PLEASURE IN OFFERING MY

"Climax" Wood Furnace

to every one desiring of obtaining a first class Heating Apparatus at a moderate cost. This Furnace has been thoroughly tested throughout the New England States and has given perfect satisfaction, besides a large number of them have been in use in the Maritime Provinces for the past two years and from the experience of those using them, I do not hesitate in recommending them to be

Far Superior to any Furnace in the Market.

The fire BOX is made wholly in one piece and heavily corrugated; thus giving it great strength and a large heat radiating surface. The RADIATOR is of cast iron, joined only at the base in same style as the Fire Box, so that smoke cannot possibly escape into the heated rooms, as is the case with many of the Wood Furnaces in use. An examination of most of the Wood Furnaces in use, will reveal to you the fact that they are all more or less warped and cracked with but one or two seasons wear, and cases exist where the so called cheap Furnaces have proved useless and had to be renewed within the space of one year.

I WARRANT THE "CLIMAX"

to last longer than any two Furnaces of other makes, give more heat with a less quantity of fuel and so very compact that it can be set up in many places where other Furnaces could not possibly be placed. The price has been reduced which gives the "CLIMAX" the preference far before all others. Estimates furnished and every Furnace put in Warranted to give entire satisfaction.

A CAREFUL INSPECTION OF THE "CLIMAX" IS SOLICITED.

They do not pretend to carry the Largest Stock, but they DO carry

The Freshest and Best

And a FULL ASSORTMENT. You can always depend upon what you get there.

It is at this store that Extra Attention is given to compounding Prescriptions, as they make a Specialty of such work.

Special Locals.

Mr. Chipman Chappell of Baie Verte offers for sale the broadleaf grass on the Beck with marsh at that place. Enquire at once for particulars.

WANTED.—A girl to do general housework and to cook. Apply to Mr. J. P. Fickard, Hotel, Good Wages.

Call at Jos. W. Dobson's for your Nickel Driving Harness, Team Collars, and all other fittings in his line. To Telephone Subscribers.—Subscribers are requested to notify Mr. Frank Harris, No. 25, when their instruments are not in working order.

SACKVILLE TELEPHONE CO. SEAWORTHY PLANTS.—After five years of experimenting, I have found the only varieties that seem at all suited to our soil and can supply a limited number of plants about the 15th of August at \$2.00 per hundred. All orders must be in by the 10th inst.—C. PICKARD.

Around Town.

ARM BROKEN.—Fred Amberson, of the Enterprise Foundry had his arm broken at the elbow on Friday last. Dr. Coleman attended him.

PAINTERS at work in the I. C. R. repairing the switches and semaphores and signals. It is a great improvement in the general appearance of the yard.

BASE BALL.—The Wide Awake, baseball club of this place went to Dorchester, recently to play a junior team there and were victorious by a score of 33 to 23.

LECTURE.—Prof. J. Herschel Smith has been treating the residents of Botsford to a series of lectures, illustrated by his incomparable electric-radiant-magnet lantern views.

REMOVAL.—Mr. E. L. Ford has removed his office from the building opposite the W. U. Telegraph office to the rooms over Dr. Sangster's Dental Parlor.

STRANGER THAN FICTION.—The Sackville readers of Progress will be pleased to observe that a correspondent has been secured for this place. The tone are of purely personal interest, and are very entertaining but they are forced to observe that very frequently they are of a nature to excite the domestic circle of the lamented Ananias.

CORRECTION.—In our account of the burgling of the schooner Crow Prince, in our last issue, it was made to appear that Fred Stirling was in an intoxicated condition when found by the watchman. In that afterwards held it was shown that he was neither under the influence of liquor, nor did he know that Estabrooks had broken into the cabin of the Crow Prince at the time.

MR. ALDERMAN NOTES.—Prof. C. W. Harrison, Principal of the Male Academy, arrived in town on Saturday from Dunnville, Ontario. From a paper published at that place, we learn that at the recent Matriculation examination at the University of Toronto, the students from the school of which Prof. Harrison was principal were all successful and two of them secured double honors.

SILVER WEDDING.—The friends of Mr. and Mrs. C. Thomas Dixon assembled at their residence, Bridge St., on Tuesday evening last to do honor to the 25th anniversary of their wedding. The presents were many and of great variety and bespoke the popularity of the host and hostess. Among the souvenirs were a silver tea service given by the children, and also a handsome cake-basket and an ice pitcher from other friends.

AN OLD RESIDENT GONE.—One of the links that bind us to the past century are broken, and in the death of Capt. Benjamin Wells who died at his residence, De Bute, on the 18th inst. Westmorland loses one of its oldest and best known citizens. He was born in 1798 and was the eldest son of William and Catherine Wells. Three sisters survive him: Mrs. Richard Chapman, Amherst; Mrs. Joseph Doherty, Campbellton; and Mrs. Alfred Jones, Point de Bute.

FURFIELD.—The crops of every kind are in a very promising condition. Roots are growing finely and promise to be a fine crop. Oats have not yet been struck by the blight or rust which has made its appearance in other places, and wheat though but a small quantity, is growing and looking well and will doubtless prove a good harvest. Fruit is up to the average, although not much is grown. The lumber business is quiet now, the mills have left this vicinity.

MR. JOHN ROBSON'S, notary has cut some 5,000 or 6,000 logs including 4,000 for Mr. Charles Crossman, 600 for David Crossman, and other quantities for Mr. Crossman, John Eickman, and Samuel Palmer. Mr. Palmer's mill of Dorchester, is now here cutting.

WRECKED AT CAPE TORMENTINE.—The schooner Richard Thompson Capt. Joseph A. Green left Pictou on the 4th inst. for Summerside with a cargo of coal and a deckload of empty barrels. She has not been heard of since. A water barrel bearing the initials of the vessel and the captain has been washed ashore and the general opinion is that she struck the reef near Cape Tormentine, about three miles from the coast, and has sunk. There were four persons on board at the time and it is feared all are lost. Parties from the Cape have searched in vain for traces of the vessel.

SHIPPING NOTES.—Schooner Crusade Capt. Lewis, cleared for the Joggins in ballast. She brought a cargo of bricks from Annapolis for Rhodes, Curry & Co., Amherst. The Edith, Stirling, arrived from St. John on the 10th and cleared same day with 55 m. boards for the same port.—At Baie Verte on the 13th, the bark Scudder arrived from Conway in ballast.—On the 10th bark Claribel arrived from Boston in ballast, and the bark Atello cleared for River Mercury, Alexandria and scuttling. On the 18th bark Helene arrived from Cork in ballast.—Sohr, Lion, Captain Egan, is at Rockport loading stone from the Atlantic Stone Quarry for New Haven.

PERSONAL.—Mr. Thos. Galt, representing the Scottish American News, New York, is at the Brimack.

Dr. McQueen, of Amherst, was in town on Tuesday.

Mr. and Mrs. W. B. Dixon, Mr. and Mrs. D. McKinnon, Mrs. Harrison, and several others returned from Cape Traverse Tuesday evening. Dr. and Mrs. Treuman will remain at the seaside until the end of the week.

Mr. R. P. Alexander, B. A., will take his classes in the male academy as last year.

Mr. Jesse L. Beers, B. A., Honor graduate of the Wesleyan University, of Middleton, Conn., has been appointed classical master in the male academy.

Rev. Mr. Brecken will occupy the cottage formerly belonging to the late Dr. Pickard. This residence has recently undergone a thorough repairing, and has been renovated.

Warden and Mrs. Foster of Dorchester were in town yesterday.

Prof. Andrew is expected to arrive about the first of September, and will live in Dr. Burwash's cottage. Soon after his arrival he will deliver his inaugural address to the students. Subject: "Vitalities and Ethics of the Intellectual Life."

K. D. C. Will Cure You.

Local Matters.

A mo excursion is announced from Sackville to Port Lawrence on the 30th inst.

ZERA SEMON gave \$30 in aid of the wives and children of the striking miners at Springhill.

THORP Alexander, of Hammond, has received a check for \$100 for the horse lost during the Moncton camp.

Geo. Gray, a boy living near Moncton, has been pronounced dangerously insane, and has been sent to the asylum.

The line of railway from Pugwash Junction to Pictou is completed and passenger trains will be put on about the 15th inst.

THE many friends of Mr. Busby, general passenger agent of the I. C. R., will regret to learn that he is seriously ill at his residence, Moncton.

RAND & CURRY, of Amherst, have just shipped, via Halifax for Kingston, Jamaica, a number of hotel fittings, including counters, screens etc.

LEBLANC BROS., who have been operating a rotary mill at Upper Dover, have just finished cutting 250,000 logs this season and give general satisfaction.

JOHN WELSH and Charles White have been sentenced by Judge Wedderburn, Welsh to three years, White to three years and six months in the penitentiary for burglary at Albert.

This Pugwash drug store was entered by robbers on Saturday night and two gold watches and some valuable jewelry stolen. The thief has not been caught.

At a recent meeting of the Moncton and P. E. I. ferry co. it was decided to push the necessary surveys open the required books, and commence work on the line as soon as practicable.

MICHAEL WHALEN, formerly a commercial traveller, attempted to jump over the side of the ship on Saturday. He had been drinking heavily and was "slightly demented." He was shipped to Newcastle.

The new schooner H. R. Emerson, hauling out from Grey's Island, Hillsboro, last Wednesday, caught on the bank. In keeping over her jib-boom fouled with another schooner and smashed. No other damage.

PAPERS have been taken out for the arrest of sixteen young men who participated in a charivari about the house of Calixte Le Blanc at Pains Junction three or four weeks ago, at which son of Le Blanc was killed and figured for life by a gun shot wound.

SAMUEL GOLDBERG of Amherst has entered an action of assault against his wife and mother-in-law. It appears that from the hour in which Samuel became one of the family, they have made life a torture to him, and he, like the bruised worm, had turned upon his enemies.

A MAN named Sherlock, struck under the influence of liquor, while at C. J. Jones, proprietor of the Commercial Hotel, Moncton, on the head with a club while being ejected from the hotel. He was arrested, tried under the Speedy Trials Act and sentenced to twenty days imprisonment.

THE Scott Act still flourishes in Cumberland. Alex. Thompson of Springhill, and Mrs. A. R. McDonald of Pictou, were fined \$200, and costs, recently, and S. R. De Wolf, of Parrsboro, contributed \$100 to the county's fund for a second offence.

JOHN BROWN, a six-year-old son of Walter E. Brown, of Sunny Bme, fell into a "thin" pond. The child was four feet of water. The little fellow climbed on the stones, was held in place by a well pole; and finally rescued by Dan Fogarty going down the well and bringing him up.

THERE was an exciting match trotting race on the 17th inst. between George Thomas, school colt "Get There," by Black Pilot, and M. G. Ayer's "Miss Get Away," by Rampart. It was close but "Get There" won; best time 2:59.

THE Moncton City Council have decided that no one shall encumber the sidewalks with building material, without a permit from the Council, and the builders are to be taxed \$5, \$10, \$15, according to the amount of material. On the lower part of Main street, is said to chew and swallow glass for the amusement of his playmates. Unless he has a tin-lined stomach, the young fellow will likely pay the penalty for his thoughtlessness some of these days.

MICHAEL DOWLIN, Amherst, has been appointed commissioner of the supreme and county courts. James Baird, Macan, Malcolm Bue, Springhill, William Hall, Springhill, have been appointed board of examiners for Cumberland, under the provisions of section 1 of chapter 19 of the acts of 1890, entitled "An act to amend chapter 7, revised statutes of mines and minerals."

This situation at Springhill is as deplorable as ever. The men have left the pumps and fans, and the mine is slowly filling with water and gas. Thousands of dollars are being lost. If much water is allowed to accumulate, the loss to the woodwork in the mine will be irreparable. The management have made several offers which they are not inclined to accept. It is one of great seriousness. If the mines are permanently closed, then what was once a flourishing town may drift into oblivion.

MR. O. S. LEBRE, of the Union hotel, Moncton, is engaged in an enterprise of a novel nature, shipping raspberries in casks to the United States. He forwarded the other day a ton of the berries in this shape and expects to send altogether this season five or six tons. The berries are kept in good condition by the juice which gathers on top. They are used for making wine, jellies, etc. Where the berries are used for making wines it is said the seeds are used in making imitation raspberry jelly. Mr. Lebre shipped two or three tons of berries in this shape a few years ago.

He buys and sells by the pound, and the profit is of course small, but in the aggregate it no doubt pays for the trouble.—Times.

Around Town.

MR. THOS. ESTABROOKS holds his broadleaf grass sale on Monday next. See posters.

BAND CONCERT.—Weather permitting the band will play at Lower Sackville on Wednesday evening next.

ORDINATION SERVICE.—Rev. Mr. Harrison goes to Salisbury, on Wednesday next to take part in the ordination of Rev. W. J. Howard, B. A.

CATTLE SHIPMENT.—Mr. Albert Fawcett shipped a car of fat cattle to Halifax on Tuesday.—P. G. Mahoney shipped a car of sheep to St. John last night.

BAPTIST CHURCH.—The plastering and painting of the new church has been let to Amherst firms. Amos Harrison does the plastering for \$245, and Jas. Clark the painting for \$300.

PERSONAL.—F. T. Parson, and Miss Parson of New York, are visiting at Acadia Grove.

Hon. Senator Botsford, is expected home about the 25th.

CHARIVARI.—Mr. and Mrs. Ambrose Cormier returned from Moncton on Tuesday and received a welcome in the form of a charivari from the festive youths of Middle Sackville.

NEW YORK FREESTONE QUARRYING CO.—This company has shipped 15 cars of stone to Toronto, this week. In a few days a steam engine will be placed on the wharf at Sackville, to load the stone on cars.

THE ELECTION PETITION.—Mr. S. Edgar Wilson was in Sackville yesterday in connection with Westmorland election petition, and notified several witnesses to appear at the trial in Dorchester on Monday next.

SUNDAY SERVICES.—August 24.—Methodist Episcopal Church.—Upper Sackville: 3 p. m., F. W. Harrison.—Rev. D. C. Lawson will preach in the hall, Westmorland Point, next Sunday the 24th at 3 p. m.

VESSEL TRANSFER.—The barque "Mariner," 695 tons, built at Port Elgin in 1875, overhauled in 1880, and lately owned by Mr. Jos. Wood, was sold in New York, last week, to Cataldo Starace, of Naples, for £1,650. Her name has been changed to "Leo XIII." and will sail under the Italian flag.

FIRE AT POINT DE BUTE.—About two o'clock yesterday morning the residence of Mr. George Chapman was entirely destroyed by fire. The flames were not discovered until they had reached great headway, and Mr. and Mrs. Chapman and their children barely escaped, the latter in their night clothes only. Loss \$2000. No insurance.

THE CHARLOTTETOWN EXCURSION.—The excursion to Charlottetown on Thursday last was fairly well patronized. The party arrived in Charlottetown, spent the day and night in the city, in sight seeing, and returned on Friday evening. Efforts have been made, and will probably be successful, to have the Maritime Provincial Press Association excursions from the Island return by the same route next week.

STARVED TO DEATH.—A few days ago Mr. Stewart Estabrooks, of Midgie, went into the woods to look for some cattle of his which had strayed from home. After a short search he found a lumber camp belonging to Mariner Hicks situated about a mile from Charles Hicks's office in the Shepquene Road, also a three-year-old heifer and two three-year-old steers dead. It is a regretful fact that owners and occupiers of these camps do not either take the doors off the hinges or else close them securely, after the winter's work is done. This is the second accident of exactly the same nature that has occurred, the previous case being that of two steers Archibald Simpson, of Amherst Settlement.

Baie Verte.

The Sunday School picnic from here to the Marine Railway on the 18th inst. was quite an enjoyable one. The day was all that could be desired. The farmers were busy haymaking, still there were a number of teams laden with juveniles, off for what seems to be the centre of attraction, the ship railway, when they engaged in different kinds of amusements. They catinied home in the evening quite satisfied.

The W. C. T. U. is doing a good work here and in Port Elgin; they keep up the sermons regularly and with a good deal of interest. Some may say and have said that they do not see much good from their efforts. To an experienced mind the fruit is apparent. They are strengthening the temperance sentiment very naturally, the rum traffic is a thing of the past in Baie Verte. Hall visits of the Sons of Temperance coupled with the efforts of the Christian women, combined with the Scott Act, has had the effect to drive we hope for ever the rum curse from our now very quiet village. Never before in the history of Baie Verte, could it be said that intoxicating liquors were not sold here.

Amherst.

—Mr. Ronald of Ontario, presented his estimate to the town council for supplying an efficient water service to the town. He will have completed, one year from signing of contract for 45,000, a system comprising pumps capable of pumping 800,000 gallons of water per day, a 100 horse power engine and all the necessary mains and pipes. He will complete his estimates at par, making in thirty years. The yearly outlay will be about \$2,350.

The Floral Co. is making a fine display of flowers in some of the store windows.

—Rev. H. A. S. Hartley, Ph. D., etc., lately of St. John, is preparing a book of his life and works as a saint.

—Mrs. D. W. Douglas and some lady friends had a narrow escape from serious injury the other day. A horse they were driving became unmanageable and after a run, in which one wheel got smashed, the animal tore itself loose and left the occupants of the vehicle unscathed.

The cricket club is growing in numbers and popularity, and will soon commence practice.

Two amblers were appeared before Stipendiary Townshend charged with stealing a pocket book and forty cents, the other day. Nobody appearing to prosecute, they were discharged with a warning.

The recent excursion to St. John was not, from a financial point of view, a success. The party went down early in the morning, saw all the sights, and returned at an early hour next morning. The band played several fine selections during the day, which were favourably commented upon by the citizens.

—There is some talk of having a tournament and other sports on the athletic grounds on the 17th and 18th of September. The usual attractions consisting of cricket, ball and races will be offered.

At a recent meeting of the town council, Curran read the prospectus of our thriving town as prepared by Mr. E. N. Sharp. The showing is a good one. More work will be done upon it before it goes to the public.

The University of Mount Allison College!

JAMES R. INCH, LL. D., President.

The First Term of the Collegiate Year, 1890-1, will begin on the 4th day of SEPTEMBER next. For particulars in regard to Terms, etc., address the President.

Sackville, N. B., July 31st, 1890.

Strike At Springhill Ended.

News was received here last evening that the strike at Springhill had ended; both managers and men having made concessions, and that the company would soon be able to fill all orders. The men are to be allowed three pounds of stone per box, and we believe as soon as possible the boxes are to be weighed.
