

## FROM SOUTH AFRICA.

## Lord Kitchener Reports Many Captures Within the Last Two Weeks--The Present Situation.

LONDON, July 1.—A despatch received at the war office from Gen. Kitchener states that since June 24 the various British columns in South Africa report: Boers killed, 74; Boers wounded, 60; Boers captured, 100; Boers surrendered, 130; rifles captured, 131; rounds ammunition, 15,800; wagons, 304.

A despatch from Kroonstadt to the Daily Mail gives the following summary of the situation which the correspondent says shows great promise of an early settlement, although Boer slimness may again upset calculations. The projected renewed invasion of Cape Colony was a fiasco, owing to the unwillingness of the Boer leaders to risk similar treatment to that of De Wet. Hertzog is in disgrace owing to expressing a wish to surrender, and it is reported that he has been relieved of his command.

The military situation is as follows: Commandant Beyers, one of the most dangerous of the Boer leaders, is lagged still at Zand River Port, two attempts to dislodge him from which resulted in little more than the capture of a few prisoners and stock. Colonels Grenfell, McMackin, Wilson and Colenbrander were engaged. Zand River Port is 30 miles north-west of Warmbaths, and the laager is situated in the centre of a deep kloof, which is almost impregnable.

In the western Transvaal there has been a concentration of columns. In the northeast of Orange River Colony comprising Colonels Lowe, De Lisle and Bethune, had sharp fighting with portions of De Wet's, Delarey's and Koo's burghers, capturing 45 prisoners and 71 wagons, and bringing in a number of Boer families, including the wife of Delarey. The prisoners, unlike their comrades in the western Transvaal, are miserably dressed, and in a deplorable condition. One man was reduced to wearing a woman's skirt.

West of Edenburg, General Bruce Hamilton's sweep was very effective. A number of burghers surrendered daily. An officer informs me that he has never seen the Boers so ready to surrender on the slightest excuse.

## THINKS THEY ARE GOOD

Like Everybody Else Who Has Given Dodd's Kidney Pills a Fair Trial.

ST. ELIZABETH, Que., July 1.—(Special) Jean Polius of this place has a very high opinion of Dodd's Kidney Pills. He has tested their merits and knows whereof he speaks.

Wherever you go throughout the broad Dominion you will have a hard task to find anyone who having given Dodd's Kidney Pills an honest chance to cure them are still dissatisfied.

Jean Polius says: "I think Dodd's Kidney Pills are good. They cured me of kidney disease, with which I suffered and which at night forced me to rise every hour. To-day I am well. I sleep without having to get up in the night. You can believe me I am glad to have regained my health."

"Thanks a thousand times to Dodd's Kidney Pills!"

## NAVAL MATTERS.

LONDON, July 3.—In the house of commons to day, during the debate on the naval estimates, the cabinet ministers were hekkled on all sides regarding the condition of the navy. Members asserted that the British Mediterranean fleet was especially inadequate to meet the French and Russian squadrons, saying that it was undermanned and unequipped, especially with modern guns; that it lacked coal-burners and that the coal depots were all exposed to an enemy's fire. The members generally predicted that in case of war the admiralty would break down as completely as the war office did.

H. O. Arnold-Foster, Secretary to the admiralty, in replying referred to the great demand on the admiralty for services in South Africa and China, and promised to strengthen the Mediterranean fleet when new battleships were available and to add to the fleet cruisers and torpedo boat destroyers.

Muscular Rheumatism relieved in twenty-four hours by Bentley's Liniment.

## YOU CAN CURE IT.

## A New Cure for Catarrh in Tablet Form.

The old time treatment for catarrh was in the form of douches or sprays; later on, internal remedies were given with greater success, but being in liquid or powdered form were inconvenient and were open to the same objection to all liquid remedies, that is, that they lose whatever medicinal power they may have had on exposure to the air.

The tablet is the ideal form in which to administer medication, but until recently no successful catarrh tablet had ever been attempted.

At this writing, however, a most excellent and palatable remedy for catarrh has been placed before the public and sold by druggists, called Stuart's Catarrh Tablets, composed of the most recent discoveries in medicines for the cure of catarrh, and results from their use have been highly gratifying.

Stuart's Catarrh Tablets contain principally highly concentrated antiseptics, which kill the catarrh germs in the blood and mucous membranes, and in this respect are strictly scientific and modern, as it has been known for some years past by the ablest physicians that the most successful catarrh treatment was by in-aling or spraying antiseptics.

The use of inhalers, douches and sprays, however, is a nuisance and inconvenience, and moreover can in no way compare with the same remedies given in tablet form, either in efficacy or convenience.

A clerk in a prominent insurance office in Pittsburgh relates his experience with Stuart's Catarrh Tablets in a few words but to the point. He says: "Catarrh has been almost constantly with me for eight years; in this climate it seems impossible to get rid of it. I awoke every morning stuffed up and for the first half hour it was cough, gag, expectorate and sneeze before I could square myself for my day's work; no appetite and a foul breath which annoyed me exceedingly."

"I used Stuart's Catarrh Tablets for two months and found them not only pleasant to take but they did the business, and I can sincerely recommend them to all catarrh sufferers."

Druggists sell Stuart's Catarrh Tablets at 20 cents for full sized package. They can be carried in the vest pocket and used at any time and as often as necessary. Guaranteed free from mercury or any mineral poison; absolutely safe.

There are eighty cities in India with over 50,000 inhabitants, a record beaten by no country of the same area.

THERE ARE OTHERS but only one Kendrick's Liniment, the greatest modern household remedy. For all Pains, Lameness and Swellings get Kendrick's.

## REPLACING THE STRIKERS

C. P. R. Brought Men from Nova Scotia Yesterday and Sent Them West.

The strike of the C. P. R. trackmen still continues and as far as can be ascertained very few of the strikers have gone back to their work on this division. A few days ago some of the railway employees stated that they had plenty of men at work, but notwithstanding that the C. P. R. continues to engage men wherever they can be found. Yesterday afternoon about a dozen men who had been engaged in Nova Scotia came over on the Prince Rupert to St. John and one portion was piloted into the Union depot by E. J. Shewen, while another portion was in charge of Constable Dibble and Mr. Barber. It is understood that these men, who left last evening by the C. P. R., are going to Megantic. The men created a very unfavorable impression and laboring and railway men had a very poor opinion of the class of workmen being employed. One C. P. R. employee, who has been exceedingly busy since the strike commenced, and who has done considerable track patrolling, said when his attention was called to the men, that it did not matter what sort of men they were, that of first importance was to get men of some kind, for the strikers do not know what they are like. The C. P. R. expect to send out about a dozen more men this morning; these will go to Woodstock. The strikers are evidently well supplied with information, as they can tell just what is being done by the company and also by the men employed to replace them.

Catarrh is a Miracle Worker. Catarrh cures Catarrh. " " Asthma. " " La Grippe. " " Hay Fever. " " Bronchitis. " " Cold in the head. Thousands of testimonials prove this. You can try it for 25 cents. All druggists have it.

## Refrigerators.

It is impossible to keep your meats from spoiling unless you have a refrigerator to keep it in.

We know your wants and therefore have a nice line of these Refrigerators in stock. Prices from \$10.75 to \$27.00.

If you find that your Hammock is getting old and faded come to us. We have a lot of splendid values in Hammocks

## There's a Difference

Between being comfortably stowed away in bed listening to the soothing patter of raindrops on a wholly whole metal roof and scurrying around putting a bucket here, a dish there and a kettle somewhere else to catch the drops as they leak through a holy roof or a carelessly finished seam. You'd always enjoy the former and never suffer the latter if we were your metal roofers. It costs no more to have good work done, if we do it, in the first place. It's done then, done by experts, supervised by experts, and won't have to be done over after every rain or snow.

D. J. SHEA, Plumber and Roofer.

## It Certainly is True

That the sashes and doors made at our factory are first class in every respect, and by all odds compare with those made at any of the other factories in the province.

Our make goes abroad which is proof of the above statement and we are in a position to back it up.
