

## HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."

—Mrs. ABELINE E. LYNCH, 100 Plain St., Providence, R. I. Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment. Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous food and health remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

## Anglican Meeting at Blackville Last Week

Through the kindness of Rev. J. A. Cooper, Rector of Bathurst and a former Rector of this parish, services were held Sunday April 14th morning and evening in Trinity Church, Blackville and in St. Agnes, Grey Rapids in the afternoon. Large congregations attended the three services.

The annual business meeting of Trinity Church was held on Monday evening April 15th. Rev. J. A. Cooper in the chair. Minutes of the last Easter meeting were read and approved.

The treasurer's report showed the balance to be on the right side. Votes of thanks were passed to the secretary-treasurers for his services and to those having charge of the Sunday School for their splendid work during the year.

The officers elected for the ensuing year were: Wardens—B. N. Underhill, Isaac Underhill.

Vestrymen—Hudson Underhill, Chas. F. Underhill, Justus Underhill, Albert Underhill, Alfred Underhill, Jas. Underhill Sr., Thos. Underhill, Harry Underhill, Wm. Lebars, John Lebars, T. M. Barnett, Henry Seeger.

Society-Treas.—Justus Underhill. Delegate to Synod—Albert Underhill.

Substitute—Justus Underhill. Services will be held on Sunday April 28th in Trinity Church morning and evening and in St. Agnes, Grey Rapids in the afternoon. The Rev. F. W. M. Bacon will conduct the services.

## Teething Troubles

Baby's teething time is a time of worry and anxiety to most mothers. The little ones become cross; peevish; their little stomach becomes deranged and constipation and colic sets in. To make the teething period easy on baby the stomach and bowels must be kept sweet and regular. This can be done by the use of Baby's Own Tablets—the ideal laxative for little ones. Concerning them Mrs. Henry Bernard, St. Emile, Que., says—"Baby's Own Tablets cured my baby of constipation and made his teething painless." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CATARH CANNOT BE CURED WITH LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarh Cure is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarh Cure is what produces such wonderful results in catarrhal conditions. Send for testimonials free.

## The Practical Economy of Good Paint

Good paint is never an expense, but a saving. By its use you save your buildings from a steady deterioration in value.

Economy in painting demands the use of Quality Paint—Martin-Senour "100% Pure" Paint—the paint that protects and preserves.

The use of cheap materials is a waste of money—a waste of time.

# MARTIN-SENOUR

## "100% PURE" PAINT

wears longest, covers the greatest surface (900 sq. feet per gallon) and because of its even texture, takes least time and is easiest to apply. It is absolutely guaranteed—"100% Pure" White Lead, Zinc Oxide and highest quality Linseed Oil. It is admittedly the most economical paint on the market.

Take no chances. Make your investments secure by applying on your buildings, inside and out, protecting coats of Martin-Senour "100% Pure" Paint.

Ask for "Farmer's Color Set" and "Town and Country Homes". Just what you'll need in planning your painting.

## Basic Facts About Belting

AND PARTICULARLY

## Dunlop "Gibraltar RedSpecial" Frictioned-Surface Transmission Belting

### A Worthy Product

Years of careful study of the high-power belt problem have enabled Dunlop Laboratory experts to create "Gibraltar RedSpecial" Belting, the original Red Face Rubber Belting of Canada—a product worthy of the Dunlop factories and of the quarter-century record of success back of them.

### "Gibraltar RedSpecial" Virtues Are Real

Dunlop "Gibraltar RedSpecial" Belting is to-day widely used in a multitude of ways in the many varied industries in this country. It owes its success, not to any illogical deductions or fantastic analyses, but to the simplest causes—causes so

simple that they are now, always have been, and always will be, in our opinion, the bedrock of success in belt-making—Power, Speed, Service—in actual use as well as in the test-room.

### Permanent Elasticity Means "Life" in Belting

In producing this new, this original, this master, red belt, our object has been to have the friction coat of rubber between the plies such as will retain its life indefinitely, and to have a quality of rubber

with long "fingers," and not a quality of rubber the elasticity of which has been sacrificed to obtain the so-called high-pulling test.

### That "Friction Pull"

When you are informed that such-and-such a belt has a "friction-pull" of abnormal poundage, do not imagine that you are getting a quality friction. What you have to secure in a belt is a friction full

of elasticity. There must be between the plies of duck only a certain class of rubber to give uniform strength and pliability.

### Resilient Quality Must Not Be Sacrificed To Excess of Friction Strength

To obtain high figures, such as referred to above, in belt frictions you have to take away from the elasticity of the friction; hence, there is a happy medium, and this medium we have obtained through our laboratory experts. It ensures for

you a belt, the friction of which will hold the plies together and will be sufficiently elastic in its properties to allow for the give and take necessary in rounding the pulleys.

### Universal Recognition of "Gibraltar RedSpecial"

To cite the names of users of this famous, red frictioned-surface belt would necessitate the use of much space. We have on file recommendations from almost every type of industry requiring "Gibraltar RedSpecial" Belting in widths varying from 1½" to 48". These testimonials are available for your perusal at any time.

### File The Bill

"Gibraltar RedSpecial" Belting is to be found in practically every industry in Canada, and if it is Power, Speed and Service that you want, then it is "Gibraltar RedSpecial" Frictioned-Surface Belting that you require for your work.

### The Original "Red"

"Gibraltar RedSpecial" as noted previously, is the Original Red Rubber Belt—and like most things that are original, its success is of the kind that endures.
