THE HERALD.
FREDERICTON, AUGUST 31, 1895.

THE MAJORITY REDUCED.

Mr. Powell won the election in Westmorland by a majority of 764, and our Tory friends profess to be satisfied with the result. Mr. Wood's majority in the last election was 2,148 or nearly 1,400 less than Mr. Powell's on Saturday last, so it will be seen that the Government are thankful for very small mercies. The Liberals have no reason to complain of the good work they were able to do in a very short campaign. They scarcely expected to win, but they went into the contest with the determination to cut down the Tory majority to such a figure that when the general election is held it can be wiped out altogether. This they accomplished in a way that sends a feeling of grave alarm throughout the Government ranks.

The Liberals in Saturday's contest had absolutely no funds to meet the Tory flood of bribery. They ran a pure election, while their opponents at every poll were well fixed. But notwithstanding their money—notwithstanding the nearly 500 railway votes which went solid for Mr. Powell; in spite of the almost unanimous vote of the French—who were pulled in on the remedial legislation—Mr. Powell's majority is 1,400 less than it was in 1891.

The total vote by parishes at the election on Saturday, as compared with the previous election, was as follows:—

	1891.	1895.
Powell	3,585	3,585
Wood	2,188	2,188
Moncton city	721	453
Moncton parish	369	278
Sackville	224	377
Shediac	682	420
Bathurst	380	361
Westmorland	244	232
Sackville	380	361
Westchester	500	407
	3,585	3,585

Shediac is a strong French parish and it will be observed that Mr. Powell's vote there was over 300 above Mr. Wood's, who ran his election before the school question was an issue.

A few more "victories" like that of Saturday and the Tories are under. They could have chosen no more favorable constituency than Westmorland. Taking into consideration the immense majority of 2,148 to overcome, the railway influence, and the French vote which numbers about one third the electorate, not to speak of the big bribery fund against them, and we think the Liberals put up a wonderful fight with very satisfactory results. Mr. Powell may never see the inside of the Parliament buildings before he is again called to face the constituency, and in the general contest he will stand a very poor show.

NO LONGER LIBERAL.

Some of our contemporaries make the mistake of quoting the Fredericton *Gleaner* as a Liberal newspaper, and we believe there are a few people even in this county who still think that paper speaks for the Liberal party. They should not be deceived any longer. The *Gleaner*, while it was once the Liberal organ in this constituency, is now a straight Tory sheet, ready to apologize for every act of the Tory government. It has indeed long ago gone over body and bones to the Tory party, and is directly under the control of the Tory wirepullers. The *Gleaner's* conversion dates from about the time Mr. Gibson took his political tumble into the Tory ranks. We do not suppose very many people are influenced by our contemporary's political "opinions," and hence its sudden turn is not regarded seriously by either party. However, we have thought it advisable to place any uninformed person on his guard against accepting anything that paper may say in anywise representing the Liberals, who have been betrayed and sold out by their former organ.

PROPOSED SHOE FACTORY.

O. H. Hart, a former Frederictonian, now living at Tarrytown, N. Y., has been in the city recently talking up the establishment of a shoe factory in this city. Mr. Hart is a practical man, and is willing to take stock to the extent of \$10,000 in the proposed factory, removing to Fredericton the plant which he controls in his present home. Some of the business men have met Mr. Hart at the Board of Trade meeting, and were so favorably impressed with his proposition that they have requested him to prepare a prospectus of the enterprise, and when that is done it is possible that a stock list will be opened and the matter pushed forward to a practical result. Mr. Hart is very enthusiastic in the matter, and if he can show, as he claims he can, that such an establishment would pay in Fredericton, no doubt our money men would furnish him with all the backing required. He proposes that the capital stock of the company shall be placed at \$50,000.

A SETTLEMENT PROBABLE.

It is just possible that a compromise of the Manitoba school question may yet be effected, and that the troublesome and ungrateful issue may not be an element in the general election. Despatches emanating from a Liberal source at Winnipeg, say that strenuous efforts are being made by parties representing the Ottawa government and Roman Catholic minority of Manitoba to come to terms with the Manitoba government. These parties assert positively that a conference between the federal and the provincial premiers will be held in Winnipeg in the course of a few weeks, when a basis of settlement will be arrived at.

The despatches add that the public is inclined to believe there is something in these statements because of the delay of the Manitoba government in taking up the question.

THE COST OF EDUCATION.

George Johnson, the Dominion statistician at Ottawa, has been investigating the cost of education in the various provinces of Canada between the years 1888 and 1893, and his figures show that Manitoba expended proportionately more for public schools than any other province in the Dominion. Between these dates Ontario's expenditure upon public schools has remained stationary at \$1.87 per head of the population. In Quebec it has increased from \$1.31 to \$1.87. In Nova Scotia it has fallen from \$1.51 to \$1.45. In New Brunswick the expenditure in the year 1888 was \$1.26 per head, and in 1893 it had increased to \$1.31. In Prince Edward Island it rose from \$1.57 to \$2.02. British Columbia increased her educational expenditure in the same period from \$1.40 to \$1.57. In connection with the latter figures it is to be borne in mind that there is no public assessment for education in the Pacific province.

Taking the average of all the provinces it shows that the people of the Dominion are now paying at the rate of \$1.56 per head of population for the purpose of public schools, an increase of 6 cents in the per capita expenditure since 1888. It appears also that Ontario spends 7 per cent of the total provincial revenue in government grants to schools, Quebec spends 4 per cent, Nova Scotia 23 per cent, New Brunswick 23 per cent, while in Prince Edward Island the grant to education is 54 per cent, or more than half of the total revenue of the province.

The statistician has also made a comparison of the proportion of educational expenditure which the government and the people provided respectively. Thus he finds that in the Province of Ontario 93 per cent of the total expenditure on public education is paid directly by the people, 7 per cent only being contributed by grants from the provincial exchequer. In Quebec the proportion is 87 per cent by the people to 13 per cent by the province. In Nova Scotia the people pay 76 per cent, and the province the remaining 24 per cent. In New Brunswick the proportion is 60 per cent, and 40 per cent by the people and the government respectively. The people of Manitoba pay directly in school taxes 31 per cent, only of the cost of public schools, the government contributing the remaining 70 per cent, and in Prince Edward Island the proportion is very much the same, viz., 25 per cent by the people, and 77 per cent by provincial grant.

A section of the Conservative party during the past few days have been making strenuous exertions to bring about the nomination of Herman Pitts for the House of Commons, but some of the stalwarts decline to swallow the meat prepared for them. It is now no longer a party secret that Mr. Foster is to be unopposed. The Tories discuss the matter openly and it is understood that the Finance Minister has been officially notified of the determined kick in the house of his supposed friends. However, no new nomination will be received by the party without the approval of Mr. Gibson, and it may be that Mr. Pitts is as objectionable to him as to the machine workers in the city.

Hon. Mr. Laurier addressed a political meeting at Dalhousie Monday evening and was given a very cordial reception by the Liberals of Redoubt.

There has been during the season, several persons tramping through the county, who aspire to the dignity of dental surgeons and an immense imaginary fortune booms up before them. One of those individuals from the city of Woodstock received a violent shock, rudely dispelling his happy dreams, by the action of the dental council, and being badly frightened, rushed for legal advice to the law firm occupying the "disputed territory" in our village, when, after a lengthy interview, he carried his "jewels" to the Celestial. It is to be hoped that his friend Mr. —, the noted barister, placed before him his "true position, and has returned to his native city a "wiser man."

LAURIER AT DALHOUSIE.

Enthusiastic Demonstration in his honor.

The Liberal demonstration at Dalhousie, Restigouche County, Monday evening in honor of the visit of Hon. Wilfrid Laurier was a great success. During the day the town had been decorated with flags, and an arch with the motto "Welcome, Laurier," had been erected over the entrance of the Court House grounds, where the meeting had been announced to be held.

On the arrival of the steamer Admiral Mr. Laurier, who was accompanied by his wife, was met at the wharf by a delegation representing the Liberal organization of the county, and was driven in an open carriage through the principal streets of the town.

Long before eight o'clock, the hour for which the public meeting was held, the Court House was packed to the doors. The audience included a large number of ladies, for whom seats had been reserved on the platform. Mr. Laurier upon his entrance was received with hearty cheers.

The chair was taken by Geo. Haddow, ex-M.P., president of the Restigouche Liberal Association. Mr. Haddow opened the meeting in a few well chosen words, and called upon J. C. Barberie to read an address of welcome which had been prepared.

Mr. Laurier, in replying, began by expressing his gratification at the somewhat unexpected opportunity which had been afforded him of addressing a Restigouche audience. He made a happy reference to the Westmorland election just held, in which the Conservative majority in the election had been reduced to one-third.

He showed that anything like a similar reduction in other constituencies in case of a general election would place the Conservative party in a hopeless minority. Mr. Laurier then entered upon a statement of the principles of the Liberal party. He declared boldly for a tariff whose aim and effect should be the raising of a revenue for the country's needs, and not for the protection of selected industries and the fostering of monopolies.

He showed the injurious effects of the present system by a detailed reference to the iron duties.

He also declared that if the Liberal party attained to power they would make an honest effort to obtain a treaty of reciprocity with the United States, including, if necessary, not only natural products, but a list of manufactured articles. He also showed what enormous benefit this would be to those engaged in such industries as farming, fishing and lumbering.

Before closing, Mr. Laurier referred to the Manitoba school question, pointing out the general lines upon which such a problem must be solved—not by an evasion of political responsibility, but by an impartial enquiry into the facts, and a consideration of the merits of the case upon which the minority base their appeal; such enquiry to be followed by action, not prompted by the desire to conciliate any race or creed, but based upon the principles of justice which would commend themselves to all.

At the close of Mr. Laurier's address, a hearty vote of thanks was passed, and the meeting closed amid great enthusiasm, with cheers for Mr. Laurier and the Queen.

AND NOW IT IS SAID

That Parliament will meet in November followed by early D. solution.

There is good reason to believe that Parliament will be called together some time between the middle of November and the middle of December. As all the government supporters not looking for offices would have nothing more to expect from the government which cannot promise a seventh session and cannot promise anything with the certainty of carrying it out, the government realized that the session may be closed by a forced dissolution, and are therefore making active preparations for a general election. Some think that the government may seek to take their opponents by surprise early in the session by advising dissolution before the natural end of the session. The situation is so critical before the various Liberal Associations throughout Canada should prepare at once a programme of activity for this fall, so that the issue before the electors may be discussed and fully understood. Calm discussion and reflection is most impossible after the writs are issued, and public opinion is much more easily formed now than during the excitement of a campaign. The Conservatives are active. The present intention is to conduct a campaign in Manitoba, the Northwest and British Columbia by late autumn, if not earlier. The Conservatives have been campaigning in Cape Breton with the aid of two ministers. The Conservative whip, Mr. Geo. Taylor, has called a meeting at Athol in his interest, at which the Controller of Customs is to be present. The government cannot touch Quebec until after the session, and they rely upon touching it away from Mr. Laurier by remedial legislation, but all their influence is being exerted privately to prepare for an election.

Methodist District Meeting.

On the 27th at Gagetown, in the Methodist church, the ministers and laymen of the Fredericton district, assembled at 2 p. m., began the annual conference of the district. Dr. Brecken, president, in the evening, the church was filled with an attentive audience to attend the public meeting in the interest of the sustentation fund. Dr. Brecken again presided, and prayer was offered by Rev. W. S. Lodge. Addresses were made by Rev. Messrs. Bell and Sellers. The singing by the choir was excellent, and the collection was a very liberal one.

A session was opened again on the 28th, and arrangements were made for holding missions in the district during the summer. The friends of Gagetown made the visiting clergy and laymen heartily welcome at their homes, and all who have visited Gagetown, know how they can do it.

The Knights Templar parade at Boston Tuesday was participated in by 25,000 handsomely uniformed members, and there were over 100,000 in the procession. It was the biggest thing of the kind ever seen in that city which was literally packed with visitors.

It is rumored that the Marquis of Salisbury has determined upon decisive action in respect to China, and that a British fleet will occupy one or two Chinese ports and perhaps land marines in order to enforce Great Britain's demands in connection with the investigation of the recent massacres.

The coroner's jury investigating the death of Mrs. Reynolds and her three children at Mansfield, Eng., on August 11, have returned a verdict of wilful murder against Henry Wright, a lodger in the Reynolds house. Wright stabbed the woman and the three children, and attempted to commit suicide.

A peculiar triple wedding occurred in Pike county, Kentucky, the other day. The contracting parties were Levi Thornberry, eighty-one years of age, this being the sixth marriage of the Rev. Samuel Ray, sixty-seven years of age, to Miss Martha Love, aged sixty years, and Trimble Leslie, twenty years of age, to Emma Weddington, fourteen years of age.

At St. John's, Newfoundland, Tuesday, the Commercial Bank trustees issued notices to all the shareholders asking them to pay up the amount of the shares held by them. The move, though half expected, comes like a thunderbolt on those who have already lost their shares, and if the matter is pushed, hundreds, principally of the middle class, will be pecuniarily ruined.

John S. Leighton, jr., deputy registrar, of Carleton, met with a serious accident Thursday at Woodstock. When driving on King street towards Main his horse took fright and became unmanageable. The carriage wheel struck the sidewalk and Mr. Leighton was thrown out on the street with considerable violence, cutting his head, badly bruising his shoulder and injuring him internally.

It is stated that Hon. J. C. Patterson, late Minister of Militia, will be sworn in as Lieutenant Governor of Manitoba on Monday, to succeed Sir John Schultz. This will open West Huron, where Mr. Patterson was elected over M. C. Cameron. It is understood that the vacancy in the cabinet, caused by the resignation of Hon. A. R. Angus, will shortly be filled by a representative of the province of Quebec.

The committee of the English Church Union recently started church circles by declaring that civil marriages were an offence against church discipline. Parties who had incurred censure by entering into such marriages, ought, according to the committee, to have been expelled from being admitted to communion. The further ceremonies of the ring and the joining of hands ought to occur and the benediction be given.

The Chatham Advance reports another case of bigamy, this time from Nelson. Mrs. Carrigan, wife of Alex. Carrigan, engineer of Flett's mill at that place, on Friday, the 16th inst., presented her husband with two girls and a boy, and all were doing well at last accounts. Mr. and Mrs. Carrigan, who have been married thirteen years, have now a family of eleven children, five being the result of two concubines.

A serious attempt has been made upon the life of Baron Alphonse de Rothschild. A large and heavy envelope was received at the bank, Paris, Saturday, addressed to the Baron, and opened by the confidential clerk. Just as the clerk took the envelope it exploded with great force, tearing his right eye out and blowing off some of his fingers. The police officers expressed the opinion that the envelope was intended to explode with an infernal machine.

Miss Abbie Mills was robbed of her pocket book while kneeling at the altar rail in the holiness meeting at the Tabernacle, Ocean Grove, Thursday evening. Miss Mills felt something tugging lightly at her skirt. Being in an attitude of prayer she did not look around. When the meeting was dismissed she missed her pocket book, containing several bank notes, and she believes she was robbed while praying. This is the third robbery that has been committed at the holiness meetings this week.

A peculiar accident occurred Wednesday evening on the Colorado Midland, between Laidville and Granite. The California express coming west was struck by a huge rock that was rolling down the mountain side, completely wrecking the baggage car and one end of the smoker. Only three persons were caught in the wrecked car, and one, F. J. O'Connor of New York died of his injuries, and two persons whose names were not learned, were dangerously, if not fatally, injured. Had the rock, which weighed at least 100 tons, struck the sleeper the loss of life must have been terrible, as every berth was occupied.

In Stewart at A. Geo. Kitchen, Judge Barker Wednesday granted an injunction order staying all proceedings until 1st October, and ordering plaintiff to pay \$1,000 into court, further order to be made at the Fredericton sittings in October. The defendant claims that plaintiff is indebted to him for services rendered in connection with the Tobique Railway Co., and that he agreed to allow defendant on account of the mortgage. The mortgagee promises to be advertised for sale, hence the present application. Wednesday night Mr. Kitchen was served with an injunction forbidding the sale, but an agreement was subsequently reached and the property was bid in Thursday morning for Mr. Stewart at \$20,000.
