Los Angeles, Cal., July 12.-Tweny different meetings were held here o-day by the delegates to the 26th umbus, Ohio, National Superintendent of the Temperance and the Christian Citizenship Divisions of the United Society of Christian Endeavor, outlined a programme for the next two years. It is expected that his plan will be adopted on Monday, as the official policy of the organization.

The feature of Dr. Poling's plan was the work to be done in the campaign, which has for its object. "A saloonless United States by 1920." Ultimately he hoped there would be federal constitutional amendments prohibiting the manufacture and sale of fiquor.

He declared Christian Endeavor aders were not satisfied with the ohibition bill introduced in conprohibition bill introduced in congress by Representative Hobson of Alabama, because of "loop holes" in it. The Hobson measure, he said, "seeks to prohibit the manufacture of intoxicating liquors for use as a beverage, but this does not go far enough. It should provide against the importation or exportation of liquor."

Rev. Chas. Sheldon, of Topeka, Kas., presided at another meeting, where organized civil action, business methods as a part of society, the rela-

## a Question.

In days gone by the "Wheel of Fortune" played a prominent part in fun making at the Regatta. It was a those whose tickets were blank. Tucker regrets that the Wheel of Fortune is
a thing of the past at the Races, because by abolishing it we play the
part of hypocrits from start to finish.
If the Lottery Law aimed at making
our people sanctimonous as far as
gambling is concerned, it should
reach its arms out far enough to
grasp the high toned individual who
won't take a ticket on a five cent lottery, but will gamble in other games
and yet be allowed to go scott free.
Tucker says the Lottery Act as it is
enforced in this country is nothing
short of a complete humbug, a fizzle
and farce. Here we see thousands of
dollars being gambled on Races, dollars being gambled on Races money exchanging hands on all sides money exchanging hands on all sides, and yet we have to leave the Wheel of Fortune silent, and the amusement it gave behind, simply because we want to pretend that we are upholding the Law. Such silliness instead of reaching the object aimed at, only tends to make the Lottery Law appear ridiculous in the eyes of the Common ridiculous feeling within him that we have one law for the rich and another for men like Tucker, who enjoyed a little sport on Regatta Day in taking a ticket on the rickety wheel and hauling in his dollar and fifty when his number stopped on the left hand side of the piece of wire hoop at the top of the dial

Tucker says we're not going to do much good by this kind of a game, and the sooner we get back to the old-time sports at Regattas the more enin the games prohibited by the Lot-tery Law was, in Tucker's opinion, never intended. He may be wrong in this contention as he never read much this contention as he never read much law, but he believes that when the Lottery Bill was passed some one told the man whe used to run the Wheel of Fortune at the Races that it had to be cut out or he'd run the risk of getting six months twice a year, refrained from carrying down his wheel, and from that time till now the wheel has been conspicuous by its

Tucker would feel obliged if som of our lawyers would please arise and give us their views on this matter give us their views on this matter.

If 'tis wrong to run a five cent 'Wheel at the Races, then we bow our heads and take our medicine, but if it isn't then please inform us while there is yet time to hunt up the old paste board tickets on which are the familiar names of Juno, Bess, Nell
