

4,000,000 PEOPLE

Annually use organic Nuxated Iron to build up red blood, strength and endurance.

There are thousands of people who are aging and breaking down at a time of life when they should be enjoying that perfect health which carries them to the end of their days. Without organic iron your blood carries no oxygen, and without oxygen there is nothing to mix with the carbon in your food to make you feel as good as you do. It is like putting coal into a stove without fire. You can now obtain organic iron like the iron in your blood and like the iron in spinach, lentils, and apples from any drugist under the name of Nuxated Iron. Nuxated Iron also contains the principal chemical constituent of active, living nerve force. It is, therefore, a new blood and nerve food. It helps create and rebuild new and stronger red blood cells. It gives the body the substance which nerve force needs to power which is stored in the nerve and brain cells of man. Nuxated Iron gives the strength and endurance of weak, nervous, rundown men and women in two weeks time. The manufacturers guarantee successful results to every purchaser or they will refund your money.

Craig and Collins Will Keep Faith.

Ulster Will Carry on Her Own Government—Military Control in Ireland Nearing a Close—Monarchist German Press Acknowledges Ex-Kaiser.

THE IRISH AGREEMENT.

BELFAST, Jan. 27. Sir James Craig, speaking at the Ulster Council Luncheon to-day, said he and Michael Collins had been faithful to the agreements reached concerning the Ulster question, the lifting of the Ulster question, and other matters of negotiations. He said it had been his standpoint because he could not agree to any reduction of a separate area of Ulster from that under the Act of 1920. When he heard the discussion he had no idea of anything, but at the conference he had arrived at a specific agreement. He said he was not at all surprised to find that the conference had arrived at a useful understanding. The agreement was that there would be no disturbance of people who wished to remain in Ulster or of those who wished to leave from the flag of Ulster into the State. In making his first public statement regarding his conference with Collins, Sir James said, the understanding reached seemed to be a bargain which will close difficult. Sir James Craig said he had been fully with Collins questions to the foundation of the future. He said to Collins "can we have some agreement not favorable to us and not favorable to them, but will allow the horrors of the past to be down the people, try to eliminate the best element throughout the of Ireland, and then leave the

road open in some future time for Ulster people to choose whether they will come into your Free State or not? It is for you to decide on coercion, on maintaining war or irritation, don't let me interfere, but let me know what we have got to do. Can we do something between us to prevent a recurrence of the disorders and scandals that have been committed in the name of liberty in the past?" Alluding to the agreement Ulster Premier said, "I think for the credit of our land we were able to put our name to a document which contains the admission that the Free State is a separate entity, with a head with whom we can at all events confer. Level headed men should rally to that Government, which is at all events endeavoring to restore order and state of separation and a Republic, which is the party cry of the other side. We satisfied each other that it is far better that the two controlling interests should meet to work out a boundary which will be agreeable to those living on the boundary, rather than have an artificial line which may leave constant irritation and a great deal of the trouble with which we have been afflicted in the past. The abolition of the boycott is proof of Collins' sincere desire to carry out his part of the agreement."

STILL RECOGNIZE WILHELM.

BERLIN, Jan. 27. William Hohenzollern is still German Emperor and King of Prussia, Monarchist papers declared to-day, the occasion being his 63rd birthday. The Kreuss Zeitung says, William was forced to renounce his throne by traitors and false advisers. The Deutsche Zeitung says there ought to be some consolation that the "Martyr of Doornik" knows that the blow which fell upon him was aimed by an enemy league at the whole German people. Another paper says the Republican Government brings nearer every day the necessity for the Monarchy.

ITALIAN NOVELIST DEAD.

ROME, Jan. 27. Giovanni Verga, noted Italian novelist and poet, died here this morning, aged eighty-two. One of his best known works was Cavalleria Rusticana from which Mascagni's opera was adapted.

TURNED THE CORNER.

LONDON, Jan. 27. Worst troubles are over, manufacturers and wholesale traders having already faced and realized their worst losses, said Sir Neville Goschen, chairman of the National Provincial Bank, at the annual meeting to-day. Sir Neville is utterly opposed to permanent reduced value of the sovereign.

NEARING THE END OF MILITARY CONTROL.

BELFAST, Jan. 27. The last trace of military control in Ireland is expected to disappear next Monday when the curfew will be raised in Belfast. The disbandment of the Black and Tans also will begin next week. According to press reports in Dublin the British Government will hand over to the Irish Free State one thousand motor vehicles which had been in Government use in Ireland.

PREPARING FOR ANOTHER CONFERENCE.

WASHINGTON, Jan. 27. The ground work for another International Conference to rewrite the laws of war for submarine and other agents of attack by land and sea was completed to-day by the Arms Conference delegates. The United States Government will select the time and place of meeting of the next Conference.

His Rheumatism Gone, He Rejoices.

MR. MIKE KARAIM PRAISES DODD'S KIDNEY PILLS.

Saskatchewan Man Who Suffered For Two Years Gives the Reason Why He Recommends Dodd's Kidney Pills.

Stoney Lake, Sask., Jan. 27th, (Special)—"I suffered from rheumatism but I am glad to tell you I am well again." In these words Mr. Mike Karaim, a respected resident of this place gives the reason why he recommends Dodd's Kidney Pills to all his friends.

"I spent a lot of money on other medicines before I tried Dodd's Kidney Pills," Mr. Karaim continued, "I only used two boxes of them and now I feel fine."

Rheumatism is caused by Uric Acid in the blood. The natural way to treat it is to strengthen the kidneys so they will do their full work and strain all the uric acid out of the blood.

Dodd's Kidney Pills make strong healthy kidneys. Dodd's Kidney Pills have been in use in Canada for more than a quarter of a century. They have grown in popularity year by year because of the work they have done.

Ask your neighbors about Dodd's Kidney Pills.

Couldn't Stay Away.

A grocer had a lot of cheese which was anything but good. Tired of seeing the stuff about, he told his assistant to leave one of the condemned cheeses at the door for someone to walk off with.

Thomas crept to a window to watch results, and at length went to his master, grinning all over his face, and announced that the cheese was gone.

"Leave another out to-morrow night," was the master's order, which was obeyed by the shopman, who, after a few peeps next evening, went to his master, scratching his head and looking as though some great disappointment had befallen him.

"Has it gone?" asked the dealer.

"No, sir; they've brought back the other."

Extraordinary Attraction at The Nickel To-Day.

RUTH CHASE, Soprano.

Late Prima Donna with the Aborn English Opera Co., at the Century Theatre, New York. Sings (a) "Giannina Mia" from the Firefly; (b) "Sometime" from Sometime.

GEORGE DALE, Tenor,

Sings (a) "Smile Thru' Your Tears", Hamblon; (b) "Nora", Pigott.

"Mr. Dale has the art of bringing each thought of poet and composer to the mind of the listener. His exquisite tenor is appealing in its mezzo tints, forceful in the robust passages, and always convincing. In the lighter passages a technique near faultless develops each theme with an intelligence that is compelling."

"The two Operatic Arias, Celeste Aida and Rudolphs Aria, from Boheme, were sung with that abandon which evidenced the strong dramatic talent possessed by this splendid singer."—George Hoyt Smith (F T U)

"George Dale, the young American tenor, is doing splendid work at the Brick Presbyterian Church, Fifth Avenue. His is a big, finely cultured voice, which he pours forth with such feeling that it has often been said, 'No sermon need be preached when Mr. Dale sings.'—New York Opera News.

"Mr. Dale sings as easily as most people talk; his enunciation is so clear that even the whimsical suggestions in a tiny encore brought forth smiles with the enthusiastic endorsement of the musical skit."

"In the Aria from Aida Mr. Dale was splendid demonstrating a dramatic power and big resonant vocal power that would unquestionably be even more effective in the environment which the great Verdi planned for it."—Florida Times-Union.

"An unusually lovely voice—the most beautiful diction I have ever heard and a great histrionic ability which gives an exceptional individuality to his interpretations. Altogether a most satisfactory and delightful artist."—Bertha M. Foster, Director School of Musical Art, Jacksonville, Florida.

NOTE:--Artistes will sing each afternoon at 4 o'clock.

A Daring Project.

Glasgow Professor's Expedition.

The important scientific expedition into the heart of China which

Professor J. W. Gregory, of Glasgow University, contemplates on his own initiative, will start out from this country in March. The Professor, who will be accompanied by his son Christopher, expects to be home again in October. Father and son will be the only whites in the party; they will trust to their Chinese escort mainly for protection.

Theirs is a bold undertaking, for the area to be explored is little known, and danger is anticipated from brigands.

Glasgow University is to get the geological collections, the zoological and "botanical" specimens will be given mainly to London's Natural History Museum.

Professor Gregory, whose specialty is geology, has already gained distinction as a daring explorer, has visited various parts of Africa and Australia, and was with Sir Martin Conway's expedition across Spitzbergen in 1896.
