Obituary.

MRS. MARK PIKE.
The passing of Mrs. Mark Pike after a brief illness, a life of kindness in the circle in which she moved, and of trust devotion to her children, has entered into the rest and reward. It is less than a week ago she entered the General Hospital, and the consulting physician found it to be a serious case, which experienced skill and careful oversight could not avert and death supervened. She was naturally of a retiring disposition, she was singularly self-forgetful in spirit. Her sympathies went out to every cause, and her hand was ready to help the needy suffering. In the Woman's Missionary Society, and Epworth League, she was the Vice-President, and a valued and willing worker in the Church. Her home was her special sphere of service, a faithful wife, a devoted mother, a generous neighbour. She mourn their keen and unrelenting sorrowing husband, Kenneth, an accountant at Reid N.B. so well known for her ability, and Lillian her mother-in-law, besides many relatives and friends. Freshwater and Carbonar we tender our condolence in bereavement.—A.W.M.

The B. I. S. Outing.

On Thursday next the B.I.S. begins the first of their week by outings to Donovan's, and during the summer months these enjoyable occasions promise to become the most popular of our entertainments. This year no effort is being spared, and the comfort of all attending will be well looked after by the energetic Committee in charge. A especially pleasing feature will be the appearance of the B.I.S. Orchestra again, whose playing was so much appreciated last year, and who will be strengthened this summer by the presence of Messrs. Bows and Wellington of the well-known Majestic Orchestra. Special music is being prepared and in addition all the latest pieces will be rendered. The outings will be chaperoned by the Executive of the B.I.S. Ladies Auxiliary, while the catering will be looked after by Mrs. Hughes, the "perfect hostess." A private train will be in attendance, and on Thursday evening next the gay crowd will pull out of the station at 7:30 p.m.

The kitchen should have white walls and woodwork, so that the "dirt will show" and consequently be frequently cleaned.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freesone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freesone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Our Local News

HIS DIARY.

June 23rd.—By the public despatches comes news that two riflemen did pistol Field Marshal Sir Henry Wilson in London, and he now died from his wounds. A sad thing, being that he was a fine man, but mistaken in many of his opinions. I to the Board of Trade, where I learn how the Railway agreement is not yet signed by the Cabal, and Mr. Morgan will play at golf till it is done. I play at tennis in the afternoon, but the weather very hot, and I did soon weary of it. My wife does again nag at me about some new dresses for the summer, but I am determined she will not have them, and will hold out against her this time. I meet Sir Patrick McGrath and he tells me how, if I shall wait on him tomorrow, he will have news for me.

Report of the Chief Agent of the S. P. A.

Week Ending Saturday, June 24th. Called on Sunday afternoon to humbly destroy a valuable horse for a resident of George Street. The animal was suffering from internal trouble.

Attended to the landing of fourteen head of cattle. Saw them watered and taken away immediately after being landed. Destroyed a dog in the West End which had been run over by an express. Interviewed some persons on Mundy Pond Road and Cashin Avenue about their ponies being placed in fields where there was practically no grass, and they promised to give them some hay and feed. Attended to a dog which had been run over by a motor car on Duckworth Street. The animal's wound was kindly bound up by Mr. Augustus Stafford. Another dog on Cornwall Avenue was run over by a motor car. I had the animal brought home and attended by a Veterinary Surgeon. The dog's owner was the Rev. Mr. Holden of the Congregational Church, who kindly gave me a subscription to the Society. Received word of a lot of cattle on pasture near Quidi Vidi, stating there was no grass there. I investigated and found report was not correct. I would be glad to receive any complaints from the public in reference to any animals suffering or being ill-treated, by phone to No. 653, when they will receive prompt attention.

Lord Morris En Route.

LEAVING GLASGOW TO-DAY.
Judge Morris of the Central District Court informs us that his brother, Lord Morris is leaving Glasgow to-day on the Red Cross Steamship Sylvia and is due to arrive in St. John's on or about 8th Proximo. This information was contained in a cable received by Judge Morris this morning and is, consequently, authentic.

Artificial Pond.

Editor Evening Telegram.
Dear Sir, When the evenings are fine, about fifty gentlemen meet in Bannerman Park, to discuss the topics of the day. Occasionally I stroll along and join their merry company. Last night I was present when the question of an Artificial Pond for children was discussed, this pond to be used for children paddling in its clean cold water or sailing little boats, and to be used for skating in the winter. Bannerman Park is ideal for an artificial pond—plenty of clean pure water and sewerage. The length and breadth is only a matter of opinion; the depth need not be more than from 12 inches to 24 inches deep. The cost would not be great, but the blessings would be many.
Yours truly,
ONE OF THE GROUP.
June 24, 1922.

Bishop Spencer College.

Spencer College closes to-day for the mid-summer vacation. During the year the pupils raised some eight hundred dollars for various funds,—four hundred goes to the College and is earmarked for the nucleus of a school-ship tenable at one of the Women's Colleges at Oxford or Cambridge. Miss Richards is keen on trying to arrange a scholarship for one of the Spencer College girls to finish their studies with a three year course in one of the best institutions in the world. If finalised the winner will be the girl who has attended Spencer College for three years consecutively and gained the highest marks in the junior associate examinations.

The college contributed one hundred and ten dollars to the National War Memorial,—a most creditable donation,—as well as twenty dollars to Missions. Another amount was contributed to Princess Mary's wedding present and other sums to Dr. Barnado's Home, Games Fund and College Magazine. Spencer Club whose members are mostly old pupils of the school have contributed about seven hundred dollars towards Felid and Spencer Colleges for the year. The College year terminates with some 366 pupils on the roll. We regret that Miss A. Richards, B.A., the Principal has resigned, on account of having accepted a more lucrative post as Head of the Rupertsland Ladies' College day school in Winnipeg. She goes to New York and returns to England before taking up her new duties in Canada. Miss Weatherhead, B.A., Vice-Principal, is also going to Toronto on the staff of Haverall College, whilst Miss Reith also transfers to "Haverall on the Hill" School, Toronto. These teachers have all done splendid work and the directors and pupils are sorry they are leaving. The new Principal will be Miss V.M. Cherrington who comes from Haverall, Toronto, with very highest testimonials. The new principal will appoint two new members of her staff abroad. Miss Hilda Norman has also resigned and her place has been filled by Miss Edith House.

Spencer College First Aid Class has recently been examined by Doctor Cluny Macpherson, C.M.G., with the following results—Seniors obtaining 1st class certificates—1st. Nancy Frost and Helen Thompson equal with 93 per cent; (2) Grace Watson, 90 per cent; Juniors in following order of merit:—Florence Gardner, Rita Butler, Rosie Goldstone, Margaret Wood, Muriel Butler, Dorothy Snow. We congratulate these girls on their excellent examination marks. The staff wishes to thank those friends of Spencer College who generously gave books to the new Library and would welcome further gifts of suitable volumes for the pupils.

Personal.

We are informed that Rev. E. W. Forbes, Pastor of Gower Street Methodist Church, who has been transferred to the Nova Scotia Conference, will be stationed at Guysboro, N.S.

Mr. T. J. Battock, formerly of Brigus will replace Mr. L. Sutherland as local manager for the Singer Sewing Machine Company. Mr. Sutherland has been transferred to Canada.

Madre Nangle and his secretary, Mr. J. Murphy, will leave for England on the Digby, on business connected with the War Graves Commission.

Uses of Old Newspapers

Old newspapers are excellent for polishing mirrors, windows, and tiles, ranges, both before and after black-leading, and the outsides of enamelled pots and pans. Stuff wet boots and shoes with them, and they will absorb the damp and help to keep the article in shape. A piece of newspaper wrapped tightly round a burned wrist or finger relieves the pain at once. Wipe greasy plates and dishes with them, and use as firelighters. A kettle of boiling water wrapped up well in newspapers all night will be warm enough for toilet purposes in the morning.
