PROOFS OF THE SUPERIOR QUALITY

AMERICAN WATCH

WALTHAM, MASS.

Referring to their advertisement in a previous issue of this paper, the American Watch Company, of Waltham, Mass., respectfully submit that their watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market.

They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts.

How they run under the hardest trial watches can have, is shown by the following letters:

The rates of Premiums, based on long experience, will be found moderate. The Company not being controlled by any arbitrary fixed tariff of rates, treats each case according to the risk and class of hazard.

PENN. RAILROAD COMPANY.

Office of the General Superintendent,
Allentown, Pa., 15th Dec., 1866.

GENTLEMEN—The watches manufactured by you have been in use on this railroad for several years by our engineers, to whom we British watches as part of our equipment. There are now some 300 of them carried on our line, and we consider them good and reliable timekeepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn out less, than longer without repair. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service as yours. In an engine statement I have submitted by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent,
American Watch Co., Waltham.

REMOVAL,

NEW YORK CENTRAL RAILROAD.

Locomotive Department, West Division,
Rochester, Dec. 24, 1866.

GENTLEMEN—I have the honor in saying that I believe the great majority of Locomotive Engines have found by experience that Waltham Watches are the most accurate of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, as I firmly trust they will do so, and as I am in my opinion, would greatly tend to promote regularity and safety.

Yours respectfully,
CHAS. WILSON, Chief Engineer,
Brotherhood of Locomotive Engineers,
American Watch Co., Waltham, Mass.

Great Cure of Liver Complaint and Dyspepsia in Canada.

Consecon, Prince Edward Co., C.W., 1st March.

Messrs. Young & Chamberlain, Sirs—He is ingred within my own person that there is at last a medicine that will indeed cure Liver Complaint and Dyspepsia. I am afflicted with this complaint, and have tried many remedies, but in vain. I have read of your medicine, and I have tried it, and I find it to be a most valuable medicine. I have a feeling of sinking and queasiness about the stomach, worse than pain, eructations of wind, occasional pain, drowsiness, constipation, uneasiness in the right side, headache, a poor appetite, &c. and was greatly reduced in strength. Hearing of your new Indian medicine, the Great Shoshone Remedy, spoken of so highly, I tried a bottle with your Pills, from these I must say I found but little change, but I took another and then found my health improving. I continued it until I have taken about ten bottles, using the Pills, and I find that I have quite recovered, eat hearty without pain or uneasiness. I am well and have plenty of business, and I am well and have plenty of business, and I am well and have plenty of business.
