Raised by Means of Chemicals-Swindler Presented One at the Imperial Bank, and the Other at the Canadian Bank of Commerce—In Both Instances He Got the Money and Has Eluded All

Toronto, April 15.—Considerable excitement was occasioned in police circles late on Saturday night, when it became known that two Toronto to the came known that two Toronto banks has been victimized to the extent of \$5,245 by a slick individual, of whom little is known except that he went by the name of G. A. Winhe went by the name of G. A. Winton. The money was secured by means of the old but effective method of raising the cheques after they had been marked by the ledgerkeepers at the two banking institutions. The the two banking institutions. The cheques, which are now in the hands of the local police, bear evidence of having come in contact with some powerful chemicals, which it is be-lieved the man used in altering their face value. The robberies are the most extensive that have been perpetrated in Toronto for some time, and the local detectives are of the opin-ion that the man who worked the game so successfully is a clever swindler and not by any means new

Since a similar robbery has taken place in Toronto nearly 20 years have elapsed, and when the reports were received on Saturday night the detectives were surprised to learn that any person was bold enough to resort to the old method of bank

His Careful Methods.

According to the information in the possession of the police, the man struck this city last Thursday, and went at once to the head offices of the Imperial Bank at the corner of the Imperial Bank at the corner of Leader lane and Wellington street and the Bank of Commerce at Jordan and King streets, where he opened savings accounts at both places. He gave the name of G. A. Winton He gave the name of G. A. Winton at each institution, and said he had just come from St. John, N. B., to this city to manage the Ontario branch of the business of the Welland Vale Cycle Co., with offices at 70 West King street. No further ques-tions were asked of the man because he had every appearance of being all that he represented himself to be.

Deposited Small Amounts.

He turned up at the office of the Imperial Bank about 11 o'clock last Thursday morning, and after opening the account handed in ten fiveing the account handed in ten five-dollar bills, which were placed to his credit. At the Bank of Commerce the same day he deposited \$20, and on Friday handed in \$50 more, making in all \$70 to his credit at that institution. Later in the day, however, he turned up again at the Bank of Commerce and presented a cheque for \$10, which he cashed. The withdrawal of this amount the police drawal of this amount, the police say, was the first move in the game, as the man made it a point to become acquainted with the paying-teller, so that he would not be asked to be identified before receiving the cash in return for the large cheque he intended to present the following day.

At the Imperial Bank the man had but one transaction, that of the first deposit, and took the chances of having to become identified. The roberies were committed between 12 and 1 o'clock on Saturday, when the banking institutions were crowday, when the banking institutions were crowday, when the parameters of thems were ed with representatives of firms, who were arranging for the payment of their employes.
The bank officials were so engrossed with the work that they did not notice anything wrong, and paid the amount of the cheques in the usual way. The man is believed to have visited the Imperial Bank first about 11 o'clock, and then returned with the raised cheque a little after the noon hour. The man presented a cheque for \$10 to the ledgersented a cheque for \$10 to the ledger-keeper, and had it duly certified. When this was accomplished, it is believed he went out to some place where he would not be seen, and with the use of two kinds of chemiwith the use of two kinds of chemi-cals rubbed out the amount ten dol-lars, and inserted two thousand, four hundred and fifty-five dollars. This done, he returned to the bank and handed it to the paying teller, who gave him the amount of the cheque. The amount was made up of 24 \$100 bills, one \$50 and one \$5 bill.

At the Bank of Commerce.

From the Imperial Bank the man From the Imperial Bank the man is believed to have gone to the Bank of Commerce, and to have written out a cheque for \$20 in full view of the ledgerkeeper of the savings department, where he had his account. The cheque was duly marked by the official and handed back to the customer. The latter then, it is said, left the institution, and returned with the cheque which a short time before called for \$20 changed to \$2,900. The cheque was in due course presented to Paying Teller Kelly, who gave in return 29 \$100 bills. The man then departed.

Disegvered Saturday Night,

Discovered Saturday Night, The robbery at the Imperial Bank was not discovered till between 7 and 8 o'clock, and it would not have been found out for several days had not the clerks been working after hours preparing for the semi-month-ly balance, which is always made on the 15th. When the fraud was found out the officials communicated the Detective Department, and Detective Black was sent down to the institution to make an investiga-

third time and passed: To incorporate the St. Lawrence Lloyds

Respecting the Manitoba and Northwest Loan Company. To incorporate the Manufacturers and Temperance and General Life Assurance Company.

An Amendment Moved.

While the last-named bill was der consideration in committee, Clarke Wallace moved an amendment the effect of which was to oblige the company to publish annually in its report "a statement of the financial account of each section of the company's business as it stands

The mover explained that two rates were given by the company one for total abstainers, and anothe for policy-holders who were not at stainers, and it was desirable the House should know to what extent the discrimination was justified. The amendment was defeated and

the bill went through as it left th Banking and Commerce Committee Manitoba Eailway Bills.

After an explanation by Mr. James Sutherland, to the effect that, by consenting to the second reading, members would not be considered to have committed themselves to principle of the measure, the t bills respecting the lease by Manitoba Government of certain r ways was read a second time and re select standing com mittee on railways.

Carillon Canal Contract.

Carillon Canal Contract.

In reply to a question by Mr. Monk, in regard to the awarding of the contract for the guide pier of the Carillon Canal, Mr. Fielding (Mr. Blair being absent through illness), said this contract had been awarded to Messrs. Martineau & Lemoine. The tenderers were: Dunault & Hague, Martineau & Lemoine. Borthwick & McNaughton, John Qullar, W. J. Poupore and J. F. Keating, the latter being the highest. The tender of Dunault & Hague was for \$21,743.80, that of Martineau & Lemoine \$21,784.12, a difference of \$40,37, "but the Department preferred that the latter should be entrusted with the work, and awarded the contract to them at the lowest tender price."

Mr. Dobell's Reasons.

He said the statement attributed the said the statement attributed to him in the report in question was substantially correct, adding: "I don't think that conscientious scruples are matters for consideration in this House."

Those Census Circulars.

Mr. Northrup also inquired as to the circulars sent out by Assistant Census Commissioner Thomas Cote Census Commissioner Thomas Cote as to the classification as "French' of persons with French names, re gardless of whether or not they spoke the language or had ever Anglicized their names.

Anglicized their names.

The reply of the Minister of Agriculture was that 1,855 of such "confidential" circulars had been sent out, 744 to Ontario, 196 to New Brunswick, 257 to Frince Edward Island and 441 to British Columbia. But, he said, instructions had also been sent to Quebec to classify the Frasers, Rosses and Pettygrews as Englisa, although they might be French speaking.

The Matter of Pensions. The Matter of Pensions.

Col. Prior, on motion to go into supply. urged the necessity of giv-

ing pensions to the managements staff and to members of the permanent militia corps. A new interest had been lent to the importance of the militia since the colonies had gone to the assistance of the Mother Country in South Africa. He, therefore, hoped that the Government would look upon the macter of pen-sions more favorably than they did in years gone by. The work ganizing the force had fallen the headquarters staff, and in this instance the staff, considering the limited time at their disposal, had

done well.
Mr. E. F. Clark-Hear, hear. Col. Prior likened the headquarters staff to the boiler of the engines of war, and urged that the importance of the service receive permenent

recognition.
Col. Prior advocated an expenditure annually of \$1 per head, instead of 40 cents, and urged that rifles should be manufactured in Canada as well as ammunition.

Col. Thompson endorsed the project of the militia pensions.

Mr. Ross of Victoria, N. S., who was Minister of Militia in the Mackenzie Administration, also favored Lieut.-Col. Hughes advised a high-

er rate of pay, in addition to a re-tiring allowance. Mr. Hyman warmly supported the proposal for an adequate allowance

to permanent corps.

Dr. Borden was pleased, he said, at the turn of the debate, as it would prepare the House for the bill he intended to introduce in a few days. He argued that it was time Canada made proper provision for her per manent force. The bill would prac-tically extend to the non-commis sioned officers and men of the force stoned officers and men of the force the system of allowance now in force as regards the Northwest Mounted Police. There would be no contribu-tion asked from the men, but officers would be required to contribute to the pension fund. But, in addition to the pension, the present reti-allowance of one-tenth of the sal-for each year of service, would continued as an annuity.

In Committee of Supply.

The House then went into committee of supply, and the estimates of the Minister of Agriculture were tak-

Ottawa, April 16.—The exposure by the Conservatives of the shameful tactics of the Liberals in Ontario regarding the census, evidently had its effect on Mr. Fisher. After the House rose this morning he and Mr. Blue got together. As a result they drafted the following circular and telegraphed it to all census commissioners in Ontario:

The statement is made here that a schedule entitled, "Male residents 16 years of age and over," has been placed in the hands of census enumerators. If such a schedule has been employed it is fraudulent, and you are required forthwith to instruct all enumerators in your census district to discontinue it under pain of dismissal from office and prosecution and punishment under the provisions of the Census Act. Any such schedules in the possession of enumerators, whether filled or not, must be destroyed and delivery of them to any tors, whether filled or not, must be destroyed and delivery of them to any person or persons, or the retention of them by enumerators, will be visited with the full penalty of the law.
