TIPS.

Just as soon as the running races closed on the Windsor track Saturday evening, a gang of men with teams were to work to get the course in readiness for the four-day fall meeting which opens on Monday, Oct. 7.

BASEBALL. BALTIMORE WON THE PENNANT.

New York, Sept. 29.—Although the championship season in this city does not come to an end until Monday, the destination of the pennant of 1895 was decided by the result of yesterday afternoon's contest between the New Yorks and Baltimores.

The Orioles won the game and the pennant in the seventh inning. Score: Baltimore 5, New York 2. The results of other National League games were:

Philadelphia, 3; Brooklyn 6. Second game—Philadelphia, 3; Brooklyn 6.

Washington, 8; Boston, 5. Louisville, 8; Cleveland, 9.

Cincinnati, 5; Chicago, 4. St. Louis, 2; Pittsburgh, 18.

At Buffalo—Exhibition game—Buffalo, 8; Detroit, 6.

SUNDAY GAMES.

Chicago, 9; Cincinnati, 1. Louisville, 12; Cleveland, 8.

Guelph, Ont., Sept. 28.—The Alerts of London, and the Maple Leafs, amateur champions of baseball here this afternoon. The weather was raw and cold. Despite this a very close game was played. Neither side won by a heavy stick work. The home team won by 3 runs to 1. This makes one game won for each team, and the deciding game will be played next Thursday at London. Score:

R. H. E.
London.....000000001-1 1 4
Leafs.....20000001-3 4 0

Batteries—Sheere and Thorpe; Wood, Bradford and Snyder.

Nashville won Saturday's game and the championship of the south, it being the decisive game in the series between the champions of the Virginia State League, representing the two southern organizations.

ATHLETICS. COMING TO CANADA.

The English athletes will leave New York for Canada on Tuesday, Oct. 1, where they will compete in the Canadian championship which are to be held Oct. 5, 6, 7. A team of eight or ten men will be sent by the New York Athletic Club, to compete in the Canadian games.

THE WHEEL. NEW RECORDS.

Two new world's records were made on

the Waltham (Mass.) Cycle track Saturday afternoon. Eddie McEliffe, of Malden, and Nat Butler, of Boston, mounted the same tandem twice in one day and pushed it faster each time than a similar wheel ever before had gone under similar conditions.

Under the first trial they went a mile in 1:51.3, beating the record a whole second, with a quadruplet setting the pace. The second attempt was for the unpaired half mile, they going in 53.4.5, beating the old world's record of O'Connor and Rhodes. Sanger's hold upon the unpaired mile record of 2:07.2.5 remains his still. Maddox, the fast Asbury Park man, tried to beat it but could not do better than 2:18.

CRICKET. ENGLISHMEN VS. ALL PHILADELPHIA.

Haverford, Pa., Sept. 28.—The English eleven were retired yesterday for 188 runs. Patterson and Bohlen went to bat for All Philadelphia, and when stumps were drawn had put together 98, with no one out.

Applause greeted Patterson and Bohlen as, at 11:05 a.m. today, they resumed their unbroken stand of last evening in which Patterson had scored 32, Bohlen 52, with 14 extras. The wicket was in splendid condition, and distinctly favored the latter. Milligan and Hartley started to bowl for the Englishmen's team.

THE ENGLISHMEN AT PHILADELPHIA. Philadelphia, Pa., Sept. 30.—A crowd of 10,000 people and a great batting exhibition by the home eleven were the features in the international match at Haverford Saturday. When play ceased Saturday evening the Philadelphia players had made 58 without the loss of a wicket, and when their last wicket went down Friday afternoon they had put together 404 runs—206 more than the Oxford-Cambridge team's first innings netted them. The Englishmen started their second inning, and when play ceased for the night they had scored 49 for two wickets.

The concluding day's play began at 11:15 today. When stumps were drawn on Saturday the Americans led by 157 runs. It is hardly probable that the Englishmen can even make enough runs to require the Americans to go to bat for their second inning. The wicket today was in fine condition. When play was resumed this morning, Hill, 20, not out, and Druce, 5, not out, faced the bowling of King and Phillips. Hill was bowled by King. Score, 61, 2, 19. Phillips followed. Phillips was caught by Wood off Bailey, who relieved King. Score, 69, 4, 3. Wilson next. Wilson was caught by Wood off Bailey. Score, 111, 5, 4. Hemmingway next, ad cricket at Philadelphia.

Druce was caught and bowled by King. Score, 124, 6, 45. He was caught by Arkwright, but the latter's stay was brief, for, after making six runs, he was bowled by King. Score, 144, 7, 6. Robinson next.

FOOTBALL.

LONDON COLLEGIATE INSTITUTE WIN.

The London Collegiate Institute football team drove to Thamesford on Saturday, and after a hard-fought and exciting game, returned home with the score of 2 goals to 0 in their favor. Mr. Horton, of the L. C. I. staff, refereed the game to the entire satisfaction of all. Mr. R. A. Gray, B.A., who played center forward, had the misfortune to come in contact with an opposing player with such violence that his knee was painfully hurt; however, a lady sympathizer did much to aid him in his distress.

The Thamesford boys play the return match in this city next Saturday, and as both teams are determined to win, an excellent game is looked forward to.

A COSTLY ESCAPEE.

James Quinn Fined \$50 for Assault—An Indian Liquor Informer Contradicted.

James Quinn, the north end man, who was last winter charged with attempting to rob Loveless' grocery store, and who buried himself in a snowdrift in an endeavor to evade arrest, had another little escapade Saturday night, which cost him dearly.

About 9:29 o'clock, Quinn, with an unknown man, was in the rear of Dean Bros.' bakery and residence on Richmond street north. A lady member of the family had occasion to go to the flour house, and seeing the two men she called out to them. They were doing. The unknown jumped a fence and left, but Quinn seized her by the throat and commenced to choke her. The appearance of the unknown frightened Quinn, and he fled his partner over the fence and down a lane. He was arrested shortly afterwards by P. C. Lucas. In the Police Court this morning, Quinn was convicted of assault, and fined \$50 or two months in jail. The fine was paid.

THE INDIAN INFORMED. Edward Patton, proprietor of Hodgson's House, Talbot street, was charged with furnishing liquor to Indians. The complaint, from all appearances, was made as a matter of spite. On Friday, Sept. 29, the last day of the Western Fair—George Fisher, an Indian from the Muncey reserve, was in the city, and stopped at Patton's hotel over night. It is said he left his room in a disorderly condition, and that damage done and the night's lodging Patton assessed him \$1. With this, Fisher made a threat to lay a complaint, charging the landlord with selling liquor to Indians, and from information which he furnished the crown, the case was prosecuted. When put on the stand, Fisher said that on Sept. 20 he was in Patton's bar with another Indian named Dan Madison, and had several drinks of beer. To Mr. Love, Fisher claimed to be only a half-breed, and denied that he was ever arrested for perjury or that an attempt was made to put him in the reserve because he was the worst Indian in the Chippewa tribe. He had blown himself pretty freely on the Friday morning in question, having great over 25, treating his friends at Patton's bar. He had no intention of informing until he was charged \$1 for his bed.

Daniel Madison, Fisher's companion, swore he had three drinks at Patton's. Patton and his bartender, George Brownlee, positively denied having sold liquor to either of the Indians, and the case was dismissed.

Fisher is of very light complexion, and could easily pass for a white man. The charge of assault against Peter Lewis was adjourned until Wednesday. The breach of bylaw charge against John McKenzie was adjourned for a week.

THE EAGLE SCREENS. Spain Has Stepped on His Tail—An Alleged Insult.

Key West, Fla., Sept. 30.—Great excitement and indignation has been occasioned here by a report that marines from the Spanish cruiser Conde de Venadito have been landed on the Florida Keys, north of here, to search for filibusters. This is considered an outrage here and a gross insult to the United States. The Keys belong to Florida, and if Spain has a right to land searching parties on the Keys, it has also a right to land marines on the mainland. The State Department in Washington will be asked to investigate and demand an apology from Spain forthwith. So much indignation has been aroused here by the report that is feared the Spanish consul will be openly insulted.

A LIBERAL ELECTED

In a Provincial Bye-Election in Nova Scotia—Increased Majority.

Halifax, N. S., Sept. 30.—Bye-elections in Digby county Saturday to fill the vacancy caused by the death of Tupper (Liberal), resulted in the return of Angus (Liberal), over Frank Jones, Conservative, by 250 majority. A considerable increase over the election there two years ago.

ROOT OF ALL EVIL.

Natives Thought Lenz's Wheel Was Silver and They Killed Him.

Pittsburg, Pa., Sept. 30.—The execution of Frank Lenz, bicyclist, who stated, while around the globe, have received affidavits which circumstantially prove his murder. It appears that he was slain by the natives of Tohekahn, who thought his wheel was made of silver, and were excited by cupidity to obtain the treasure.

FOLEY SWALLOWED A FROG.

rywhere Foley Went the Frog Was Sure to Go—and Croak.

ster, Sept. 30.—James Foley, of Wheeland, has brought suit against Philip C. Dickinson to recover \$5,000 for damages to the plaintiff's health, alleged to have been caused by drinking impure water furnished by the defendant. The Foley and Dickinson farms adjoin, and Foley paid his neighbor \$12 a year for the privilege of using water from the latter's well.

A few weeks ago Mr. Foley was sitting with his family playing dominoes, when a peculiar grunting sound made the children jump.

"What's the matter, James; aren't you well?" inquired Mrs. Foley.

"Why, I didn't do that."

"Yes, you did, James. I heard you. Have you been drinking again?"

Mr. Foley was in the act of making a most emphatic denial, when the second was heard again. "Yes, it comes from me, sure enough," he was forced to admit. Like a flash his mind grasped the true state of affairs; he must have swallowed something in the drinking water, and it had grown inside him. To-day's suit for damages against Dickinson resulted.

Mr. Foley claimed that the animal inside of him was a frog, and that, said he, "for nothing else would make so queer a noise. Last month in church the frog took it into its head to kick up a fuss just as I was enjoying the sermon. First I knew it gave a big croak. Everybody looked at me, and of course I got embarrassed. Then it started to croak still louder. I couldn't stand that, so I got up and walked out. All the way down the aisle the frog, or whatever it is, kept making its strange and peculiar sounds. I'm afraid I've queeried myself for that church."

"The worst of it is," continued Mr. Foley, "they won't believe me. Everybody seems to think I am doing this for fun. I can't go to any liturgical service or prayer-meeting without this infernal animal tuning up in my interior."

MAY CURE BRIGHT'S DISEASE.

Cincinnati Physician Claims to Have a Remarkable Remedy.

Cincinnati, Sept. 30.—A physician in Cincinnati, who has made a study of the disease, claims to have found a remedy which will absolutely and permanently cure diabetes and Bright's disease. These dreadful afflictions are regarded by the medical profession generally as incurable, and necessarily fatal, except in rare instances. Certain it is, however, that the physician making the claim has already cured a number of cases.

"I have rescued from death a number of citizens of Cincinnati."

The discovery of a cure for diabetes and Bright's disease must be a blessing to mankind. It is important as the discoveries of Drs. Koch and Pasteur. The remedy, if found to be what is claimed for it, should be given to the world.

The discoverer has proposed to some prominent citizens of Cincinnati to make a private test of his remedy with a very few typical cases of diabetes and Bright's disease, free from any and all costs, the remedies and personal attendance to be without any charge, provided his cures, if they are effected, are certified by the physician making the claim.

The efficacy of his remedy. The Commercial Gazette, Cincinnati, in the interest of humanity, to state that if those suffering from diabetes and Bright's disease will send their addresses and a statement as to their condition, and briefly a history of their case, to the editor of the Commercial Gazette, Cincinnati, their applications will be selected from the applications made a limited number of typical cases, covering the various stages of the two diseases. Desperate cases of Bright's disease are especially desired.

INTERESTING INTERVIEW.

An American Will Make Arrangements With a Canadian Firm.

Ottawa (Special), Sept. 30.—An American who has been here interviewing the members of the Government on private business has left for Toronto where it is understood he will try and make an arrangement with the Dodd's Medicine Company, of that city, for the establishment of a manufactory of Dodd's Kidney Pills in New York State.

He declined to specify the locality. He is expected to stay in Ottawa, he has been investigating the now celebrated case of G. H. Kent, who was saved by this remedy when in the last stages of Bright's disease, and has satisfied himself of the genuine nature of the case. He asserts that the medicine is now universally used throughout the State.

LOOKED LIKE A SPARROW'S SUICIDE.

Aurora, Ind., Sept. 30.—The other afternoon a sparrow was seen to fly toward the steeple of the German Reformed Church, with a piece of string in its bill, and light on the church spire. Its singular actions attracted the attention of a number of spectators, and it had succeeded in securing one end of the string to the point of the steeple, and the other end about its neck. It hung about fluttering about until death ensued. The peculiar conduct of the bird impressed the witnesses with the thought that it was a studied case of suicide, and not an accidental hanging. The bird continued to sway in the wind, and while a number of its companions frequently flew about the steeple, they seemed to shun the struggling bird, and manifested none of that eagerness at its fate which is usually the case with sparrows when one of their number is in trouble. After it had ceased to struggle the flying bird uttered a few shrill cries, and wingsed their way from that locality, as if to inform their mates of the death of their companion. Not a sparrow has appeared in that vicinity since.

DISASTER ON THE LAKES.

Steamers Stranded in Great Numbers—Grave Fears.

Chicago, Sept. 30.—Yesterday's storm on the lakes was one of the most violent and destructive of recent years. No less than eighteen vessels have been reported stranded at various points, while reports continue to be received of others flying the signals of distress. At Milwaukee the schooner Condor is long overdue, and grave fears are felt for her safety. Thirteen persons narrowly escaped drowning when the steam barge Kershaw went on the reef at Chocoy Beach, breaking completely in two. Five steamers are grounded near Detroit and the barge R. J. Henry went to pieces on the rocks near the Sault Ste. Marie. Several vessels lost deck cargo and also were stripped of all canvas, steering gear, etc.

TO SAVE HIS HONOR.

A Clerk Seeks to Recover \$2,000 From His Employer, Which He Is Said to Have Paid to Save His Reputation.

Woodstock, Sept. 30.—The long-pending case of Miller vs. Krus, which by reason of the church and social connections of the parties to the suit, and the peculiar circumstances leading up to the action, has created much excitement in Tavistock and vicinity, came up at the Woodstock assizes on Thursday afternoon. The circumstances of the case are that in April of this year Frederick Krug, general merchant at Tavistock, accused his clerk, Abraham Miller, who had been in his employ over seven years, of stealing a sum of money. To settle the difficulty, Miller transferred certain securities, amounting to \$2,000, to Krus. Miller sought to have these securities re-transferred on the ground that they were obtained from him by menaces and threats, and under duress. Krug denied that he received them other than by legitimate means, and said further that they were given voluntarily by Miller, and that his clerk confessed to have stolen about \$1,200 of his money. The case was conducted by B. B. Osler, Q. C., assisted by McKay & Picknell, Woodstock, and J. P. Mabey, Stratford, appeared for the defendant.

At the commencement of the trial a motion made by Mr. Osler to have the case tried before a jury was refused by his lordship, who decided to hear the case alone, as originally laid down in the docket.

The case was concluded on Friday. His Lordship Justice Falconbridge reserving judgment.

MIDDLESEX MATTERS.

Death of One of D. Rochester's Early Settlers—Good Price for a Team of Horses.

H. M. Govenlock, B.A., of Ingersoll, is at Glencoe.

Miss Mary Orange, Bothwell, is visiting her old friends in Glencoe.

W. Roome and W. Swalsland, of London, have been visiting in Glencoe.

B. H. Watworth, deputy sheriff, formerly of Glencoe, is visiting there.

Among the names of successful pupils receiving diplomas from the Ontario Optical Institute, of Toronto, is Elena Bell Matheson, of Lucan.

The concert given in Glencoe Friday evening by Misses McHardy, Stevenson, and Susie McGill, was very fine. The Thomson Hall was crowded to the doors.

J. W. Prangley, Strathroy, has disposed of his handsome pair of bay horses to a Scottish buyer, Mr. Montgomery, for \$400. The right class of horses bring good figures.

R. D. Grant, of Glencoe, has been appointed second assistant in the staff of the Collegiate school at Portage la Prairie. There were nineteen applicants for the position, including several Manitobans, ten from Ontario and one from Iowa.

Mrs. Mary E. Secord, aged 72, widow, of the late Adam H. Secord, of Dorchester, died a few days ago. The deceased went to Dorchester when the war was on, and was very new, and settled near Harriestville, on the place now owned by her eldest son, Solomon Secord. She leaves a family of five: Mrs. W. S. Tooley, and Mrs. G. W. and Solomon, of Harriestville.

FELL A THOUSAND FEET.

A Woman Aeronaut Instantly Killed in California.

Monrovia, Cal., Sept. 30.—An accident occurred here Saturday, which started the instant death of Nellie W. Hagel, wife of F. C. Hagel, the aeronaut. The couple have been traveling throughout the State making balloon ascensions and parachute jumps.

Mrs. Hagel made an ascent, and when at the height of 1,000 feet she pulled the rope which cut the parachute loose. She shot downward about 100 feet like a flash. The air caught the parachute, and it commenced to open, but suddenly it became apparent that she was falling. She came down like a cannon ball. She struck on her back, her head coming in contact with the ground first. Her skull was crushed. Deceased was 33 years of age, and was a native of Illinois.

At the up-to-date theater we shall soon expect to see some such announcement as this: "The carbolic rosewater used by the actors and actresses at this theater is from Glencoe, and is the property of the McInture and Pillroll."

THE GUILTY ONES.

More Cheese Factory Patrons Fined for Tampering With Milk.

Notwithstanding the repeated warnings given in the public press, by publishing the names of parties fined for tampering with milk, the list continues to grow larger.

Inspector Millard of the Western Dairy-men's Association, during his official visits to some factories recently has succeeded in having the following patrons fined for supplying deteriorated milk to their respective cheese factories:

Hugh and Alexander Brown pleaded guilty to the charge of supplying to the Belmont cheese factory milk diluted with water and were fined \$10 each.

Before H. P. Chapman, J. P., Ripley, Ont., Mrs. Richard Martin pleaded guilty of the charge of sending to the Ripley cheese factory, milk from which the cream had been taken and was fined \$10, and \$150 costs.

John Findlayson also pleaded guilty to the charge of supplying to the same factory milk from which the strippings had been kept back. He was fined \$20 and \$150 costs.

W. Featherston pleaded guilty before C. H. Merrifield, J. P., Moncton, to the charge of sending to the Moncton cheese factory milk to which water had been added, and was fined \$5.

Frank Querin pleaded guilty before J. E. Leebene, J. P., Listowel, to the charge of sending to the Carthage factory, milk from which cream had been taken, and was fined \$30 and \$30 costs.
