Fire insurance rates on business risks have been materially increased by the companies doing business in London. In some cases the rate has been increased from 90 cents to \$1 50. The companies chim that they are forced to ake this action because of the heavy losses entailed by recent large fires in Montreal and the conflagration of last year in Ottawa. Risks in congested districts, it is understood, are also to be made to pay more heavily than where they are comparatively isolated.

To the French Shore Modus Vivendi-Legislators Declare Against the Measure.

St. Johns, Nfld., Feb. 28.—The special session of the Colonial Legislawas prorogued after Governor McCallum had assented to the French shore modus vivendi bill. In the speech from the throne the governor thanked both houses for their patriotic and unanimous response to the request of the Imperial Government for a renewal of the measure, and expressed a hope for the successful out-come of the controversy. He concluded with an announcement of his departure next week to assume the governorship of Natal. The declaration made yesterday by members of the Legislative Council against a further continuance of the modus vivendi meets with general approval.

DEATH OF A FAMOUS LAWYER. New York, Feb. 28. - William M. Evarts died at his home in this city today, aged 83 years. He had been ailing for several days, but was not thought to be in serious condition until this morning, when he suddenly took a turn for the worse. His disease was pneumonia. For several years past he had been without the use of his eyes and was otherwise so feeble that he was unable to leave his home. Up to the time of death he was the nominal nead of the law firm of Evarts, Choate & Beaman, although for many years he had not been in active practice. Mr. Evarts was leading counsel for President Johnson in the impeachment proceedings of 1868, and was subsequently appointed attorney-general of the United States, a position which he held until the close of the Johnson administration. He represented the United States before the Geneva claims com-mission, was chief of counsel for

MANCHURIAN CONVENTION. London, Feb. 28. - The Pekin correspondent of the Times, wiring yester-day, gives a precise draft of the Manchurian convention. He says: Russia requires China to sign a convention consisting of twelve articles. The first says the czar is willing to forget the hostilities in Manchuria, and consents to allow China to resume the civil government. The other articles virtually place complete control in Russian hands. They exclude Chinese troops, and forbid the importation of arms. They demand the degradation of the high officials implicated in the recent disturbances, and exclude persons of any other nationality from holding official positions in Manchuria or drilling Chinese soldiers or sailors anywhere in Northern China. Many of the prisoners could have escaped had they been so disposed, but they gave themselves up willingly, which shows that they are sick of the war. The report of a plot among the prisoners is absolutely denied. They are split into many cliques. Fever is said to have played havoc with many of the captives. There were 27 funerals in one day. LEGISLATURE

Hon. Mr. Stratton Continues the Debate on the Budget-Charges Mr. Whitney With Bribing a Whole Riding-Marter to Retire.

Hon. Mr. Stratton resumed the debate on the budget in the legislature yesterday, and spoke for two hours and a half. He was in excellent form, and made a strong, argumentative, and at all times aggressive address. The criticisms of Col. Matheson and Mr. Whitney were vigorously combatted by the speaker, and the interjec tions of the leader of the opposition failed to disturb his equanimity in the slightest degree. Mr. Stratton dealt in a comprehensive manner with the expansion of the province during the past 25 years, and the measures which the Liberal administration had taken to aid in that development. He vigorously condemned Mr. Whitney's speech at Niagara Falls, in the cent bye-election in Welland, charging that the leader of the opposition had promised free Niagara power in an attempt to corrupt the constituency. Mr. Stratton also charged that the member for West Elgin, Mr. Macdiarmid, held his seat by reason of personation. The moral rottenness of the members of the opposition in their political speeches was, he said, a condition brought about by the whole record of the Conservative party from one end of the country to the other.

Mr. Hoyle (North Ontario) moved

the adjournment of the debate, which

will be resumed on Tuesday. SUGAR BEETS PAY. The report of the commissioners, Messrs. C. E. Lundy and D. C. Anderson, who were sent to Michigan by the government to investigate the beet root sugar industry in that state, was laid upon the table yesterday. The volume also includes the report of G. C. Creelman, superintendent of Farmers' Institutes, who went to the same state, and Prof. Shuttleworth's conclusions on the experiments made in Ontario. The first two say that there are large areas in Ontario where sugar beet can be grown to the best advantage. The soil most suitable is a clay or sandy loam, and the com-missioners warn the farmers against planting on poor land. They visited Bay City, Alma, Holland, Benton Harbor, Kalamazoo, Rochester and Cairo, cities in Michigan in which beet sugar factories are in operation, and their report includes interviews with farmers who grow the beet, to show that there is money in the business. Mr. Creelman gives figures showing that farmers in Michigan made last year \$3 26 per ton profit on their Prof. A. E. Shuttleworth deals most favorably with the experiments made

at Aylmer, Newmarket and Welland. In concluding he says: "The results in yield, in quantity of and in cost of cultivation of sugar beets make it perfectly evident that Ontario farmers in certain extensive districts of the province can realize comparatively large profits by growing sugar beets at the prices paid for them by American sugar beet fac-

COL. LEY'S DINNER. The first of the dinners usually given by Col. Leys, M.P.P., of London, to members of the Legislature was held at the Iroquois tonight, when about 25 of the members enjoyed the well-known hospitality of the member for London. Among those present were Hons. J. R. Stratten, F. Latchford, and Evanturel, and Messrs. Conmee, Mc-Kee, Col. Matheson, Pardee, Wardell, Powell and Colquhoun. Mr. Ross was prevented by a prior engagement, and Mr. Hy. Carscallen was unable to be present through illness. The tables were tastefully decorated with roses and with bands of smilax and pink, silk, and the menu was of the best. A number of those present made speeches, referring to the skill of the guest in the hunting field and his ability to secure normal schools and similar trifles for London. The dinner was one of the most pleasant of
