—Ingersoll Tribune: Melvina Town-
send, aged 11 years, whose parents live
at Valle Crossing, died at the
London Hospital the other day of
an unusual disease. She fell from a
tree and broke her arm. The im-
mediate cause of death was fulminant
gangrene botanica. The arm
turned black, burst and gave out
rumbling sounds continually. This is
one of the rarest diseases known, only
a very few cases having been treated.
The disease results almost wholly from
smallpox, vaccine or inherited acro-
nia, and may be handed down through
many generations.

SWEET BREATH

When Coffee is Used.

A test was made to find if just the
leaving off of coffee alone would pro-
duce an equal condition of health as
when coffee is left off and Postum Food
Coffee used in its place.

A man from Clinton, Wis., made the
experiment. He says: "About a year
ago I left off drinking coffee and tea
and began to use Postum. For several
years previous my system had been in
wretched condition. I always had a
thickly furred, bilious tongue and foul
breath, often accompanied with severe
headaches. I was troubled all the time
with chronic constipation, so that I
was morose in disposition and almost
discouraged.

At the end of the first week after
making the change from coffee to
Postum I witnessed a marvelous change
in myself. My once coated tongue
cleared off, my appetite increased,
breath became sweet, and the head-
aches ceased entirely. One thing I
wish to state emphatically, you have
brought in Postum for my constipa-
tion, for I certainly had about the
worst case ever known among mortals
and I am completely cured of it. I feel
in every way like a new person.

During the last summer I concluded
that I would experiment to see if the
Postum kept me in good shape or
whether I had gotten well from just
leaving off coffee. So I quit Postum
for quite a time, drank cocoa and
water. I found out before two weeks
were past that something was wrong,
and I began to get coveative as of old.
It was evident the liver was not work-
ing properly, so I became convinced
it was not the avoidance of coffee alone
that cured me, but the great value
came from the regular use of Postum."

THE AFTERNOON NEWSPAPER.

The splendid growth of the evening
paper is, however, in complete accord
with the fitness and reason of things.
We go to work early, and have no time
in the morning for newspaper reading.

We glance at the headlines, read hastily
a few items, and turn to "the
orders of the day." Who can stop to as-
similate the editorial comment, the
book review, the dramatic and musical
notices, the correspondence, etc., of a
morning paper? Even if the evening
papers did not print first the greater
proportion of the news, they would be
valued for their departments, editorial
and elaboration of the news. The
morning newspaper is a necessity of
modern existence, the evening paper is
a comfort, a joy and a blessing. Nec-
essaries we accept as a matter of course;
the comforts and luxuries and luxuries
of civilization we appreciate and cherish.
To progressive people luxuries are the
real necessities of life. Men who think
study and digest the news of the day,
the day-politics, the art, the literary,
artistic—may "take" any number of
papers, but they read a good afternoon
paper which prints the news of the day
honestly, rationally and candidly
comments upon it.—From the Chicago
Evening Post.

THEY WANTED NO ADVICE

No. 3 Committee Content to Work
On Own Judgment.

City Engineer Sought to Restrain
Them, But Was Not Heeded.

The members of No. 3 committee
were informed by the city engineer last
night that nearly ten miles of cement
walks, the limit fixed by the council
for construction in one year, had been
reached, and he suggested that they
suspend No. 1 committee and the city
auditor before putting down more
walks. No. 3 committee decided, how-
ever, that they are quite competent
to judge when they should stop, with-
out any advice from No. 1 or Mr. Jew-
ell. They said in effect that they will
construct more walks if they feel like
it, which at present they do. In this
connection it is interesting to know
that a larger portion of the funds of
the committee have been spent al-
ready this year. It is at all usual.
The city engineer has power over his
department, where most of the money
is spent, and in other years, with the
chairman, has kept the expenditure
down. During his long illness this year
the committee had a free hand, and
used it.

The committee awarded tenders for
three new sewers as follows: St. James
street, Ben Johnson, \$75, and 22 cents
foot for side drains; Colborne street,
Harding & Leathorne, \$1,325.84 and 22
cents foot for side drains; High street,
Harding & Leathorne, 80 cents foot.
The committee also awarded tenders for
the Forepaugh & Sells' circus
broke three squares of sidewalk on
Rectory street, with their heavy
wheels, which would have to be re-
paired.

Trade at Montreal has been fair for
this time of the year. The retailers
in the commodities department are get-
ting a better demand for summer goods, but as
they experienced difficulty early in the
season in moving such lines, the sort-
ing trade has been moderate. There
has been a fair inquiry for fall and
winter stuffs. The factories and mills
are busy on orders; values steady.

There is a scarcity of skilled labor in
some departments of the market. Crop
reports are generally satisfactory, with
the exception of some sprouted wheat
and stunted barley in certain sections
in Ontario.

In the Northwest the outlook is good
and the orders from the west continue
to call for liberal shipments. The price
of domestic manufactures are all firm-
ly held. The factories and mills are
busy on fall and winter goods. There is
a good demand for money and rates
are steady.

At Quebec during the past week a
fair movement is noticed in wholesale
trade circles. Fall orders are reported
coming in and country remittances are
fair for the season. An improvement is
noticed in shoe manufacturing circles.
The crops in general are showing up
well, and, on the whole, the outlook is
encouraging.

In Winnipeg the continued good out-
look for the crops is having a satis-
factory effect on the demand from
jobbers. Retailers throughout the prov-
ince have ordered liberally for the
fall, and it is expected that the buying
through the sorting season will be
much better than in previous years.

There is a good deal of building and
other construction work going on at
different points, labor is well em-
ployed, good wages are being paid, and
all this in addition to the large influx
of settlers that has already taken place,
should materially increase the con-
sumptive demand for staple goods the
coming fall over previous years. The
outlook for business is certainly prom-
ising.

DUN'S REVIEW.

R. G. Dun & Co. say: Wholesale
trade at St. John is seasonably quiet,
but an early revival is anticipated.
Payments are prompt and indications
for fall trade continue favorable. Dry-
goods payments at Montreal were well
met on the 5th, for renewals being
asked. Trade is good for the season,
and exports of cheese and butter ex-
ceed previous records. Business con-
ditions are reported as favorable.
Farm products command good prices,
and growing crops promise well. Trade
is brisk at Toronto. Satisfactory con-
ditions are reported at Hamilton,
except that the wet weather has
interrupted retail sales. Retail trade
