IMMEDIATE TRANSFER OF G. T. R. EFFECT OF NEW BILL

Premier Meighen Declares the Time Come For Square and Final Deal.

NO HARSH MEASURES

No Further Need For G. T. R. To Remain in Possession.

OTTAWA, April 19. - (Canadian Press.)-The prime minister in the House this afternoon presented the Government bill for dealing with the Grand Trunk. "It is the opinion of the Government," he declared, "that there is no further need whatever of the Grand Trunk remaining in posses sion, and, further, that it is wholly unreasonable that they should insist on doing so while the financing of the property is virtually placed on the shoulders of this country."

"By the present measure," he added, the Government asks Parliament to support the stand taken by the administration. We believe that the share-holders should not be finally denied the reconstitution of the arbitration board until an opportunity is given to meet the condition required. By the present measure Parliament will give them this opportunity in clear and them this opportunity in clear and definite language, and will give sufficient time to enable them to meet and decide. It seems to me clearly a case not for further negotiation with the company, but for a square and final statement of what must be done, with reseasonable concertunity to accept or rereasonable opportunity to accept or re elect. This is the purport of the bill which I now submit for the judgment

The bill. Mr. Meighen proceeded, en abled the Government and the Grand Trunk Railway Company to continue the arbitration on conditions laid dowr in the bill. "Should this legislation," he added, "meet with the approval of Parliament, and should the company decide to avail itself of the offer em-bodied therein, it will be enabled to have the board of arbitration reconstituted upon arranging definitely and effectively for immediate transfer, possession and control to the Government of the property purchased, the proceedings thereafter to follow the intent

e decision of the Government." leighen went on, "not to extend me of arbitration except upon of immediate possession and , which terms are fairly transbated into the present measure, has apparently been met on the part of certain shareholders and others in England with some resentment. There seems to have been an effort made to spread the impression that this country, through its Government, is dealing through its Government, is dealing harshly with investors in this, one of the first of our big Canadian enter-prises. I am convinced, and I think the House is convinced, that no such spirit has animated or controlled the negotiations or legislation or the conduct of the Dominion generally in re lation to the Grand Trunk, and that any impression that may have spread o the contrary is due to a failure to

ealize the facts."

In order to justify this statement, the on six days' notice, the Government premier reviewed the history of the elations between the Government and sition in 1903-1904. VERY NARROW ESCAPE AS CAR JUMPS RAILS

GUELPH, April 19.—One of the largest street railway cars loaded with passengers came within a hair's breadth of toppling into the Speed River shortly after 9 o'clock this morning, when after jumping the rails morning, when after jumping the rails near Johnston's boathouse, it ran half way across the Dundas bridge on the ties before Motorman Edward Canr succeeded in bringing it to a stand-still. Had the car plunged ahead another foot there is little doubt it would have dropped into the river.
