The meeting had the Referee Allman vs. Bissett case up for consideration with them, deciding to invite the O. R. A. of L. and D.'s committee of three, consisting of Mesers. The clubs represented at the meeting went on record not to put in any claim to the L. and D. J. F. New York, May 28.—With the exception of the Giants, owners and managers in the National League are today in a sad state. Each is wishing and hoping that the other may develop punch sufficient to stop the onward procession of the New York National League Club.

At least six clubs cannot quite figure out why the Pirates have not flashed like to burn the Pittsburgers whenever they can, but that they would not all like to burn the Pittsburgers whenever they can, but that they are extremely anxious for the men from the Smoky City to slam New York.

As a matter of fact there is splendid reason why the Pirates have not been winners more often than they have. The reason is found in their pitching staff. The Pirates were thought at the start of the season to have the best pitching staff in the circuit. But today that pitching staff is warped to the point of being bowed. By the records the Pittsburgers have lost twenty per cent of the effectiveness as compared with two years ago.

Thus far only one four-hit game has the pitched in the circuit that they are contaged to the point of the effectiveness as compared with two years ago.

Thus far only one four-hit game has been twirled by a Pirate hurier. It was against St. Louis. One five-hit game was pitched against the Philles. There have been two six-hit games and five seven-hit games on the Pirate record sheet.

That ends the good pitching. The sum records show three eight-hit games, three for nine hits, five for ten hits, three for eleven hits, five for thirteen hits, one for fourteen, one for fifteen and two for seventeen hits.

An amazing record for a supposedly great pitching staff. And a condition which puts heavy tax on the Pittsburg batters.

great pitching staff. And a condition which puts heavy tax on the Pittsburg batters.

Against Pittsburg's record the Giants' sheet of figures shows one game in which opponents made one hit, and another in which only two were registered. There are two three-hit games, two of four hits, one of five hits, five six-hit games, one of seven six eighthit battles, two of nine hits, one of ten, three of eleven, four of twelve, two of thirteen, one of sixteen and one game of seventeen hits for the enemy. Add to this record of pitching the Giants' record of batting, and it is easy to get the reason for Giant supremacy.

No club in the history of baseball has been so frequently reported sold as the Boston Americans, and no club, naturally has more frequently denied being sold. That a matter of legal procedure has taken place in Boston, however, showing that a transfer is under way, perhaps will end the present crop of reports and denials.

The prospective buyers of the Boston Americans are Columbus men. One has had experience in baseball. Whether Bostonians will take more kindly to them than they have to Harry Frazee remains to be seen. Frazee started out with a popular attitude which he afterwards shifted. He fell into the same fault that is over-prevalent today of holding the theory that the game can be exploited as a show, and retain its hold on the public. It cannot be done. Destroy the theory of home pride stuff and the game is gone.

Baseball Sub-Committee Will Meet Every Week Henceforth.

New York, May 28.—Word came to the writer today that Willie Meehan, the champion fat heavyweight of the world, has started for Montana to

champion.

Dempsey in turn has one decision over Meehan, and there were two draw affairs, which would put Willie down as no slouch at all. The last time the two men fought was at a boxing benefit for the war camp community service. Dempsey paid all his expenses from New York to the coast—no fighters were paid a cent—and the exhibition netted \$18,000, all of which went for the enlisted men.

Thus, the government, at the threshold of its career, meets the worst situation that it is likely to encounter during the present session of parliament. Parned.
Dempsey was caught out of condition Dempsey was caught out of condition of course, but even so. Mechan's battle was extremely creditable. There were various times later when Jack tried to lure the fat walloper into the ring again, and while Mechan seemed willing enough, promoters fought shy of the attraction. As a matter of fact the beating Mechan got in the first two rounds started him on the down grade. Several months after this tight, Harry Wills knocked Mechan out, and Fulton had him all but out, but prior to mixup with Dempsey Mechan had won two decisions over Billy Miske.

Mechan is a real character, a rolypoly man, whose layer of fat protected him from harm. He fought approximately twelve years, coming up from the

him from harns. He fought approximately twelve years, coming up from the featheweight class and figuring in all divisions until he became a heavy-weight. Wills is the only man who ever knocked him out when he was good, and there is the belief that he was on the skids when Harry caught him. He could not hit for a lick, otherwise he might have been a champion.

Meehan is known in the east mainly by reputation. Two or three times managers took him east, but upon each occasion he would get homesick for his beloved haunts in 'Frisco, slip out the back door and usually land home via the brake beam and blind baggage route. Matches made for him in these parts mean othing to Willie, when the homeland called. For the past three or four mean nothing to Willie, when the home-land called. For the past three or four years he has been a boilermaker, and he now hopes to do a comeback.

His success in bouts with Dempsey will decide for him whether he has a look in. As for Dempsey it would be interesting to see which is the stronger, his heart or his memory.
