Special to The Advertiser by a Staff Reporter. Guelph, Sept. 9.—Premier W. L.

Mackenzie King proclaimed achievements of his government ringing tones to a monster rally of 3,000 people gathered in the armories tonight. Though he had had only a few minutes to glance over the few minutes to glance over the speech delivered by Rt. See Straight Fight. Although he has been nominated by his party Mr. Guthrie thought it ill advised to go to Wingham to sup-port his leader, and he stayed at home to attempt to stem what could easily be seen to be the oncoming tide of almost certain defeat. There were three candidates in the field were three candidates in the field in 1921, but there are only going to be two this time. Mr. King's urgings for a straight fight are sure to bea fruit, in the event of which a Lib eral victory is freely predicted in

"I see that Mr. Meighen has made some general statements at Wing-ham this afternoon, observed Premier King, "which he follows up by abuse of myself and others, and asks people to believe the extreme asks people to believe the extreme things, which he then goes on to say. He says that the present government has not had a single achievement. "I ask him if reducing his two-year deficit of \$173,000,000 and turning it into a surplus of \$83,-000,000 in the three full years that the government has been in power is not an achievement. This was the policy, too, Mr. King said further, on which Mr. Meigher failed to elect a single candidate in six provinces at the last general elections, and it was defeated in the House by a majority of 110, the largest majority since confederation

The \$50,000,000 annual deficit has been due, not to publi ownership, but to the blundering of the controlling interests as privately owned roads in falling behind on charges that should have been met. "Mr. Meighen had deficits of \$46, 000,000 on the operating expenses of the Canadian National Railways for the two years following 1919. But the three years under the present gov-

"In 1911, speaking on the reciprocity treaty in the house of commons, Mi Guthrie, your member here, said this about the tariff: 'I am not a high protectionist. I believe that it would a ridiculous proposal to have a high tariff. In the last five or ten years the shipments from Guelph, Toronto and other centers has been to the northwest. If you give them a million more prosperous farmers, a convenient market, a tariff for revenue with incidental protection, then you will be increasing their pur-chasing power, you will be increasing manufacturing in Canada, you will be increasing wages and you will be increasing the demand for labor.

Departs From Policy.

"Quite true," observed Mr. King;
"I don't think Mr. Guthrie is a high
protectionist, but Mr. Meighen is.
He is quite proud to be so. Then
why is Mr. Guthrie with Mr.
Meighen? I would praise Mr.
Guthrie for his speech in 1911 for Guthrie for his speech in 1911, for that is a very good explanation of the Liberal tariff, but I would not vote for him now that he has depart-

got to have a policy to unite a policy that will enable the manu-facturer and the farmer to walk hand-in-hand for the good of the country as a whole, and that is a tariff for national unity, the Liberal tariff. Mr. Meighen's policy appeals only to one class, and appeals to that veloping trade within the different class in a selfish way. It divides the But don't fear there is go country. But don't fear there is go-ing to be any high tariff wall—the ole of Canada are too sound in their judgment for that. (Applause.)

Indeed, if Mr. Meighen were elected by a minority vote, he were lected by a minority vote, he would not have as many left as he had cabinet ministers when he went to the country. Mr. Raymond concluded with deprecations of Mr. Meighen's sneering allusions to conditions in Canada, statements which were fraught with efforts to destroy the fruits of con-

the new senator. Dr. Rankin Speaks. Praise for the good work of party supporters of the riding was glowingly tendered by Dr. J. P. Rankin. retiring member. He was loud in his tribute to the women.
"I am proud of North Perth." Dr. Rankin declared. It is one of the freet constituencies in Canada."

Causes of the present electron water outlined by Dr. Rankin as being largely because of railway and ocean rates problems, which could only be handled firmly by a clear majority for the government. Dr. Rankin provided some clear instruction on the big problems which have been faced by the government.

"Can you conceive of any gov-ernment being so incompetent that nothing it would do would be right?" declared the doctor, "But Mr. Meighen opposed every measure brought up

either.
