TTER OF VANITY

I heard that Maud Jeffries was to Jack Meadows, I took an portunity of congratulating both, for they were both old friends of mine and charming peopleespecially Maud. She was an artist and painted very zealously in oil colors. She was in her studio when I called. So I went up to it and found her enveloped in a linen apron covered with the variegated colors of her palette. She was working at an unfinished painting, and so absorbed in it that at first she did not hear me enter. When she did, she

turned quickly. 'No, it's not Meadows. I'm sorry,' I said sympathetically.

"Oh, but I'm very glad to see you," she answered. "And you are just in time to help me. Do tell me what is wrong with this thing," and she point-

ed to the canvas.
"That is Meadows' privilege," said. I offered her my good wishes and told her I was sure she would be happy. She blushed prettily and said, are very happy now."

"But how have you satisfied your conscience?" I asked. "I understood you had vowed yourself to the service of your art."

Oh, but I will never give up my work," she protested earnestly. "Jack knows that. He wouldn't want me to. I think it is so wrong not to use one's

"Certainly, and I'm glad Jack sees that. He must be very proud of you." She hesitated. "I'm afraid he is not naturally very fond of art," she said, "but I hope he will soon learn to love "He is really awfully good about it,"

she went on. "He is going to let me paint his portrait, and then we shall hang it in our dining room.' That will be delightful," I said.

"Look, here are some sketches for it." said Mand, drawing out some panels and charcoal drawings. "Don't you think they are like him?"

I recognized Meadows in spite of the varying expressions Maude had given him and said so at once. She was pleased, and just then Meadows came

'I am just admiring the studies for the great portrait," I said genially. "Ah, yes, they are only rough sketches. The thing itself will be quite different, won't it, darling?" he said, with, I imagined, a shade of anxiety.

'Mr. Raller thinks they are excellent likenesses, Jack," she said happily. He looked at me sharply, but I bold-

ly repeated my opinion.

A fortnight or so passed before I saw anything of Meadows or Maud, then I met Meadows. He looked worried, and when I asked him after Miss Jeffries he said shortly, "I believe she is quite

"And how is the portrait going on?" "It's not going on at all at present."

"How's that? Is she dissatisfied with "No, she's not," he said, emphasize

ing the pronoun. Surely you are pleased?" said I. "Look here, Raller," he said, with a burst of confidence. "That wretched portrait is undermining my happiness. It's no more like me than that poster, and he pointed to a flaming placard "I'm not a vain chap, you know, but I do bar being handed down to posterity

looking like a criminal lunatic. "But it can't be as had as that? Mard would never do you injustice." I said. 'Not intentionally, but she swears to the good likeness, though I can't see how she can. When I suggested it was a bit unflattering, she said she must paint what she saw, and that she could not tamper with the truth of art. I just laughed and said, joking, that there was room for a little more truth, and then she was hurt and said she had no

idea that men could be so vain." 'And you left it at that?" "Yes, if you saw the thing you wouldn't be surprised."

"I should like to see it," I said. "Come along then. Maud is out this afternoon, her sister told me so. We will go to her studio, and you can give me your unbiased opinion.

So we went together and climbed up to Maud's painting room. The portrait, still wet, was on the easel. Meadows pointed to it in eloquent silence. I was silent too. It was so painfully realistic that it verged on caricature.
"Well," said Meadows, "could you

live in the same house with it if it were your portrait?" One might get used to it in time." I answered.

"Yet she is fond of you," I said. "Surely if you ask her to suppress it as a personal favor''-

'She would only say it was my vanity," he answered gloomily. "There is nothing to be done. She must choose between me and my portrait, unless''-'Unless what?" I asked as he paused.

'You could persuade her. Tell her it doesn't do her justice, either of us jus tice. Do, there's a good fellow. She has no end of respect for you." I could not resist his appeal and

promised to do my best. "And surely that is she coming up the stairs now, said I as we heard footsteps. "Yes. Well, speak to her now," said Meadows.

He left me alone in the studio as

Maud entered. She greeted me with a weary smile and glanced directly at the portrait. You have been looking at it?" she asked, mechanically taking up her palette and brushes. "Yes," I said, and she seemed to ex-

pect me to say more. "It's a good likeness, isn't it?" she remarked presently. "It is too flattering," I answered, sit-

ting down opposite it. She looked at me suspiciously, but

my face was full of innocence. "Jack doesn't think so, " she said. "But he is so absurdly vain," said I. "Not more than other men, I suppose," she retorted.

The council of the confederation has a few miles above Kitlatomux, the city. It is learned on pretty good authority that they will proceed to Penticton and survey there. Their aim is to have the work fully completed within ninety days.

At its last meeting the city council decided to call for bids for the putting in of a water works and electric light the commons, and First Lord of the system, and the 25th inst. was the last day set for receiving these bids. The water works system will cost in the neighborhood of \$10,000, while the light plant will cost some \$3,000.
