PEACE DAY.
Saturday, July 19th has been declared a public holiday so that all our busy citizens would be free to celebrate the coming of peace.
This is a momentous day in the history of the world and the day should be celebrated in some manner so that its significance would be impressed upon the minds of all.
During the years of the war Campbellton has "carried on" in a manner which has been a credit to its citizens, and in many cases an inspiration to other towns. Now that peace has come let us be equally zealous in making a celebration in every way fitting to the occasion.
The time is short, but not too short to plan something which will make Peace Day long remembered by all.

BOOSTER.
There is a class of individual who can do more harm to any town than the one who is continually knocking his own town, who is always complaining that business is rotten and that things generally are going to the dogs. It is a safe bet that the individual who is down in the mouth has only himself to blame, and in many cases when he in any other town he would starve to death.
Your town should be the best on God's green earth. Always boost it and in time you will change your opinion and find out that it isn't such a bad old town after all.
Try this for a change. Be a booster. Boost Campbellton, the best town in New Brunswick, many say the best of its size in Canada.
