A Falling Off in Licenses. The amount received for licenses during ptember was \$1590.90, which is \$695.50 less than was taken in for the same month last year. From the first of January there has been received \$24,976.50, against \$29,142.85 for the same period last year. The falling off is principally due to the stand taken by the pedlars. The number of dogs registered this year is much smaller than the number licensed last year.

Bank of Commerce Building. John J. Dixon & Co. received the following despatch over their private wire from Walker & Co. to-day:

CHICAGO, Oct. 3.—Corn has been dull but steady. Receipts still big and the grading over 75 per cent. number two. There was a report here that a New York paper estimated the crop at 1,300 million bushels but idd not have much effect on the market. Receipts of hogs were 8000 under the estimates, with prices for same at the yards higher. Provisions opened about as they left off Saturday, with operators uncertain and not disposed to do much. The light estimate of pork and heavier of ribs was about a stand-off, and operators pretty generally appear to be waiting for the next move of the Cudahy-Wright combination. The only feature of the day has been the buying of October pork and selling of November by the Anglo-American people and Cudahy. The undertone is strong, and we predict higher prices before serious decline.
