**A Danger Signal.**

The Weekly Sun throws out a warning in regard to the speculation in real estate and points out that the withdrawal from the postal savings bank last year exceeded deposits by nearly two millions of dollars. There can, it states, be no doubt as to the disposition made of much of the money withdrawn. A great deal has gone into Cobalt mining stocks, the purchasing of western lands at inflated values, and other forms of risky investment. That a lot of this money had already been lost is beyond question. Even with an assurance of a continuance of good crops in the West lands there do not represent real value for the money that is being put into them, while one bad crop would leave the bubble like a collapsed balloon. While again there are many properties in the Cobalt district with enormous capabilities for wealth production, it is equally beyond question that thousands of shares issued on account of Cobalt will not return one cent of the money invested. The longer the speculative craze continues, the greater will be the disaster when it comes. The Sun again warns its readers to prepare for the storm, and the best preparation is to see that all surplus money spent is expended for the improvement of the farm and its equipment.

**Why Refer to Doctors**

Because we make medicines for them. We tell them all about Ayer's Cherry Pectoral, and they prescribe it for coughs, colds, bronchitis, consumption. They trust it. Then you can afford to trust it. Ask your own doctor.

**\$100 Reward, \$100.**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**Wanted—Some Live Men.**

Thamesville Herald:—Dead men are only fit to inhabit cemeteries. If they are decently dead, all over, we tenderly lay them away in the deep of the tomb, but if they are dead to all the enterprise but of the narrow place of their own interests and yet persist in walking around, moving their dry bones, calloused hearts and consciences want to throb and pulse with vigor, they are only like that drone bee, in the way until they are stung to death and dragged outside the hive of legitimacy. Twenty real live men are worth more to the public generally than a round full thousand of useless material that lies around like rubbish in a rising stream that is aching and foaming to turn mills and factories. Yes, live men bless, and dead men curse a town.

**Blood, Pure, Rich, Red**

Rosy glow in the face, sparkling eyes, vivacious spirits are all the outcome of good blood. No surer way exists of purifying and enriching the blood than to use Dr. Hamilton's Pills. By their gentle action on the bowels, kidneys and liver they filter every impurity from the system, leaving it wholesome and able to do the work necessary for the maintenance of health. To be well, look well, and feel always at your best, use Dr. Hamilton's Pills of Mandrake and Bitternut. A truly wonderful medicine for young and old. Price 25c at all dealers.

**Cutting out Fiction.**

The day of Government encouragement of promiscuous fiction buying in the public libraries of the province is ended by an order-in-council just passed. This will be put into immediate effect by the education department. Under the former regulations history included historical romances; general literature included moral tales. As a consequence, though the conditions governing the Government grant call for only 30 per cent. of fiction will be allowed, but all novels must be classified as fiction. The new classification adds juvenile works to the reading list which so comprises history, biography, voyages, science, general literature, poetry, religious literature, miscellaneous, reference books and fiction. The Government grant is 50 per cent. on all purchases for books, magazines and newspapers up to \$250 per annum.

**When Your Back Hurts.**

Of course it's hard to work. Stooping over hurts, lifting is tedious, and you wonder what to do. Ever try Nerviline? Nothing like it for weak or lame back. It penetrates to the core of the pain, eases from the first application, brings cure that defies a relapse. No liniment is so clean, so soothing, so certain to kill muscular rheumatic or sciatic pains. Your dealer sells Polson's Nerviline in large 25c bottles. Why not try it?

**Keep To The Right.**

"Keep to the right" is the law of the road, which, when obeyed, saves one a world of trouble. Society is a public highway on a grand scale, a great turnpike whereon a hurrying, jostling, wrestly crowd of badly-assorted humanity is ever thronging. Here is life in all its better phases—childhood with its golden hair and wondering eyes; youth with its widening, thoughtful outlook manhood with its firm step and earnest purpose; old age with its bowed form and whitened locks. Here too, are thickly strewn the wrecks of life—misguided childhood headstrong and wayward erring youth rioting in frivolity and dissipation, and sowing the seed of physical decay and moral death and vicious manhood treading the downward road and decrepit old age, sinister and sere, with its painful memories and hopeless future—all comingling in the one great journey from the cradle to the grave. How much discord, inharmonious and jostling would be avoided in this journey if each traveler would only keep to the right. There is a pitfall before you young man; a temptation to do evil; a snare for your feet. You are

forming habits of idleness, dissipation and extravagance, which will stick to you like the shirt of Nessus, hampering your noble efforts, and eventually dragging you down to the gateway of despair. Keep to the right and avoid it.

That is a doubtful business venture, sir, in which you are about to engage; one perhaps involving loss of self-respect and sacrifice of manly principle, you see where, by taking advantage of your neighbors ignorance, you can get the best of him in a trade; or by some smart trick of the law you can evade some responsibility you have willingly assumed, or shirk some duty that lies in the way. Keep to the right. There only is the path of honor.

When tempted to deal in gossip or scandal; to play the tyrant in your family to withhold the gentle word of love or praise from her who walks by your side; to lower the standard of your honor, or do ought that would make you less manly or noble in the eyes of good men and angels,—keep to the right.

Keep to the right. These golden words should be engraven in letters of living light on the temple of every human soul. They should stand forth as finger points at the junction of every wrong; at the point of every divergence from the straight path of rectitude; by every way side temptation.

Keep to the right—spurning every ignoble thought every unmanly action. Thus will you lay up treasures for a grand old age, and life will bear for you its richest fruits.

**No Liniment Can Cure It.**

That pain between the eyes isn't neuralgia. Many think so, but it is catarrh, plain ordinary catarrh that needs attention right now. Your proper lead is to use "Catarrh-ozone." Doctors recognize it as a cure that surpasses all others. Sure, because it does reach the trouble; safe, because no drugs to take, you breathe its healing vapor direct to the course of the trouble, and cure is guaranteed. Two sizes, 25c and \$1.00. Sold everywhere.

**Are you using the best Flour?**

What if the flour, that you are now using, does make pretty good bread? Isn't there room for improvement? Couldn't the bread be whiter, sweeter, tastier? Couldn't the pies and cakes be lighter, more inviting? And does the baking always turn out exactly right?

If there is room for improvement, there is a need of

**BEAVER FLOUR**

"Beaver" Flour straightens out all baking difficulties. It is two flours in one—blended Manitoba Hard Wheat and Ontario Soft Wheat. Way out in the Northwest grows the Manitoba Hard Wheat that makes rich, good, strong, flour—wholesome, nourishing bread. Ontario wheat lacks somewhat in nutriment strength—but it makes the lightest wheat cakes, pies and pastry. "Beaver" Flour combines these two baking qualities, because it contains just the right proportion of each. The wheat we use, being nature's best, requires no Electrical treatment to purify.

Don't be satisfied with just good bread. Have the best that any good cook can make. That means to use "Beaver" Flour.

**FOOD IRON**

You need Iron. Everybody does. The harder you work, the more you worry, the more Iron you require. But Crude Iron won't do. Iron Pills, Iron Tinctures, Iron Tonics are useless in nineteen cases out of twenty. You must have pre-digested Iron or your blood will not assimilate it.

**FERRROL**

furnishes the Iron you need in combination with Cod Liver Oil, and so intimately incorporated with the oil that the most delicate digestive organs cannot fail to assimilate it.

The value of the combination cannot be overestimated. It builds up and fortifies the system against Coughs, Colds, Bronchial Affections and kindred troubles. If any of these diseases have already been contracted, or if the lungs are affected or threatened, FERROL cures by enabling nature to throw off the disease, not by "killing the germs," which is a physical impossibility.

FERROL is an absolute specific for Croup and Bronchitis, and no household where there are children can afford to be without it.

FERROL is not a patent mystery. The formula is freely published. It is prescribed by the best Physicians. It is endorsed by the most eminent Medical Journals. It is used in prominent Hospitals, Sanitariums, etc.
