**Changes Wrought by War.**  
Some of the unconventional "professions" which have developed in after-war England include the man who guarantees to be able to furnish an afternoon or evening's pleasant conversation at a moderate fee. Another ex-officer, who says he became an efficient letter writer while in the trenches in Flanders, will write breezy letters to interesting people for "so much per." Owing to the ravages of the war on old-established fortunes, scores of highly placed women are trying to obtain jobs as chaperons or companions to women and girls who have to travel. Others are willing to share in management of large houses for a nominal wage. Thousands of girls, some of them of title, are applying for jobs as cinema actresses.

**Prefer to Be Raw.**  
Mrs. A.—How can you be patient with such raw help?  
Mrs. B.—Have to be, my dear. My raw help won't stand for any roasting.—Boston Transcript.
