COMMERCIAL. The great Excitement consequent upon the bloody insurrection in Fails together with the uncertainty which prevailed respecting the fate of the Government measure for regulating the Sugar Duties, have caused commercial affairs in this country to be exceedingly quiet. Cotton is steady at former rates, and the sales are to a moderate execut. Breadstuffs meet with less inquiry, and prices have a declining tendency.

There is less firmness and activity in the Grain trade, caused no doubt, in a great degree, by the asspicious weather with which we have been favoured during the month of June.
