PROTECTION FROM LIGHTNING!!

BY E. V. WILSON AND
H. PIPER & BROTHER,
ON THE PRINCIPLE OF ALUMINUM
ELECTRICIAN AND ELECTRO-METALLURGISTS.
AT THEIR WHOLESALE AND RETAIL

Lightning Rod Manufactory,
On Yonge St., between King and Adelaide Sts.,
TORONTO, C. W.

At which place we beg to offer our Superior Spot Twisted
Annealed Lightning Rods, with Zinc Protection, and
Electro Positive Element combined in their Manufacture,
thus rendering them equal to Copper as conductors. They
are ten, twelve, and fourteen feet long, & will be easily
fitted brass terminals, connecting posts, &c. & new style
metallic attachments for brick or stone buildings; also
Glass Insulators of a novel and ingenious construction, so
that the whole insolated with a solid platinum Sil-
ver Point, fourteen inches long, surrounded at the base with
three angular negative fingers, which gives the power to
an extraordinary extent of discharging the electric
elements of the most violent thunder-storms, & can reduce to the
entire protection of a large up to the roof, one, the
whole constituting the most magnificent and perfect Protection
conductor ever presented to the public. We guarantee
the conductive properties of our rods to any person, & unless they can prove a certificate of agency, issued by E. V.
Wilson, L. R. Agar, and their sample Rods, & our
Agents Reproducing Patentees, KGB, as we are, we
will be held responsible for any damage or accident
caused by rods put up by any person unless they have our
certificates as above. Your attention is called to the fact, that
the public are not aware, placed, joined, and otherwise
glued over, when in such they are not worth anything.
Electric Point, nor do the parties offering them know
anything about the laws of electricity, & especially it is
dangerous to employ ignorant men to protect your buildings
and your lives.

E. V. WILSON, &
H. PIPER & BROTHER.

THE LARGE ONE HUNDRED AND THREE, YONGE
STREET.

The rage for the gold of Australia is past,
And men gather wisdom and show it at last
For now they believe what they've often been told,
That our own favored Canada is the country for Gold'

While here we are blessed with a generous soil,
The man may have gold who is willing to till,
And vain were his search for a happier shore,
While blessings so numerous encircle his door.

Strange indeed would it be, if a land like our own,
Where our roses, though latest, are sweetest when blown
Though our winters are long, and sometimes severe,
But lead us to summers delightfully clear,
Should be less attractive, because it's cold.

Strange indeed would it be, if a land like our own,
Where our roses, though latest, are sweetest when blown
Though our winters are long, and sometimes severe,
But lead us to summers delightfully clear,
Should be less attractive, because it's cold.

Her prosperous condition will appear very plain,
When her farmers get a dollar and a quarter for grain,
While all their productions so readily sell,
At prices which now pay them equally well.

To many, it doubtless may seem very queer,
Why Dry Goods are cheap and Provisions so dear,
It is true, notwithstanding, which our patrons may see,
By calling on Yonge Street "One Hundred and Three."

While many must know, an advance very great,
Has been made in the value of woollens of late,
Yet our flannels and blankets will quickly appear,
Quite as low as the prices we offered last year.

Our Bonnets and Cloaks have been tastefully made,
With a prospect of greatly increasing our trade,
And our Shawls and our Furs will at once please the eye
And induce even the most fastidious to buy.

Our manner of business is extensively known,
The lowest price asked, with the article shown;
And such, we determine, shall continue to be,
The unceasing practice at ONE HUNDRED AND THREE.
