

SPARKS.

The Arnprior Electric Light Co. are said to have greatly reduced the price for lighting.

It is announced that a horseless carriage exhibition and race is being arranged for, to take place at the Hamilton Jockey Club track in the spring.

Mr. C. W. Bowman, of Walkerton, who was elected reeve at the municipal elections, has been obliged to resign his seat on account of having an electric light contract with the town.

The second annual ball and supper of the employees of the Ottawa Porcelain and Carbon Co., was held early in February. The event was much enjoyed by the large number present, including the general manager, Mr. J. W. Taylor.

An authority, speaking of the cost of producing carbide for the manufacture of acetylene gas states that it will cost at least \$23.70 a ton, and that the new illuminant cannot be delivered for less than \$12.50 for every 700 lbs. But it is claimed that only one-fifth as much acetylene gas is burned as of ordinary gas.

The annual meeting of the Guelph Light and Power Co. was held on the 17th of February. The twenty-fifth annual report showed a slight falling off in revenue during the past year, but considering the prevailing depression, was considered satisfactory. A vote of thanks was tendered to the directors for their services. The old board, consisting of Messrs. D. Guthrie, Q. C., Geo. D. Forbes, Geo. A. Oxnard, W. M. Foster, Richard Mitchell, E. Harvey, and James Innes, M.P., were re-elected. At a subsequent meeting of the directors, Mr. Guthrie was elected President, and Mr. Mitchell Vice-President for 1896. Mr. John Yule retains the management.
