BLACKIE'S MODERN CYCLOPEDIA

In eight vols., square 8vo., profusely illustrated and handsomely bound.

The Late Principal Kirkland said:

"It is an admirably arranged work, and covers with great fulness the whole field of knowledge; but it is especially useful from the fact that it treats of many modern subjects connected with recent art, science, history, and biography, for the most part not found in other cyclopedias. It should be on every teacher's desk."

PRICE, in half morocco, \$24.00.
