The Beacon, mouth of Moose River, James Bay, 1904. (*W. Spreadborough.*) Not recorded from that region.

AGOSERIS ALTISSIMA, Rydb.

Prairies near Old Wives' Lake, north of Peace River, Atha., 1903. No. 61,242. (*J. M. Macoun.*) Known before only from type locality in Montana.

ENTOMOLOGICAL SOCIETY OF ONTARIO.

At the annual meeting of the Entomological Society of Ontario held at the Ontario Agricultural College, Guelph, on the 10th and 11th October, three of the local members of the Club, Messrs. Fletcher, Gibson and Young presented papers, and, Dr. Fletcher, was honoured by being elected President of the Society for the ensuing year. Other members of the Club who contributed papers during the convention were Mr. J. D. Evans, of Trenton, Mr. H. H. Lyman, of Montreal, Prof. Wm. Lochhead, of the Macdonald Agricultural College, Ste Anne de Bellevue, Que., Mr. C. W. Nash, and Mr. J. B. Williams, of Toronto, and the Rev. Professor Bethune, of Guelph. Among the exhibits shown was a beautiful collection of exquisitely mounted tineid moths, collected and prepared by Mr. C. H. Young, of Ottawa. Mr. Young has been most energetic in the collection of these interesting little insects and during the past two years has mounted upwards of four thousand specimens. We hope, as Mr. Young is getting his material identified by the well known specialist, Mr. W. D. Kearfott, of Montclair, N. J., that he will publish in the OTTAWA NATURALIST, at an early date a list of the species he has found in the Ottawa district. One of the important features of the meeting was a full discussion on the habits of the Codling Moth and the best methods of controlling it. Mr. Paul Hahn of Toronto
