

THE READY REFERENCE HANDBOOK OF DISEASES OF THE SKIN, by George Thomas Jackson, M.D., Chief in clinic and instructor in Dermatology, College of Physicians and Surgeons, New York; consulting dermatologist to the Presbyterian Hospital, etc., with fifty illustrations. Philadelphia, Lea Bros. & Co.

This book is intended to present the art of dermatology as it now exists. No attempt has been made to discuss debatable questions. Hence pathology and etiology do not receive as full consideration as symptomatology, diagnosis and treatment.

The alphabetical arrangement of the different diseases has been adopted for convenience of ready reference. It is hoped that the large number of titles from foreign languages will prove as acceptable as it is novel, and that the pronunciations of the various names will be helpful.

DISEASES OF THE EYE, EAR, THROAT AND NOSE, by Frank E. Miller, M.D., Throat Surgeon Vanderbilt Clinic College of Physicians and Surgeons, New York; James P. McEvoy, M.D., Throat Surgeon Bellevue Hospital, Out-Patient Department, New York; and John E. Weeks, M.D., Lecturer on Ophthalmology and Otolaryngology Bellevue Hospital Medical College, New York. Being Volume 10 of The Students' Quiz Series, edited by Bern. B. Gallaudet, M.D., Demonstrator of Anatomy College of Physicians and Surgeons, New York; Visiting Surgeon Bellevue Hospital, New York. Pocket-size 12mo., 218 pages, with 89 illus. and 2 full-page plates. Limp cloth, \$1.00.

To facilitate the acquisition of a well-assorted knowledge of Diseases of the Eye, Ear, Throat and Nose, the author has endeavored to condense into this volume, in the most complete and concise manner possible, the essentials of these specialties. To the student, such brief volumes have a double usefulness, not only presenting the facts, but saving his attention to lectures from interruption by note taking. It is also hoped that the volume will serve to refresh the memory of the busy practitioner, as it is in reality a trustworthy digest of the best and latest works on these specialties.

THE STUDENTS' QUIZ SERIES.—Physiology, by Frederick A. Manning, M.D., Attending Surgeon Manhattan Hospital, New York. Series edited by Bern. B. Gallaudet, M.D., Demonstrator of Anatomy, College of Physicians and Surgeons, New York, Visiting

Surgeon Bellevue Hospital, New York. Pocket size, 12mo., 201 pages, 69 illustrations, \$1.00. Philadelphia, Lea Brothers & Co.

The present book is a brief summary of the salient features of Human Physiology. The idea has been to present the subject in such a manner as to fix in the memory facts already learned in less limited treatises. The book is practically an abstract of standard works, and principally of those of Dalton, Foster and Kirke. The cuts are many of them from Dalton's Physiology. Doubtful questions have often been referred to Foster, whose Text-book of Physiology is the reference book of a large proportion of the schools.

THE PHYSICIAN'S VISITING LIST, for 1893. Forty-second year of its publication. Philadelphia, P. Blakiston, Son & Co., 1012 Walnut Street; sold by all Booksellers and Druggists. Price \$1.00 to \$3.00, according to number of patients. 25 patients a week \$1.00.

"The fact that this visiting list has been published annually for forty years is sufficient guarantee of its excellence and popularity. In addition to the visiting list proper, it contains easily-accessible suggestions upon many of the emergencies that may arise in a physician's practice, as when he is too far from home to learn from his text-books the antidote for a poison that may have been swallowed, or the proper method of resuscitating a half-drowned person. True, he should know these things, but who does not occasionally forget when he most wishes to remember? There are also dose-tables, tables of the metric system, a list of new remedies, rules for examining urine, a table for calculating the period of pregnancy, and other equally useful information. The arrangement for entering patients, visits, consultations, etc., is exceedingly simple, and the whole makes a thin, compact, and easily-carried volume."

We have used this list in our own practice for the last 15 years, during which time it has saved us many hundreds of times its cost.
